Dozois, 1994 A collection of the best stories published in 1994      **Old Venus** George R. R. Martin, Gardner Dozois, 2015-03-03 Sixteen all new stories by science fiction s top talents collected by bestselling author George R R Martin and multiple award winning editor Gardner Dozois From pulp adventures such as Edgar Rice Burroughs s Carson of Venus to classic short stories such as Ray Bradbury s The Long Rain to visionary novels such as C S Lewis s Perelandra the planet

Venus has loomed almost as large in the imaginations of science fiction writers as Earth's next nearest neighbor Mars. But while the Red Planet conjured up in Golden Age science fiction stories was a place of vast deserts and ruined cities, bright blue Venus was its polar opposite: a steamy, swampy jungle world with strange creatures lurking amidst the dripping vegetation. Alas, just as the last century's space probes exploded our dreams of Mars, so too did they shatter our romantic visions of Venus, revealing instead of a lush paradise a hellish world inimical to all life. But don't despair! This new anthology of sixteen original stories by some of science fiction's best writers, edited by 1 New York Times bestselling author George R. R. Martin and award-winning editor Gardner Dozois, turns back the clock to that more innocent time before the hard-won knowledge of science vanquished the infinite possibilities of the imagination. Join our cast of award-winning contributors including Elizabeth Bear, David Brin, Joe Haldeman, Gwyneth Jones, Mike Resnick, Eleanor Arnason, Allen M. Steele, and more as we travel back in time to a planet that never was but should have been: a young, rain-drenched world of fabulous monsters and seductive mysteries.
