The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance Dieter Heinzig, 2015-06-18
Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China's relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions *The Chinese Communist Armed Forces* Kenneth R. Whiting, 1974 Although the history and present state of the Chinese Communist military forces are not as well covered as those of the Soviet Union nevertheless there is a relatively large number of books articles and source collections available in English Then why this study The answer is simply that this is an attempt to tell the story of the Chinese Red Army in as concise a form as possible without compressing the narrative to the point of distortion The study may seem overstuffed with facts or what pass for facts but the author can assure the reader that he did his best to eliminate all but those he considered essential The historical approach has been used for the simple reason that like any other organism the Chinese Red Army is a melange of strengths and weaknesses rooted in its evolution *The Formation of the Chinese Communist Party* Yoshihiro Ishikawa, 2013 Official Chinese narratives recounting the rise of the Chinese Communist Party CCP tend to minimize the movement's international associations Conducting careful readings and translations of recently released documents in Russian Japanese and Chinese Ishikawa Yoshihiro builds a portrait of the party's multifaceted character revealing the provocative influences that shaped the movement and the ideologies of its competitors Making use of public and private documents and research Ishikawa begins the story in 1919 with Chinese intellectuals who wrote extensively under pen names and in fact plagiarized or translated many iconic texts of early Chinese Marxism Chinese Marxists initially drew intellectual sustenance from their Japanese counterparts until Japan clamped down on leftist activities The Chinese then turned to American and British sources Ishikawa traces these networks through an exhaustive survey of

journals newspapers and other intellectual and popular publications He reports on numerous early meetings involving a range of groups only some of which were later funneled into CCP membership and he follows the developments at Soviet Russian gatherings attended by a number of Chinese representatives who claimed to speak for a nascent CCP Concluding his narrative in 1922 one year after the party's official founding Ishikawa clarifies a traditionally opaque period in Chinese history and sheds new light on the subsequent behavior and attitude of the party

The Constitutional and Legal Development of the Chinese Presidency Zhang Runhua, 2014-11-05 This book investigates the legal and political evolution of Chinese presidency from the period of its forerunner in the 1930s its establishment in 1954 to its abolition in 1975 and its restoration in 1982 and discovers that the presidency has evolved from a traditional Chinese title into a political position and then a state institution that has the constitutional appearance of a Western style semi presidency However politically it has functioned in a Stalinist party state with Chinese characteristics whose candidates have been produced according to the CCP's step by step succession rules designated by the party leaders Real political decision making power has not only been limited by these succession rules but also by the president's role and status within the CCP's collective supreme body The author weaves the themes of Chinese politics and law together and explores not only the political implications of those constitutional provisions and amendments regarding this office but also the constitutional significance of the CCP's major political practices such as Mao Zedong's power of last say his idea of two fronts his controversial abolition of the chairmanship Deng Xiaoping's idea of the nucleus of leadership and diplomacy of the head of state by Chinese presidents thus illuminating how law has been made in those unpredictable political environments and how politics has been defined by law The author concludes that the office of president is the key to understanding how power in China derives first from the CCP second from the military and third from the government loosely prescribed by laws Even more important the millennia old Confucian concept of the charismatic leader is alive and well While all eyes are on the new incumbent his predecessors have loomed large and continue to exert significant influence on him Underlining decades of constitutional evolution and shifting political dynamics have been the changing foreign influences and local demands on China With so many variables at play the office of the president will certainly continue to evolve

New Perspectives on the Chinese Communist Revolution Tony Saich, Hans J. Van de Ven, 1995 The result of a conference cosponsored by the Sinological Institute Leiden U and the International Institute of Social History Amsterdam and held during January 1990 this collection of essays presents new perspectives on the history of the Chinese Communist Party CCP between its founding in 1920 and its conquest of China in 1949 Employing the voluminous primary sources that have become available in the last decade and a half the authors draw attention to events and places that until now have suffered historiographical neglect or offer revisionist interpretations of the signal events and leading figures of CCP history in many cases relating them to new theoretical perspectives on culture and local society including language and gender relations Paper edition unseen 32 50 Annotation copyright by Book News Inc
