## **Mosaics Of Grecian History:**

Mosaics of Grecian History Marcius Willson, Robert Pierpont Wilson, 2023-06-01 Reproduction of the original Mosaics of Grecian History Marcius Willson, 2023-07-18 Marcius Willson provides readers with an engaging and accessible overview of Greek history. He covers important events such as the Persian Wars and the Peloponnesian War as well as significant figures like Pericles and Alexander the Great. This is a great introduction to the rich history of ancient Greece. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America and possibly other nations. Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work. Scholars believe and we concur that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant.

**Mosaics of Grecian History** Marcius Willson, 2015-06-24 Excerpt from *Mosaics of Grecian History: The Historical Narrative With Numerous Illustrative Poetic and Prose Selections*, a Popular Course of Reading in Grecian History and Literature. The leading object had in view in the preparation of the present volume has been to produce within a moderate compass a History of Greece that shall not only be trustworthy but interesting to all classes of readers. It must be acknowledged that our standard historical works with all their worth do not command a perusal by the people at large and it is equally plain that our ordinary School Manuals, the abridgments and outlines of more voluminous works do not meet with any greater favor. The mere outline system of historical study usually pursued in the schools is interesting to those only to whom it is suggestive of the details on which it is based and we have long been satisfied that it is not the best for beginners and for popular use that it inverts the natural order of acquisition that for the young to master it is drudgery that its statistical enumeration if ever learned by them is soon forgotten that it tends to create a prejudice against the study of history that it does not lay the proper foundation for future historical reading and that outside of the enforced study of the school room it is seldom made use of.
