## **Mormonism The Islam Of America:**

**Mormonism** Bruce Kinney, 1912 The title of this the latest of the textbooks issued by the Council of Women for Home Missions may need a word of explanation It is generally acknowledged that Mormonism is similar to Mohammedanism in its endorsement of the practice of polygamy and its ideas of heaven Many other points of similarity between these systems have been noted by students and the Book of Mormon has marked resemblance to the Koran As all ancient religions have a modern equivalent Mormonism can justly be claimed to be the modern form of Mohammedanism and not incorrectly termed the Islam of America While the subject considered in this book should be approached only in a spirit of fairness and Christian sympathy it has become of too great importance in our national life to be omitted as a topic for careful study It is in response to a wide spread realization that this subject is a national problem and bears an important relation to Home Missions that the Council of Women presents this book In beginning its study it is wise to free the mind of some misapprehension Prominent among our national ideals are those of religious liberty for ourselves and toleration for our neighbors faith No violation of this principle is involved in a candid just and sympathetic study of any system of religious belief In the Handbook of our faith Christians are exhorted to prove all doctrines in order rightly to measure their truth and test their moral standards In this spirit this textbook has been written Dr Kinney is peculiarly fitted to deal with his subject both from careful investigation and from personal acquaintance with it in Utah The Mormon problem is not primarily a religious one nor should it be so considered The hierarchy which embodies this system has extended its influence into so many lines of our national concerns that Mormonism has ceased to be of merely theological or religious significance It must be studied in its relation to government and commerce to social conditions to its influence on state policies and even on the utterances of the press before it can be rightly understood as a factor in our present day nationality In all these connections it is presented by Dr Kinney and while he regards with Christian sympathy the followers of the Mormon religion he sees and presents clearly the dangers inherent in the designs ambitions and methods of the all powerful hierarchy which absolutely controls the affairs of the church and the lives of every one of its members The undue influence in the affairs of the nation and the councils of the government attained by this powerful body makes its beliefs and practices of national concern Dr Kinney's point of view is intelligent broad and just The Council of Women for Home Missions is glad to give to its readers and students a textbook so full of carefully authenticated information and written in a spirit of such justice and charity for those deceived indeed but honest in their mistaken beliefs From the Editorial Committee

*American Christians and Islam* Thomas S. Kidd,2018-06-05 In the wake of the September 11 terrorist attacks many of America s Christian evangelicals have denounced Islam as a demonic and inherently violent religion provoking frustration among other Christian conservatives who wish to present a more appealing message to the world s Muslims Yet as Thomas

Kidd reveals in this sobering book the conflicted views expressed by today's evangelicals have deep roots in American history. Tracing Islam's role in the popular imagination of American Christians from the colonial period to today, Kidd demonstrates that Protestant evangelicals have viewed Islam as a global threat while also actively seeking to convert Muslims to the Christian faith since the nation's founding. He shows how accounts of Mahometan despotism and lurid stories of European enslavement by Barbary pirates fueled early evangelicals' fears concerning Islam and describes the growing conservatism of American missions to Muslim lands up through the post World War II era. Kidd exposes American Christians' anxieties about an internal Islamic threat from groups like the Nation of Islam in the 1960s and America's immigrant Muslim population today and he demonstrates why Islam has become central to evangelical end times narratives. Pointing to many evangelicals' unwillingness to acknowledge Islam's theological commonalities with Christianity and their continued portrayal of Islam as an evil and false religion, Kidd explains why Christians themselves are ironically to blame for the failure of evangelism in the Muslim world. American Christians and Islam is essential reading for anyone seeking to understand the causes of the mounting tensions between Christians and Muslims today.

*A Muslim in Victorian America* Umar F. Abd-Allah, 2006-09-21

Conflicts and controversies at home and abroad have led Americans to focus on Islam more than ever before. In addition, more and more of their neighbors, colleagues, and friends are Muslims. While much has been written about contemporary American Islam and pioneering studies have appeared on Muslim slaves in the antebellum period, comparatively little is known about Islam in Victorian America. This biography of Alexander Russell Webb, one of the earliest American Muslims to achieve public renown, seeks to fill this gap. Webb was a central figure of American Islam during the late nineteenth and early twentieth centuries. A native of the Hudson Valley, he was a journalist, editor, and civil servant. Raised a Presbyterian, Webb early on began to cultivate an interest in other religions and became particularly fascinated by Islam. While serving as U.S. consul to the Philippines in 1887, he took a greater interest in the faith and embraced it in 1888, one of the first Americans known to have done so. Within a few years, he began corresponding with important Muslims in India. Webb became an enthusiastic propagator of the faith, founding the first Islamic institution in the United States, the American Mission. He wrote numerous books intended to introduce Islam to Americans, started the first Islamic press in the United States, published a journal entitled *The Moslem World*, and served as the representative of Islam at the 1893 World's Parliament of Religions in Chicago. In 1901, he was appointed Honorary Turkish Consul General in New York and was invited to Turkey, where he received two Ottoman medals of merit. In this first-ever biography of Webb, Umar F. Abd-Allah examines Webb's life and uses it as a window through which to explore the early history of Islam in America. Except for his adopted faith, every aspect of Webb's life was as Abd-Allah shows quintessentially characteristic of his place and time. It was because he was so typically American that he was able to serve as Islam's ambassador to America and vice versa. As America's Muslim community grows and becomes more visible, Webb's life and the virtues he championed—pluralism, liberalism, universal humanity, and a sense of civic

and political responsibility exemplify what it means to be an American Muslim
