Congress. House. Committee on Foreign Affairs, 1995 Moroccan Women, Activists, and Gender Politics Eve Sandberg, Kenza Aqertit, 2014-09-26 Sandberg and Aqertit analyze how over the course of

twenty five years dedicated smart and politically effective Moroccan women working simultaneously in multiple settings and aware of each other's work altered Morocco's entrenched gender institution of regularized practices and distinctive rights and obligations for men and women. In telling the story of these Moroccan gender activists Sandberg and Agertit's work is of interest to Middle East and North Africa MENA area specialists to feminist and gender researchers and to institutionalist scholars. Their work operationalizes and offers a template for studying change in national gender institutions that can be adopted by practitioners and scholars in other country settings. French Mediterraneans Patricia M. E. Lorcin, Todd Shepard, 2016-05 While the Mediterranean is often considered a distinct unified space recent scholarship on the early modern history of the sea has suggested that this perspective is essentially a Western one devised from the vantage point of imperial power that historically patrolled the region's seas and controlled its ports. By contrast for the peoples of its southern shores the Mediterranean was polymorphous shifting with the economic and seafaring exigencies of the moment. Nonetheless by the nineteenth century the idea of a monolithic Mediterranean had either been absorbed by or imposed on the populations of the region. In **French Mediterraneans** editors Patricia M E Lorcin and Todd Shepard offer a collection of scholarship that reveals the important French element in the nineteenth and twentieth century creation of the singular Mediterranean. These essays provide a critical study of space and movement through new approaches to think about the maps migrations and margins of the sea in the French imperial and transnational context. By reconceptualizing the Mediterranean this volume illuminates the diversity of connections between places and polities that rarely fit models of nation state allegiances or preordained geographies. *Air University Library Index to Military Periodicals*, 1987

The Berber Identity Movement and the Challenge to North African States Bruce Maddy-Weitzman, 2011-05-01 Like many indigenous groups that have endured centuries of subordination the Berber Amazigh peoples of North Africa are demanding linguistic and cultural recognition and the redressing of injustices Indeed the movement seeks nothing less than a refashioning of the identity of North African states a rewriting of their history and a fundamental change in the basis of collective life In so doing it poses a challenge to the existing political and sociocultural orders in Morocco and Algeria while serving as an important counterpoint to the oppositionist Islamist current This is the first book length study to analyze the rise of the modern ethnocultural Berber Amazigh movement in North Africa and the Berber diaspora Bruce Maddy Weitzman begins by tracing North African history from the perspective of its indigenous Berber inhabitants and their interactions with more powerful societies from Hellenic and Roman times through a millennium of Islam to the era of Western colonialism He

then concentrates on the marginalization and eventual reemergence of the Berber question in independent Algeria and Morocco against a background of the growing crisis of regime legitimacy in each country His investigation illuminates many issues including the fashioning of official national narratives and policies aimed at subordinating Berbers in an Arab nationalist and Islamic centered universe the emergence of a counter movement promoting an expansive Berber imagining that emphasizes the rights of minority groups and indigenous peoples and the international aspects of modern Berberism

Harold Brown Edward Coltrin Keefer, 2018 Author Edward Keefer chronicles and analyses the tenure of Secretary of Defense Harold Brown who worked to counter the Soviet Union's growing military strength during the administration of President Jimmy Carter. Flush with cash from oil and gas development, the Soviets came closest to matching the United States in strategic power than at any other point in the Cold War, threatening to make the U.S. land-based missile force vulnerable to a first strike. By most reckonings, the Kremlin also surpassed the West in conventional arms and forces in Central Europe, creating a direct threat to NATO. In response, Brown, a nuclear physicist, advocated for the development of more technologically advanced weapon systems to offset the Soviet military advantage but faced Carter's efforts to reign in the defense budget. Eventually, the secretary, backed by the JCS, the national security adviser, and key members of Congress, persuaded a reluctant Carter to increase defense spending for the last two years of his term. As a result, weapons development such as stealth technology, precision-guided bombs, and cruise missiles went forward. These initiatives and more provided a head start for the acclaimed Ronald Reagan revolution in defense. As the author points out, there was more continuity than contrast in defense policy between Carter and Reagan. The book also highlights Brown's policymaking efforts and his influence on Carter as the administration responded to international events such as the Middle East peace process, the Iran revolution and hostage crisis, the rise of radical Islam, negotiations with the Soviets over arms limitations, the Soviet invasion of Afghanistan, and the creation of a new security framework in the Persian Gulf region. Other topics cover policy toward Latin America, Africa, China, and Southeast Asia. The book is also a history of the Defense Department, including the continual development of the All-Volunteer Force and the organizational changes that saw improved policy formulation and acquisition decisions. Political strategists, political scientists, international relations scholars, foreign policy advocates, historians, and political economists may be interested in this comprehensive historical reference for United States defense and foreign policy under the James Jimmy Carter administration. High school students pursuing research for essays and term papers for Government, Modern World History, and United States History may be interested in this resource. Additionally, undergraduate and graduate level students may be interested in this authoritative resource for research relating to international relations, public administration, military science, public policy, economics, and introduction to political theory courses.
