Mosaic Two Laurie Blass, Meredith Pike-Bakey, 1996

Mosaic Two A Content Based Writing Book takes students step by step through the writing process and trains them to generate and develop ideas, learn language directly related to the topic, apply the appropriate rhetorical patterns to a specific writing task, and evaluate and revise initial drafts of their work.

Research Mosaics of Language Studies in Asia: Differences and Diversity (Penerbit USM) Salasiah Che Lah, Rita Abdul Rahman Ramakrishna, This book gives readers a present and critical view of different language and linguistic issues in selected Asian contexts. The language aspect of the manuscript explores various areas of English language learning and teaching, while the linguistic aspect looks at different fields such as sociolinguistics, semantics, stylistics, corpus based studies, translation studies, and cultural studies. These aspects also provide distinct tangents in researching language for they offer significant points of view and outcomes in understanding the influence and or the function of cultures when dealing with either spoken or written discourses involving native or non native speakers. Such dynamics are instrumental in bringing about wider range of topics pertinent to the transdisciplinary nature of the current research theme in this part of the world. Substantially the major sub disciplines included in the manuscript frame both theoretical and hands on implications for more rigorous innovations and expansions in the respective area of investigation.

Mosaic Brenda Wegmann, McGraw-Hill Companies, The, 1989-11 The Art of Teaching Speaking Keith S. Folse, 2006-04-06

What elements make a speaking activity successful? Which tasks or activities really help build speaking fluency? What does the research show regarding speaking activities? What mistakes do ESL teachers often make in speaking activity design? In this highly accessible and practical resource, Keith S. Folse provides a wealth of information to help ESL/EFL teachers design and use speaking tasks that will actually improve students' speaking fluency. The book presents and discusses the relevant research and assessment issues and includes case studies from twenty different settings and classrooms around the world so that readers learn from others about the problems and successes of using various speaking activities. Teachers will find the chapters on Twenty Successful Activities and Ten Unsuccessful Activities particularly valuable. The successful activities are provided for classroom use and are reproducible. The book also contains five appendixes that explain what teachers need to know about vocabulary, pronunciation, and grammar, and how they affect the teaching of speaking. Samples of successful lesson plans and a list of resources useful for teaching speaking are also included. Keith S. Folse, Ph.D., is Coordinator, TESOL Programs.
