**Stalinism** Alter L. Litvin, John L. H. Keep, 2005 This volume the fruit of co-operation between a British and Russian historian seeks to review comparatively the progress made in recent years largely thanks to the opening of the Russian archives in enlarging our understanding of Stalin and **Crisis and the Everyday in Postsocialist Moscow** Olga Shevchenko, 2008-12-17 In this ethnography of postsocialist Moscow in the late 1990s Olga Shevchenko draws on interviews with a cross section of Muscovites to describe how people made sense of the acute uncertainties of everyday life and the new identities and competencies that emerged in response to these challenges Ranging from consumption to daily rhetoric and from urban geography to health care this study illuminates the relationship between crisis and normality and adds a new dimension to the debates about postsocialist culture and politics The Russian Reading Revolution S. Lovell, 2000-02-24 Of all of Soviet cultural myths none was more resilient than the belief that the USSR had the world's greatest readers This book explains how the Russian reading myth took hold in the 1920s and 1930s how it was supported by a monopolistic and homogenizing system of book production and distribution and how it was challenged in the post Stalin era first by the latent expansion and differentiation of the reading public and then more dramatically by the economic and cultural changes of the 1990s *When Art Makes News* Katia Dianina, 2012-11-15 From the time the word kul'tura entered the Russian language in the early nineteenth century Russian arts and letters have thrived on controversy At any given time several versions of culture have coexisted in the Russian public sphere The question of what makes something or someone distinctly Russian was at the core of cultural debates in nineteenth century Russia and continues to preoccupy Russian society to the present

day When Art Makes News examines the development of a public discourse on national self representation in nineteenth century Russia as it was styled by the visual arts and popular journalism Katia Dianina tells the story of the missing link between high art and public culture revealing that art became the talk of the nation in the second half of the nineteenth century in the pages of mass circulation press At the heart of Dianina s study is a paradox how did culture become the national idea in a country where few were educated enough to appreciate it Dianina questions the traditional assumptions that culture in tsarist Russia was built primarily from the top down and classical literature alone was responsible for imagining the national community When Art Makes News will appeal to all those interested in Russian culture as well as scholars and students in museum and exhibition studies

**Recording Russia** Gabriella Safran, 2022-11-15 Recording Russia examines scenes of listening to the people across a variety of texts by Russian writers and European travelers to Russia Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught arguing instead that as in the West the sense of separation or connection between intellectuals and those they interviewed or observed is as much about technology and performance as politics and emotions Nineteenth century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems telegraphy and stenography Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes They depicted scenes of listening as contests where one listener bests another at times the contest is between two sides of the same person They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence As the mid century generation witnessed the social changes of the 1860s and 1870s their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies Recording Russia looks at how writers folklorists and linguists such as Turgenev Dostoevsky and Vladimir Dahl as well as foreign visitors thought about the possibilities and meanings of listening to and repeating other people s words

The Eighteenth Century ,1996 **Soviet Architecture, 1917-1962** Anatole Senkevitch, 1974 Traces the role of the draft horse throughout history and describes the characteristics of some of the most popular breeds including the Belgian Clydesdale Percheron Shire and Suffolk

Historians and Historical Societies in the Public Life of Imperial Russia Vera Kaplan, 2017-02-27 What was the role of historians and historical societies in the public life of imperial Russia Focusing on the Society of Zealots of Russian Historical Education 1895 1918 Vera Kaplan analyzes the network of voluntary associations that existed in imperial Russia showing how they interacted with state public and private bodies Unlike most Russian voluntary associations of the late imperial period the Zealots were conservative in their view of the world Yet like other history associations the group conceived their educational mission broadly engaging academic and amateur historians

supporting free public libraries and widely disseminating the historical narrative embraced by the Society through periodicals The Zealots were champions of voluntary association and admitted members without regard to social status occupation or gender Kaplan s study affirms the existence of a more substantial civil society in late imperial Russia and one that could endorse a modernist program without an oppositional liberal agenda      **Alexei Khomiakov** Artur Mrowczynski-Van Allen,Teresa Obolevitch,Pawel Rojek,2019-07-10 Alexei Khomiakov 1804 1860 a great Russian thinker one of the founders of the Slavophile school of thought nowadays might be seen as one of the precursors of critical thought on the dangers of modern political ideas The pathologies that Khomiakov attributes to Catholicism and Protestantism authoritarianism individualism and fragmentation are today the fundamental characteristics of modern states of the societies in which we live and to a large extent of the alternatives that are brought forth in an attempt to counter them Khomiakov s works therefore might help us take on the challenge of rescuing Christian thought from modern colonization and offer a true alternative a space for love and truth the living experience of the church This book serves as a step on the path toward recovering the church s reflection on its own identity as sobornost as the community that is the living body of Christ and can be the next step forward toward recovering the capacity for thought from within the church      **Selling to the Masses** Marjorie L. Hilton,2012-01-08 In *Selling to the Masses* Marjorie L Hilton presents a captivating history of consumer culture in Russia from the 1880s to the early 1930s She highlights the critical role of consumerism as a vehicle for shaping class and gender identities modernity urbanism and as a mechanism of state power in the transition from tsarist autocracy to Soviet socialism Beginning in the late nineteenth century Russia witnessed a rise in mass production consumer goods advertising and new retail venues such as arcades and department stores These mirrored similar developments in other European countries and reflected a growing quest for leisure activities luxuries and a modern lifestyle As Hilton reveals retail commerce played a major role in developing Russian public culture it affected celebrations of religious holidays engaged diverse groups of individuals defined behaviors and rituals of city life inspired new interpretations of masculinity and femininity and became a visible symbol of state influence and provision Through monarchies revolution civil war and monumental changes in the political sphere Russia s distinctive culture of consumption was contested and recreated Leaders of all stripes continued to look to the commerce of exchange as a key element in appealing to the masses garnering political support and promoting a modern nation Hilton follows the evolution of retailing and retailers alike from crude outdoor stalls to elite establishments through the competition of private versus state run stores during the NEP and finally to a system of total state control indifferent workers rationing and shortages under a consolidating Stalinist state      *Guide to Microforms in Print* ,1997
