## **Moroccan Islam Tradition And Society In A Pilgrimage Center:**

**Moroccan Islam** Dale F. Eickelman, 2014-07-03 This book is one of the first comprehensive studies of Islam as locally understood in the Middle East Specifically it is concerned with the prevalent North African belief that certain men called marabouts have a special relation to God that enables them to serve as intermediaries and to influence the well being of their clients and kin Dale F Eickelman examines the Moroccan pilgrimage center of Boujad and unpublished Moroccan and French archival materials related to it to show how popular Islam has been modified by its adherents to accommodate new social and economic realities In the course of his analysis he demonstrates the necessary interrelationship between social history and the anthropological study of symbolism Eickelman begins with an outline of the early development of Islam in Morocco emphasizing the maraboutic crisis of the fourteenth through sixteenth centuries He also examines the history and social characteristics of the Sherqawi religious lodge on which the study focuses in preprotectorate Morocco In the central portion of the book he analyzes the economic activities and social institutions of Boujad and its rural hinterland as well as some basic assumptions the townspeople and tribesmen make about the social order Finally there is an intensive discussion of maraboutism as a phenomenon and the changing local character of Islam in Morocco In focusing on the folk level of Islam rather than on high culture tradition the author has made possible a more general interpretation of Moroccan society that is in contrast with earlier accounts that postulated a marked discontinuity between tribe and town past and present *Culture and Customs of Morocco* Raphael Chijioke Njoku, 2005-12-30 Moroccan culture today is a blend of Berber African Arab Jewish and European influences in an Islamic state Morocco s strategic position at the tip of North Africa just below Spain has brought these cultures together through the centuries The parallels with African and Middle Eastern countries and other Muslim cultures are drawn as the major topics are discussed yet the uniqueness of Moroccan traditions particularly those of the indigenous Berbers stand out The narrative emphasizes the evolving nature of the storied subcultures With more exposure to Western style education and pop culture the younger generations are gradually turning away from the strict religious observances of their elders General readers finally have a substantive resource for information on a country most known in the United States for the Humphrey Bogart classic Casablanca images of the souks markets hashish and Berber rugs The strong introduction surveys the people land government economy educational system and history Most weight is given to modern history with French colonial rule ending in 1956 and a succession of monarchs since then The discussion of religion and worldview illuminates the Islamic base and Jewish communities but is also notable for the discussion of Berber beliefs in spirits In the Literature and Media chapter the oral culture of the Berbers and the new preference for Western style education and use of French and even English are highlights The Moroccans are renowned as skilled artisans and their products are enumerated in the Art and Architecture Housing chapter along with the intriguing descriptions of casbahs and old quarters in the major cities Moroccans are hospitable and family oriented which is reflected in descriptions of their

cuisine and social customs Moroccan women seem to be somewhat freer than others in Muslim countries but the chapter on Gender Roles Marriage and Family shows that much progress is still needed Ceremonies and celebrations are important cultural markers that bring communities together and a wealth of religious national and family rites of passage with accompanying music and dance round out the cultural coverage      **A History of Islamic Societies** Ira M.

Schroeter,2011-07-01 With only a small remnant of Jews still living in the Maghrib at the beginning of the 21st century the vast majority of today s inhabitants of North Africa have never met a Jew Yet as this volume reveals Jews were an integral part of the North African landscape from antiquity Scholars from Morocco Algeria Tunisia Israel and the United States shed new light on Jewish life and Muslim Jewish relations in North Africa through the lenses of history anthropology language and literature The history and life stories told in this book illuminate the close cultural affinities and poignant relationships between Muslims and Jews and the uneasy coexistence that both united and divided them throughout the history of the Maghrib      **Tribe and Society in Rural Morocco** David M. Hart,2014-05-12 An anthropological study of Berber society and particularly the Rifian tribes of Morocco a Muslim society This book deals with the background of these tribes their settlement in various areas and contemporary issues      **Cultural Anthropology of the Middle East** ,1992 During the last

two decades the number of anthropological studies on the Middle East has increased exponentially This partially annotated bibliography offers a comprehensive survey of studies written in English French and German and covers the period from 1965 to 1987      **The Social Philosophy of Ernest Gellner** ,2023-12-28      *Muslim Society and the Western Indian Ocean*

Edward Simpson,2007-01-24 Based on substantial ethnographic textual and archival research this interesting book offers a new perspective on the anthropology of the western Indian Ocean Writing in a clear engaging style and covering an impressive range of theoretical terrain Simpson critically explores the relationships between people and things that give life to the region and drive shifting patterns of social change among Muslims in the highly politicized state of Gujarat Scholars of

the Indian Ocean Muslim society in South Asia and Hindu nationalism as well as anthropologists in general will find this a fascinating read and a major contribution to research in this area     **An Introduction to the Modern Middle East, Student Economy Edition** David Sorenson,2018-10-03 This book introduces the politics of the modern Middle East which includes the countries of the Persian Gulf the eastern Mediterranean countries and North Africa It covers the major geographical regions that make up the Middle East and summarizes the post World War I history of the Middle East

**Human Rights and Reform** Susan Eileen Waltz,1995-01-01 6 Morocco God and King     Jewish Morocco Emily Benichou Gottreich,2020-02-20 The history of Morocco cannot effectively be told without the history of its Jewish inhabitants Their presence in Northwest Africa pre dates the rise of Islam and continues to the present day combining elements of Berber Amazigh Arab Sephardi and European culture Emily Gottreich examines the history of Jews in Morocco from the pre Islamic period to post colonial times drawing on newly acquired evidence from archival materials in Rabat Providing an important reassessment of the impact of the French protectorate over Morocco the author overturns widely accepted views on Jews participation in Moroccan nationalism an issue often marginalized by both Zionist and Arab nationalist narratives and breaks new ground in her analysis of Jewish involvement in the istiqlal and its aftermath Fitting into a growing body of scholarship that consciously strives to integrate Jewish and Middle Eastern studies Emily Gottreich here provides an original perspective by placing pressing issues in contemporary Moroccan society into their historical and in their Jewish contexts

Curry,2010-10-19 One of more poorly understood aspects of the history of the Ottoman Empire has been the flourishing of

Sufi mysticism under its auspices This study tracks the evolution of the Halveti order from its modest origins in medieval Azerbaijan to the emergence of its influential Sa baniyye branch whose range extended throughout the Empire at the height of its expansion By carefully reconstructing the lives of formerly obscure figures in the history of the order a complex picture emerges of the connections of Halveti groups with the Ottoman state and society Even more importantly since the Sa baniyye branch of the order grew out of the towns and villages of the northern Anatolian mountains rather than the major urban centres this work has the added benefit of bringing a unique perspective to how Ottoman subjects lived worked and worshiped outside the major urban centres of the Empire Along the way it sheds light on less visible actors in society such as women and artisans and challenges widely held generalizations about the activities and strategies of Ottoman mystics

*International Perspectives on Pilgrimage Studies* John Eade, Dionigi Albera, 2015-04-10 Although research on contemporary pilgrimage has expanded considerably since the early 1990s the conversation has largely been dominated by Anglophone researchers in anthropology ethnology sociology and religious studies from the United Kingdom the United States France and Northern Europe This volume challenges the hegemony of Anglophone scholarship by considering what can be learned from different national linguistic religious and disciplinary traditions with the aim of fostering a global exchange of ideas The chapters outline contributions made to the study of pilgrimage from a variety of international and methodological contexts and discuss what the metropolis can learn from these diverse perspectives While the Anglophone study of pilgrimage has largely been centred on and located within anthropological contexts in many other linguistic and

academic traditions areas such as folk studies ethnology and economics have been highly influential Contributors show that in many traditions the study of folk beliefs and practices often marginalized within the Anglophone world has been regarded as an important and central area which contributes widely to the understanding of religion in general and pilgrimage specifically As several chapters in this book indicate folk based studies have played an important role in developing different methodological orientations in Poland Germany Japan Hungary Italy Ireland and England With a highly international focus this interdisciplinary volume aims to introduce new approaches to the study of pilgrimage and to transcend the boundary between center and periphery in this emerging discipline
