abdomen and Pelvis J. Hodler, G.K. von Schulthess, C.L. Zollikofer, 2007-05-10 Written by internationally renowned experts this is a collection of chapters dealing with imaging diagnosis and interventional therapies in abdominal and pelvic disease The different topics are disease oriented and encompass all the relevant imaging modalities including X ray technology nuclear medicine ultrasound and magnetic resonance as well as image guided interventional techniques This condensed overview of twenty relevant topics in abdominal and pelvic disease is written for residents in radiology and experienced radiologists **Clinical Management of Gastrointestinal Cancer** Jerome J. DeCosse, Paul Sherlock, 2012-12-06 Where do

you begin to look for a recent authoritative article on the diagnosis or management of a particular malignancy The few

general oncology textbooks are generally out of date Single papers in specialized journals are informative but seldom comprehensive these are more often preliminary reports on a very limited number of patients Certain general journals frequently publish good indepth reviews of cancer topics and published symposium lectures are often the best overviews available Unfortunately these reviews and supplements appear sporadically and the reader can never be sure when a topic of special interest will be covered Cancer Treatment and Research is a series of authoritative volumes which aim to meet this need It is an attempt to establish a critical mass of oncology literature covering virtually all oncology topics revised frequently to keep the coverage up to date easily available on a single library shelf or by a single personal sub scription We have approached the problem in the following fashion First by dividing the oncology literature into specific subdivisions such as lung cancer genitourin ary cancer pediatric oncology etc Second by asking eminent authorities in each of these areas to edit a volume on the specific topic on an annual or biannual basis Each topic and tumor type is covered in a volume appearing frequently and predictably discussing current diagnosis staging markers all forms of treatment modalities basis biology and more
