*The Racial Mosaic* Daniel R. Meister, 2021-12-22 Canada is often considered a multicultural mosaic welcoming to immigrants and encouraging of cultural diversity Yet this reputation masks a more complex history In this groundbreaking study of the pre history of Canadian multiculturalism Daniel Meister shows how the philosophy of cultural pluralism normalized racism and the entrenchment of whiteness The Racial Mosaic demonstrates how early ideas about cultural diversity in Canada were founded upon and coexisted with settler colonialism and racism despite the apparent tolerance of a variety of immigrant peoples and their cultures To trace the development of these ideas Meister takes a biographical approach examining the lives and work of three influential public intellectuals whose thoughts on cultural pluralism circulated widely beginning in the 1920s Watson Kirkconnell a university professor and translator Robert England

an immigration expert with Canadian National Railways and John Murray Gibbon a publicist for the Canadian Pacific Railway While they all proposed variants of the idea that immigrants to Canada should be allowed to retain certain aspects of their cultures their tolerance had very real limits In their personal corporate and government sponsored works only the cultures of white European immigrants were considered worthy of inclusion On the fiftieth anniversary of Canada s official policy of multiculturalism The Racial Mosaic represents the first serious and sustained attempt to detail the policy s historical antecedents compelling readers to consider how racism has structured Canada s settler colonial society

that were created between the end of the fourth century BC and the sixth century AD. It presents a selection of some seventy mosaics and pavements from Alexandria and Greco Roman Egypt.
