Distant Neighbors Gary Snyder, Wendell Berry, 2014-05-13 The letters are valuable for ecologists students and teachers of contemporary American literature and for those of us eager to know how these two distant neighbors networked negotiated and remained friends San Francisco Chronicle In *Distant Neighbors* both Berry and Snyder come across as honest and open hearted explorers There is an overall sense that they possess a deep and questing wisdom hard earned through land work travel writing and spiritual exploration There is no rushing no hectoring and no grand gestures between these two just an ever deepening inquiry into what makes a good life and how to live it even in the depths of the machine age Orion Magazine In 1969 Gary Snyder returned from a long residence in Japan to northern California to a homestead in the Sierra foothills where he intended to build a house and settle

on the land with his wife and young sons He had just published his first book of essays *Earth House Hold* A few years before after a long absence Wendell Berry left New York City to return to land near his grandfather s farm in Port Royal Kentucky where he built a small studio and lived there with his wife as they restored an old house on their newly acquired homestead In 1969 Berry had just published *Long Legged House* These two founding members of the counterculture and of the new environmental movement had yet to meet but they knew each other s work and soon they began a correspondence Neither man could have imagined the impact their work would have on American political and literary culture nor could they have appreciated the impact they would have on one another Snyder had thrown over all vestiges of Christianity in favor of becoming a devoted Buddhist and Zen practitioner and had lived in Japan for a prolonged period to develop this practice Berry s discomfort with the Christianity of his native land caused him to become something of a renegade Christian troubled by the church and organized religion but grounded in its vocabulary and its narrative Religion and spirituality seemed like a natural topic for the two men to discuss and discuss they did They exchanged more than 240 letters from 1973 to 2013 remarkable letters of insight and argument The two bring out the best in each other as they grapple with issues of faith and reason discuss ideas of home and family worry over the disintegration of community and commonwealth and share the details of the lives they ve chosen to live with their wives and children Contemporary American culture is the landscape they reside on Environmentalism sustainability global politics and American involvement literature poetry and progressive ideals these two public intellectuals address issues as broad as are found in any exchange in literature No one can be unaffected by the complexity of their relationship the subtlety of their arguments and the grace of their friendship This is a book for the ages

the most important cultural figures of the twentieth century How to Reach Japan by Subway Meghan Warner Mettler, 2018-06 Japan's official surrender to the United States in 1945 brought to an end one of the most bitter and brutal military conflicts of the twentieth century. U.S. government officials then faced the task of transforming Japan from enemy to ally not only in top level diplomatic relations but also in the minds of the American public. Only ten years after World War II this transformation became a success as middle class American consumers across the country were embracing Japanese architecture, films, hobbies, philosophy and religion. Cultural institutions on both sides of the Pacific along with American tastemakers promoted a new image of Japan in keeping with State Department goals. Focusing on traditions instead of modern realities, Americans came to view Japan as a nation that was sophisticated and beautiful yet locked harmlessly in a timeless Oriental past. What ultimately led many Americans to embrace Japanese culture was a desire to appear affluent and properly tasteful in the status conscious suburbs of the 1950s. In *How to Reach Japan by Subway* Meghan Warner Mettler studies the shibui phenomenon in which middle class American consumers embraced Japanese culture while still exoticizing this new aesthetic. By examining shibui through the popularity of samurai movies, ikebana, flower arrangement, bonsai, cultivation, home and garden design and Zen Buddhism, Mettler provides a new context and perspective for understanding how Americans encountered a foreign nation in their everyday lives. **New York Magazine**, 1983-10-24 New York Magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea. *The Modern West* Emily Ballew Neff, Barry Lopez, 2006-01-01 A fascinating and novel exploration of the transformative role played by the American West in the development of modernism in the United States. Drawing extensively from various disciplines including ethnology, geography, geology and environmental studies, this groundbreaking book addresses shifting concepts of time, history and landscape in relation to the work of pioneering American artists during the first half of the 20th century. Paintings, watercolors and photographs by renowned artists such as Frederic Remington, Georgia O'Keeffe, Ansel Adams, Thomas Hart Benton, Dorothea Lange and Jackson Pollock are considered alongside American Indian ledger drawings, temperas and Diné sandpaintings. Taken together, these works document the quest to create a specifically American art in the decades prior to World War II. *The Modern West* begins with a captivating meditation on the relationship between human culture and the physical landscape by Barry Lopez, who traveled the West in the artists' footsteps. Emily Ballew Neff then describes the evolving importance of the West for American artists working out a radically new aesthetic response to space and place from artist explorers on the turn of the century frontier to visionaries of a Californian arcadia to desert luminaries who found in its stark topography a natural equivalent to abstraction. Beautifully illustrated and handsomely designed, this book is essential to

anyone interested in the West and the history of modernism in American art *Ian McHarg and the Search for Ideal Order*
Kathleen John-Alder, 2019-09-17 Ian McHarg and the Search for Ideal Order looks at the well known and studied landscape architect Ian McHarg in a new light The author explores McHarg's formative years and investigates how his ideas developed in both their complexity and scale As a precursor to McHarg's approach in his influential book *Design with Nature* this book offers new interpretations into his search for environmental order and outlines how his struggle to understand humanity's relationship to the environment in an era of rapid social and technological change reflects an ongoing challenge that landscape design has yet to fully resolve This book will be of great interest to academics and researchers in landscape architectural history *The Ebsworth Collection* Bruce Robertson, Charles Brock, Seattle Art Museum, 1999 This book the companion volume to an exhibition at the National Gallery of Art Washington and the Seattle Art Museum showcases the extraordinary collection of modern American masterworks assembled by Barney A Ebsworth a St Louis businessman The collection includes paintings sculpture and works on paper by artists such as Patrick Henry Bruce Alexander Calder Willem de Kooning Marsden Hartley David Hockney Edward Hopper Jasper Johns Jackson Pollock Charles Sheeler and Wayne Thiebaud With more than 135 illustrations and an illuminating essay by distinguished art historian Bruce Robertson this book will be a revelation to anyone who loves 20th century American art *Department of the Interior and Related Agencies Appropriations for 1985: Testimony of members of Congress* United States.
