## **Morristowns Forgotten Past The Gilded Age:**

Morristown's Forgotten Past, "The Gilded Age" John Warden Rae, 1979      Morristown Bonnie-Lynn Nadzeika, 2012 The seat of Morris County Morristown began as a small rural settlement centered around a common green The small village soon earned its place in American history when George Washington chose to make Morristown the site of his headquarters twice during the Revolutionary War Just a few decades later history was made again when Samuel Morse made Alfred Vail his partner in developing the telegraph at Speedwell Iron Works in Morristown The town continued to grow as successive immigrant groups created ethnic enclaves The Gilded Age came to Morristown and by 1900 dozens of millionaires called the community home and brought the trappings of wealth from lavish homes to social clubs Today while Morristown continues to evolve numerous historic sites and museums document its rich past      **Theodore Roosevelt in the Field** Michael R.

Canfield, 2022-12-22 Never has there been a president less content to sit still behind a desk than Theodore Roosevelt When we picture him he is on horseback or standing at a cliff's edge or dressed for safari And Roosevelt was more than just an adventurer he was also a naturalist and campaigner for conservation His love of the outdoor world began at an early age and was driven by a need not to simply observe nature but to be actively involved in the outdoors to be in the field As Michael R Canfield reveals in *Theodore Roosevelt in the Field* throughout his life Roosevelt consistently took to the field as a naturalist hunter writer soldier and conservationist and it is in the field where his passion for science and nature his belief in the manly strenuous life and his drive for empire all came together Drawing extensively on Roosevelt's field notebooks diaries and letters Canfield takes readers into the field on adventures alongside him From Roosevelt's early childhood observations of ants to his notes on ornithology as a teenager Canfield shows how Roosevelt's quest for knowledge coincided with his interest in the outdoors We later travel to the Badlands after the deaths of Roosevelt's wife and mother to understand his embrace of the rugged freedom of the ranch lifestyle and the Western wilderness Finally Canfield takes us to Africa and South America as we consider Roosevelt's travels and writings after his presidency Throughout we see how the seemingly contradictory aspects of Roosevelt's biography as a hunter and a naturalist are actually complementary traits of a man eager to directly understand and experience the environment around him As our connection to the natural world seems to be more tenuous *Theodore Roosevelt in the Field* offers the chance to reinvigorate our enjoyment of nature alongside one of history's most bold and restlessly curious figures      **Mansions of Morris County** John W. Rae, 1999 This pictorial record of Morris

County New Jersey traces the dramatic rise of America's least known colony of millionaires during the Gilded Age The area became a country retreat for the upper class Families such as the Vanderbilts Rockefellers Kountzes Wolffs Dodges and Claflins built impressive estates in the area referred to as the inland Newport By the 1920s the prominence of Morris County was eclipsed by the lure of Long Island and its economy was being threatened by the Depression Faced with high taxes from the newly established income tax skyrocketing maintenance costs and a dwindling reservoir of help the wealthy residents

began razing their mansions Although many of these vast estates have been long gone and forgotten author John W Rae s collection of early Morris County photographs recaptures the area s palatial homes in their full grandeur Within the pages of Morris County Mansions Rae invites you to join him on a visual tour of the magnificent architecture of the Gilded Age Meet the area s prominent families and discover little known facts about the homes in which they resided **Morristown** John W. Rae,2002 Morristown New Jersey first earned its place in history during the Revolutionary War when General George Washington camped here with the Continental army an event that led to the founding of the first National Historic Park in 1933 Morristown preserves history while keeping up with the times often forging ahead of the pack and into the future The Green once a grazing ground for sheep and cattle became the site of the first Morris County Courthouse and is still a thriving central gathering place for townspeople Even many of the Morristown s municipal buildings tell of a past steeped in the Gilded Age as today s citizens walk the halls once trod by millionaires Morristown A Military Headquarters of the American Revolution chronicles the many famous people connected to the area such as Benedict Arnold who was tried here for treason A landmark event of the communication industry also occurred here when Samuel Morse and Alfred Vail perfected the magnetic telegraph in a barn This new volume invites readers for a ride through the past with glimpses into the lives of one of the world s richest and least known colonies of wealthy people the hidden drama and sometime romance of a Revolutionary army camp and the secret network of tunnels dug beneath the city during Prohibition **The Mendhams** John W. Rae,1998-10 The Mendhams is a region of New Jersey once home to the Rock a bye Baby Railroad early industries and the mansions of millionaires This visual history follows the region from the Revolutionary War to the Industrial Revolution and from the Gilded Age to its transformation into a community for New York commuters The photographs from years gone by allow both young and old to meander down the dirt road of Main Street past the nation s oldest post office and over the bridges crossing streams that powered the early mills Featured in The Mendhams are views of elaborate historic homes and businesses including the mill where Jersey Lightning New Jersey s first apple jack was produced Captured in over 200 images are moments in the lives of the people who made this community not just early town officials religious leaders and gilded age millionaires but also store owners housewives and children Welcome to America, Mr. Sherlock Holmes Christopher Redmond,1987-11-01 Christopher Redmond s fascinating account of Doyle s first trip to America has been reconstructed from newspaper accounts describing the places Doyle visited from the Adirondacks to New York Chicago and Toronto Despite the gruelling tour schedule Doyle met dozens of the most important literary and social lights of America Everywhere he went he was mobbed by public hungry for news of the man he had killed off a year earlier Sherlock Holmes who was front page news In Redmond s lively narrative which is based on letters newspaper reports and other newly unearthed sources you will discover as Doyle himself put it the romance of America **Otto Kahn** Theresa M. Collins,2014-03-01 In the early decades of the twentieth century almost everyone in modern theater literature or film knew of

Otto Kahn 1867 1934 and those who read the financial press or followed the news from Wall Street could scarcely have missed his name A partner at one of America s premier private banks he played a leading role in reorganizing the U S railroad system and supporting the Allied war effort in World War I The German Jewish Kahn was also perhaps the most influential patron of the arts the nation has ever seen he helped finance the Metropolitan Opera brought the Ballets Russes to America and bankrolled such promising young talent as poet Hart Crane the Provincetown Players and the editors of the Little Review This book is the full scale biography Kahn has long deserved Theresa Collins chronicles Kahn s life and times and reveals his singular place at the intersection of capitalism and modernity Drawing on research in private correspondence congressional testimony and other sources she paints a fascinating portrait of the figure whose seemingly incongruous identities as benefactor and banker inspired the New York Times to dub him the Man of Velvet and Steel *Jacques Copeau's Friends and Disciples* Thomas John Donahue,2008 In a remarkable adventure Jacques Copeau brought the troupe of the Th tre du Vieux Colombier to the Garrick Theatre in New York City in the fall of 1917 During the next two theater seasons he staged more than forty different plays in repertory in French He experimented with the use of both the tr teau nu a bare raised platform for some of Moli re s farces and the loggia or unit set for all his plays Copeau s experiments with scenography mark this period as a critical moment in the evolution of stage d cor both in the United States and in Europe Moreover his development of a full repertory sometimes three new plays in a week demonstrated to the United States fledgling art theater movement how important a full repertory is for the actor s continued training Jacques Copeau s Friends and Disciples brings to light the support Copeau received from a diverse group of personalities without whom his undertaking would not have been possible Otto H Kahn financier and supporter of the arts Mrs Phillip Lydig a grande dame of New York high society Antonin Raymond the Czech architect who renovated the Garrick Theatre Daisy Andrews Copeau s tireless factotum Louis Jouvet stage manager actor and scenographer Charles Dullin actor director and teacher Suzanne Bing a member of the troupe who embodied Copeau s ideals and lastly Agn s Thomsen Copeau Copeau s loyal wife and companion This study places the achievement of Copeau in the context of the developments of both European and American theater at the beginning of the twentieth century *Mine Towns* Alison K. Hoagland,2010-04-20 During the nineteenth century the Keweenaw Peninsula of Northern Michigan was the site of America s first mineral land rush as companies hastened to profit from the region s vast copper deposits In order to lure workers to such a remote location and work long hours in dangerous conditions companies offered not just competitive wages but also helped provide the very infrastructure of town life in the form of affordable housing schools health care facilities and churches The first working class history of domestic life in Copper Country company towns during the boom years of 1890 to 1918 Alison K Hoagland s Mine Towns investigates how the architecture of a company town revealed the paternal relationship that existed between company managers and workers a relationship that both parties turned to their own advantage The story of Joseph and Antonia Putrich immigrants from

Croatia punctuates and illustrates the realities of life in a booming company town While company managers provided housing as a way to develop and control a stable workforce workers often rejected this domestic ideal and used homes as an economic resource taking in boarders to help generate further income Focusing on how the exchange between company managers and a largely immigrant workforce took the form of negotiation rather than a top down system Hoagland examines surviving buildings and uses Copper Country s built environment to map this remarkable connection between a company and its workers at the height of Michigan s largest land rush

The Price of Altruism Oren Harman,2011-06-20 Enthralling Frans de Waal New York Times Book Review Survival of the fittest or survival of the nicest Since the dawn of time man has contemplated the mystery of altruism but it was Darwin who posed the question most starkly From the selfless ant to the stinging bee to the man laying down his life for a stranger evolution has yielded a goodness that in theory should never be Set against the sweeping tale of 150 years of scientific attempts to explain kindness The Price of Altruism tells for the first time the moving story of the eccentric American genius George Price 1922 1975 as he strives to answer evolution s greatest riddle An original and penetrating picture of twentieth century thought it is also a deeply personal journey From the heights of the Manhattan Project to the inspired equation that explains altruism to the depths of homelessness and despair Price s life embodies the paradoxes of Darwin s enigma His tragic suicide in a squatter s flat among the vagabonds to whom he gave all his possessions provides the ultimate contemplation on the possibility of genuine benevolence
