Most Promising Weed:

A Most Promising Weed Steven C. Rubert, 1998 Thousands of African men women and children worked on European owned tobacco farms in colonial Zimbabwe from 1890 to 1945 Contrary to some commonly held notions these people were not mere bystanders as European capitalism penetrated into Zimbabwe but helped to shape the work and the living conditions they encountered as they entered wage employment Steven Rubert s fine study draws on a rich variety of sources to illuminate the lives of these workers The central focus of the study is the organization of workers compounds the social relationships there and the labor of women and children paid and unpaid Rubert s findings indicate the beginnings of a moral economy on the tobacco farms prior to 1945 Handbook of Weed Management Systems Albert E. Smith, 2017-11-22 This work provides the fundamental information necessary for the development of weed management strategies for all the major US crops using concepts that can be applied worldwide Weed management systems are provided for cotton peanut soybean wheat barley oat sorghum rice fruits nut crops and more The dynamics involved in creating the best management approaches for specific types of crops are explained *Weed Biology and Management* Inderjit, 2013-11-11 Weeds hold an enigmatic and sometimes controversial place in agriculture where they are generally reviled grudgingly tolerated and occasionally admired In most cases growers make considerable effort to reduce the negative economic impact of weeds because they compete with crops for resources and hinder field operations thereby affecting crop productivity and quality and ultimately the sustainability of agriculture Weed control in production agriculture is commonly achieved through the integration of chemical biological and mechanical management methods Chemicals herbicides usually inhibit the growth and establishment of weed plants by interfering with various physiological and biochemical pathways Biological methods include crop competition smother crops rotation crops and allelopathy as well as specific insect predators and plant pathogens Mechanical methods encompass an array of tools from short handled hoes to sophisticated video guided robotic machines Integrating these technologies in order to relieve the negative impacts of weeds on crop production in a way that allows growers to optimize profits and preserve human health and the environment is the science of weed management Modern Weed Control Alden S. Crafts, 2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 **Progress Report on Aquatic Weed Control Studies** Norman E. Otto, 1970 **Weed Control in Vegetable Production** R. Cavalloro, A. Labour and Economic Change in Southern Africa c.1900-2000 Rory Pilosof, Andrew Cohen, 2021-06-03 This book explores the social and economic development of Zimbabwe Zambia and Malawi over the course of the twentieth century These three countries have long shared and interconnected pasts All three were drawn into the British Empire at a similar time and the formation of the ill fated Federation of Rhodesia and Nyasaland formally linked these countries together for a decade in the mid twentieth century This formal political relationship created dynamics that resulted in yet closer economic and social links After Federation the economic realities of industry transport and labour supplies meant that these three countries continued to be intricately interconnected Yet despite these connected pasts comparative work on the economic histories of Malawi Zambia and Zimbabwe and how these change over time is rare This book addresses the gap by providing the first comprehensive collection of labour and census data across the twentieth century for these three countries The different economic models and performances of these states offer good comparison allowing researchers to look at different models of development and how these played out over the long term The book provides data on population growth and change industrial and occupational structure and the various shifts in what the economically active population did It will be useful for historians economists development studies scholars and non governmental organisations working on twentieth century and contemporary southern Africa

Slash-and-burn Rice Systems in the Hills of Northern Lao PDR W. Roder, 2001 *Annual Report* Ohio Agricultural Experiment Station, Ohio Agricultural Research and Development Center, 1910 **Bulletin**, 1910 **The Oxford Handbook of Agricultural History** Jeannie M. Whayne, 2024 Agricultural history has enjoyed a rebirth in recent years in part because the agricultural enterprise promotes economic and cultural connections in an era that has become ever more globally focused but also because of agriculture's potential to lead to conflicts over precious resources The Oxford Handbook of Agricultural History reflects this rebirth and examines the wide reaching implications of agricultural issues featuring essays that touch on the green revolution the development of the Atlantic slave plantation the agricultural impact of the American Civil War the rise of scientific and corporate agriculture and modern exploitation of agricultural labor *Agricultural Research*, 1997 *Integrated weed management for sustainable agriculture* Professor Emeritus Robert L. Zimdahl, 2017-12-14 Summarises latest research on IWM principles and methods Assesses current challenges facing herbicide use Detailed review of the range of cultural physical and biological methods of control available for IWM **Chemical Control of Range Weeds** United States. Chemical Plant Control Subcommittee, 1966 **St. Joe Weed Control Project, St. Joe Ranger District, Environmental Impact Statement**, 1997 *Weed Physiology* Stephen O. Duke, 2018-01-18 Volume 2 deals with the mechanisms of

herbicide action and of resistance and tolerance to herbicides The first five chapters of this volume cover the effects of herbicides and adjuvants on the physiology of plants Professor Black s chapter begins by covering the effects of herbicides on photosynthesis including photosynthetic assimilation of nitrogen sulfur and phosphorus This is followed by Dr Morelands chapter on herbicide interactions with plant respiration The third chapter by Professor Bartels deals with the effects of herbicides on chloroplast and cellular development with emphasis on correlating physiological information with ultrasound effects

Herbicides Marcelo Larramendy, Sonia Soloneski, 2011-01-08 The content selected in *Herbicides Theory and Applications* is intended to provide researchers producers and consumers of herbicides an overview of the latest scientific achievements Although we are dealing with many diverse and different topics we have tried to compile this raw material into three major sections in search of clarity and order Weed Control and Crop Management Analytical Techniques of Herbicide Detection and Herbicide Toxicity and Further Applications The editors hope that this book will continue to meet the expectations and needs of all interested in the methodology of use of herbicides weed control as well as problems related to its use abuse and misuse
