Mortal Embrace Living With Aids:

Mortal Embrace Emmanuel Dreuilhe,1988 **Mortal Embrace** A. E. Dreuilhe,1988-01-01 Viewing the AIDS epidemic in the context of the historical incidence of pestilence the author discusses his own struggle against the physical and emotional ravages of AIDS and the reaction of a society facing a modern day plague **HIV Stories** Jean-Pierre Boulé,2002-01-01 Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition **Mortal Men** Richard MacIntyre,1999 People who have lived for many years with HIV but without symptoms are asked to fight a virus they cannot see and a disease they cannot feel This not only colours decisions about medical treatment it also affects personal identity sexuality community and lifestyle

AIDS Narratives Steven F. Kruger,2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual s bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it *AIDS: Activism and Alliances* Peter Aggleton,Peter Davis,Graham Hart,2003-09-02 This book brings together specially selected papers addressing themes discussed at the Eighth Conference on the Social Aspects of AIDS held in London in late 1995 [The Routledge Handbook of Classics and Queer Theory](#) Ella Haselswerdt,Sara H. Lindheim,Kirk Ormand,2023-09-29 New directions in queer theory continue to trouble the boundaries of both queerness and the classical leading to an explosion of new work in the vast and increasingly uncharted intersection between these disciplines which this interdisciplinary volume seeks to explore This handbook convenes an international group of experts who work on the classical world and queer theory The discipline of Classics has been involved with and implicated in queer theory from the start By placing front and center the rejection of heteronormativity queer theory has provided Classics with a powerful tool for analyzing non normative sexual and gender relations in the ancient West while Classics offers queer theory ancient material such as literature visual arts and social practices that challenges a wide range of modern normative categories The collection demonstrates the vitality of this particular moment in queer classical studies featuring an expansive array of methodologies applied to the interdisciplinary field of Classics Embracing the indeterminacy that lies at the core of queer studies the essays in this volume are organized

not by chronology or genre but rather by overlapping categories under the following rubrics queer subjectivities queer times and places queer kinships queer receptions and ancient pasts queer futures The Routledge Handbook of Classics and Queer Theory offers an invaluable collection for anyone working on queer theory especially as it applies to premodern periods it will also be of interest to scholars engaging with the history of sexuality both in the ancient world and more broadly On the Literary Nonfiction of Nancy Mairs M. Johnson, S. Mintz, 2011-09-26 Much of the existing scholarship on Nancy Mairs has approached her essays in the context of disability studies This book seeks to broaden the conversation through a range of critical perspectives and with attention to underrepresented aspects of Mairs's oeuvre demonstrating her provocative combination of bold ethics and subtle aesthetics

Women and Autobiography Martine Watson Brownley, Allison B. Kimmich, 1999 An overview of women's autobiography providing historical background and contemporary criticism along with selections from a range of autobiographies by women It seeks to provide a broad introduction to the major questions dominating autobiographical scholarship today

Reconstructing Illness Anne Hunsaker Hawkins, 1999 Serious illness and mortality those most universal unavoidable and frightening of human experiences are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times As modern medicine has become more scientific and dispassionate a new literary genre has emerged pathography the personal narrative concerning illness treatment and sometimes death Hawkins's sensitive reading of numerous pathographies highlights the assumptions attitudes and myths that people bring to the medical encounter One factor emerges again and again in these case studies the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease Pathography allows the individual person a voice one that asserts the importance of the experiential side of illness and thus restores the feeling thinking experiencing human being to the center of the medical enterprise Recommended for medical practitioners the clergy caregivers students of popular culture and the general reader

Reconstructing Illness demonstrates that only when we hear both the doctor's and the patient's voice will we have a medicine that is truly human

Jane Austen and the Body John Wiltshire, 1992-09-24 Jane Austen has been thought of as a novelist of manners whose work discreetly avoids discussing the physical John Wiltshire shows on the contrary how important are bodies and faces illness and health in the novels from complainers and invalids such as Mrs Bennet and Mr Woodhouse to the frail debilitated Fanny Price the vulnerable Jane Fairfax and the picture of health Emma The book draws on modern theories of the body and on eighteenth century medical sources to give a fresh and controversial reading of familiar texts

My Father and I David Caron, 2011-02-23 It is a living museum of a long gone Jewish life and supposedly a testimony to the success of the French model of social integration It is a communal home where gay men and women are said to stand in defiance of the French model of social integration It is a place of freedom and tolerance where people of color and lesbians nevertheless feel unwanted and where young Zionists

from the suburbs gather every Sunday and sometimes harass Arabs It is a hot topic in the press and on television It is open to the world and open for business It is a place to be seen and a place of invisibility It is like a home to me a place where I feel both safe and out of place and where my father felt comfortable and alienated at the same time It is a place of nostalgia innovation shame pride and anxiety where the local and the global intersect for better and for worse And for better and for worse it is a French neighborhood from My Father and I Mixing personal memoir urban studies cultural history and literary criticism as well as a generous selection of photographs My Father and I focuses on the Marais the oldest surviving neighborhood of Paris It also beautifully reveals the intricacies of the relationship between a Jewish father and a gay son each claiming the same neighborhood as his own Beginning with the history of the Marais and its significance in the construction of a French national identity David Caron proposes a rethinking of community and looks at how Jews Chinese immigrants and gays have made the Marais theirs These communities embody in their engagement of urban space a daily challenge to the French concept of universal citizenship that denies them all political legitimacy Caron moves from the strictly French context to more theoretical issues such as social and political archaism immigration and diaspora survival and haunting the public private divide and group friendship as metaphor for unruly and dynamic forms of community and founding disasters such as AIDS and the Holocaust Caron also tells the story of his father a Hungarian Jew and Holocaust survivor who immigrated to France and once called the Marais home

Committee on Appropriations,1990 *Researching and Applying Metaphor* Graham Low,Lynne Cameron,1999-02-11 This book demonstrates how metaphor needs to be researched using multiple methods of investigation **The Body in History, Culture, and the Arts** Justyna Jajszczok,Aleksandra Musiał,2019-03-27 The aim of this book is to explore the body in various historical contexts and to take it as a point of departure for broader historiographical projects The chapters in the volume present the ways in which the body constitutes a valuable and productive object of historical analysis especially as a lens through which to trace histories of social political and cultural phenomena and processes More specifically the authors use the body as a tool for critical re examination of particular histories of human experience and of societal and cultural practices thus contributing to the burgeoning area of body history in terms of both specific case studies as well as historiography in general

Pain as Human Experience
