**Eighteenth-Century Russia** Raffaella Faggionato,2006-01-18 The author undertakes an investigation into the history of Russian Freemasonry that has not been attempted previously Her premise is that the Russian Enlightenment shows peculiar features which prevent the application of the interpretative framework commonly used for the history of western thought The author deals with the development of early Russian masonry the formation of the Novikov circle in Moscow the programme of Rosicrucianism and the character of its Russian variant and finally the clash between the Rosicrucians and the State The author concludes that the defenders of the Ancien R gime were not wrong In fact the democratic behaviour the critical attitude the practice of participation the freedom of thought the tolerance for the diversity the search for a direct communication with the divinity in short all the attitudes and behaviours first practiced inside the eighteenth century Rosicrucian lodges constituted a cultural experience which spread throughout the entire society Novikov s imprisonment in 1792 and the war against the Rosicrucian literature were attempts to thwart a culture based on the independence of thought that was taking root inside the very establishment representing a menace to its stability      *Library Literature* ,1984

Nietzsche's Orphans Rebecca Mitchell,2016-01-05 A prevailing belief among Russia s cultural elite in the early twentieth century was that the music of composers such as Sergei Rachmaninoff Aleksandr Scriabin and Nikolai Medtner could forge a shared identity for the Russian people across social and economic divides In this illuminating study of competing artistic and ideological visions at the close of Russia s Silver Age author Rebecca Mitchell interweaves cultural history music and philosophy to explore how Nietzsche s orphans strove to find in music a means to overcome the disunity of modern life in the final tumultuous years before World War I and the Communist Revolution      **The Russian Reading Revolution S.**

Lovell,2000-02-24 Of all of Soviet cultural myths none was more resilient than the belief that the USSR had the world s greatest readers This book explains how the Russian reading myth took hold in the 1920s and 1930s how it was supported by a monopolistic and homogenizing system of book production and distribution and how it was challenged in the post Stalin era first by the latent expansion and differentiation of the reading public and then more dramatically by the economic and cultural changes of the 1990s      **Crisis and the Everyday in Postsocialist Moscow** Olga Shevchenko,2008-12-17 In this ethnography of postsocialist Moscow in the late 1990s Olga Shevchenko draws on interviews with a cross section of Muscovites to describe how people made sense of the acute uncertainties of everyday life and the new identities and competencies that emerged in response to these challenges Ranging from consumption to daily rhetoric and from urban geography to health care this study illuminates the relationship between crisis and normality and adds a new dimension to the debates about postsocialist culture and politics

**When Art Makes News** Katia Dianina,2012-11-15 From the time the

word *kul'tura* entered the Russian language in the early nineteenth century Russian arts and letters have thrived on controversy At any given time several versions of culture have coexisted in the Russian public sphere The question of what makes something or someone distinctly Russian was at the core of cultural debates in nineteenth century Russia and continues to preoccupy Russian society to the present day When *Art Makes News* examines the development of a public discourse on national self representation in nineteenth century Russia as it was styled by the visual arts and popular journalism Katia Dianina tells the story of the missing link between high art and public culture revealing that art became the talk of the nation in the second half of the nineteenth century in the pages of mass circulation press At the heart of Dianina's study is a paradox how did culture become the national idea in a country where few were educated enough to appreciate it Dianina questions the traditional assumptions that culture in tsarist Russia was built primarily from the top down and classical literature alone was responsible for imagining the national community When *Art Makes News* will appeal to all those interested in Russian culture as well as scholars and students in museum and exhibition studies

*Recording Russia* Gabriella Safran, 2022-11-15 *Recording Russia* examines scenes of listening to the people across a variety of texts by Russian writers and European travelers to Russia Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught arguing instead that as in the West the sense of separation or connection between intellectuals and those they interviewed or observed is as much about technology and performance as politics and emotions Nineteenth century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems telegraphy and stenography Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes They depicted scenes of listening as contests where one listener bests another at times the contest is between two sides of the same person They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence As the mid century generation witnessed the social changes of the 1860s and 1870s their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies *Recording Russia* looks at how writers folklorists and linguists such as Turgenev Dostoevsky and Vladimir Dahl as well as foreign visitors thought about the possibilities and meanings of listening to and repeating other people's words

**Historians and Historical Societies in the Public Life of Imperial Russia** Vera Kaplan, 2017-02-27 What was the role of historians and historical societies in the public life of imperial Russia Focusing on the Society of Zealots of Russian Historical Education 1895-1918 Vera Kaplan analyzes the network of voluntary associations that existed in imperial Russia showing how they interacted with state public and private bodies Unlike most

Russian voluntary associations of the late imperial period the Zealots were conservative in their view of the world Yet like other history associations the group conceived their educational mission broadly engaging academic and amateur historians supporting free public libraries and widely disseminating the historical narrative embraced by the Society through periodicals The Zealots were champions of voluntary association and admitted members without regard to social status occupation or gender Kaplan s study affirms the existence of a more substantial civil society in late imperial Russia and one that could endorse a modernist program without an oppositional liberal agenda Soviet Architecture, 1917-1962 Anatole Senkevitch, 1974 Traces the role of the draft horse throughout history and describes the characteristics of some of the most popular breeds including the Belgian Clydesdale Percheron Shire and Suffolk **Alexei Khomiakov** Artur Mrowczynski-Van Allen, Teresa Obolevitch, Pawel Rojek, 2019-07-10 Alexei Khomiakov 1804 1860 a great Russian thinker one of the founders of the Slavophile school of thought nowadays might be seen as one of the precursors of critical thought on the dangers of modern political ideas The pathologies that Khomiakov attributes to Catholicism and Protestantism authoritarianism individualism and fragmentation are today the fundamental characteristics of modern states of the societies in which we live and to a large extent of the alternatives that are brought forth in an attempt to counter them Khomiakov s works therefore might help us take on the challenge of rescuing Christian thought from modern colonization and offer a true alternative a space for love and truth the living experience of the church This book serves as a step on the path toward recovering the church s reflection on its own identity as sobornost as the community that is the living body of Christ and can be the next step forward toward recovering the capacity for thought from within the church **History of Music in Russia from Antiquity to 1800, Volume 2** Nikolai Findeizen, 2008-02-07 In its scope and command of primary sources and its generosity of scholarly inquiry Nikolai Findeizen s monumental work published in 1928 and 1929 in Soviet Russia places the origins and development of music in Russia within the context of Russia s cultural and social history Volume 2 of Findeizen s landmark study surveys music in court life during the reigns of Elizabeth I and Catherine II music in Russian domestic and public life in the second half of the 18th century and the variety and vitality of Russian music at the end of the 18th century *Guide to Microforms in Print* , 1997
