A New Thoughtfulness in Contemporary China Jörg Huber, Zhao Chuan, 2014-03-15 Globalization euphoria and enthusiasm for the West are on the decline in contemporary China Critical voices make themselves heard in artistic and cultural circles turning towards their personal everyday lives to take stock Their questions revolve around concrete experiences in the radical upheaval of lifeworlds the continued significance of traditions after many of them have been thoroughly uprooted and the paradoxes produced by the predominance of neo liberalism The 17 positions assembled in this volume provide a vivid illustration of such a new thoughtfulness in a wide variety of aspects ranging from aesthetics and art to theatre and photography **Hegel's Political Aesthetics** Stefan Bird-Pollan, Vladimir Marchenkov, 2020-05-14 What is the role of art in modern society To what extent are the beautiful and the morally good intertwined Hegel's Political Aesthetics explores Hegel's take on these ever relevant philosophical questions and investigates three key themes art's contribution to modern ethical life the loss of art's authority in modern ethical life and ways of thinking beyond Hegel's analysis of art's role in society The aesthetic is explored through the lens of German Idealism from Kant to Hegel ultimately placing ethics and morality at the forefront of this debate The authors explore Hegel's take on Kant's conception by historicizing what it means to be responsible to others which for Hegel means being free within the norms of society within what he calls ethical life As a set of concrete social arrangements designed for finite human beings however ethical life falls

short of actualizing freedom absolutely The themes in this volume are motivated by a central ambivalence in Hegel's thinking about modernity The question of freedom sits at the forefront of this text alongside the relation between art and the spirit This book will be of particular interest to philosophers of aesthetics politics and ethics The Popular Encyclopedia ,1839

Atlas of World Art John Onians,2004 Combines a survey of world art with maps showing the associations and dissemination of culture across the globe **Afro-Cuban Religious Arts** Kristine Juncker,2014-07-15 This book profiles four generations of women from one Afro Cuban religious family From a plantation in Havana Province in the 1890s to a religious center in Spanish Harlem in the 1960s these women were connected by their prominent roles as leaders in the religions they practiced and the dramatic ritual artwork they created Each woman was a medium in Espiritismo communicating with dead ancestors for guidance or insight and also a santera or priest of Santería who could intervene with the oricha pantheon Kristine Juncker argues that by creating art for more than one religion these women shatter the popular assumption that Afro Caribbean religions are exclusive organizations Most remarkably the portraiture sculptures and photographs in Afro Cuban Religious Arts offer rare glimpses into the rituals and iconography of these religions Santería altars are closely guarded limited to initiates and typically destroyed upon the death of the santera while Espiritismo artifacts are rarely considered valuable enough to pass on The unique and protean cultural legacy detailed here reveals insights into how ritual art became popular imagery sparked a wider dialogue about culture inheritance attracted new practitioners and enabled the movement to explode internationally **A Student's Guide to A2 Performance Studies for the OCR**
