Charles de Foucauld's Reconnaissance au Maroc, 1883/1884 Rosemary A. Peters-Hill, 2020-09-25 Reconnaissance au Maroc is Charles de Foucauld's adventurous account of his Moroccan explorations For eleven months in 1883/84 Foucauld travelled through a country then off limits to Europeans documenting its landscape and charting its waterways He travelled in disguise as a Russian rabbi Joseph Aleman accompanied by the real rabbi Mardoché Aby Serour and sought hospitality in the mellahs Jewish quarters of villages along their route Foucauld meticulously recorded every day of his time in Morocco and by the time his memoir was published in 1888 it had already garnered praise in France and the prestigious gold medal from the Société de Géographie de Paris The book is more than merely a travel memoir however as an artefact of cultural and religious encounter and as a scientific compendium Reconnaissance au Maroc offers an extraordinary glimpse of the late nineteenth

century French mentality toward North Africa as well as a cross section of Moroccan society in the pre colonial era Rosemary Peters Hill s volume translates Foucauld s work into English for the first time situating Reconnaissance within the contexts of both late nineteenth century French writing about ailleurs other places and Foucauld s own journey through Morocco the other place where paradoxically he found his true self and calling

Cold War Photographic Diplomacy Darren Newbury,2024-02-06 The emergence of newly independent African nations onto the world stage in the mid twentieth century precipitated a contest for influence among Cold War superpowers leading the United States to mount an international campaign of photographic diplomacy underpinned by a faith in the medium s capacity to cross cultural boundaries However the increasing global visibility of racial injustice undermined US claims that the nation had transcended colonial racism Drawing on extensive research in the archives of the United States Information Agency USIA and concentrating on the period from the mid 1950s through to the late 1960s Darren Newbury traces the role of photography in the United States appeal to Africa Newbury shows how photographing the political cultural and educational visits of Africans to the United States provided a space for the imagination of international cooperation and friendship how the United States presented the civil rights struggle as an example of democracy in action and how it pictured a world of integration and racial coexistence Cold War Photographic Diplomacy chronicles this careful scripting of images and picture stories and details the cultural and pedagogical work that photography was expected to perform as it was inserted into the visual culture of African cities through magazines posters pamphlets and window displays Locating photography at the intersection of African decolonization racial conflict in the United States and the cultural Cold War this study will especially appeal to students and scholars of the history of photography American studies and Africana studies
