

The background of the entire image is a Zen garden. It features three smooth, grey, oval-shaped stones arranged vertically in the center. Each stone is surrounded by concentric, hand-drawn ripples in the light-colored sand, creating a sense of movement and focus. The overall composition is minimalist and serene.

*Most Moved Mover* Clark H. Pinnock, 2019-10-01 In 1994 Clark Pinnock along with four other scholars published *The Openness of God* which set out a new evangelical vision of God one centered on his open relational and responsive love for creation Since then the nature of God has been widely discussed throughout the evangelical community Now Pinnock returns with *Most Moved Mover* to once again counter the classical deterministic view of God and defend the relationality and openness of God This engaging defense of openness theology begins with an analysis of the current debate followed by an explanation of the misconceptions about openness theology and a delineation of areas of agreement between classical and openness theologians *Most Moved Mover* is for all evangelicals regardless of their viewpoint as it lays out the groundwork for future discussions of the open view of God

*Most Moved Mover* Clark H. Pinnock, 2001-10-01 In 1994 Clark Pinnock along with four other scholars published *The Openness of God* which set out a new evangelical vision of God centered on his open relational and responsive love for creation Since then dozens of books and articles have been written to discuss the open view of God It has become a major subject of debate within the Evangelical Theological Society and Christianity Today has called for ongoing study of the subject by both classical theists and openness theologians Now Pinnock in an effort to continue ongoing conversation returns with *Most Moved Mover* to defend the open view of God against criticism *Most Moved Mover* the most passionate and articulate defense of openness theology to date begins with an analysis of the heated debate sparked by the publication of *The Openness of God* Pinnock then clears up misconceptions about openness theology points out areas of agreement between classical and openness theologians and lays the groundwork for future discussions From an insider's perspective Pinnock takes readers deep into the openness debate that is shaking the evangelical movement detailing reactions and replies from thinkers as diverse as Millard Erickson Greg Boyd and John Polkinghorne *Most Moved Mover* is sure to inform all evangelicals regardless of their viewpoint of the latest developments concerning the open view of God movement It will be required reading in the academy and for church leaders who want to keep current with the ongoing evangelical debate about God's nature and attributes

**Constructing a Mediating Theology** J. D. Kim, 2022-11-16 How does an almighty and all loving God respond to his beloved human creatures who are made in his image and yet implicated in sin and suffering What is the origin of human suffering Is it sin or the limitations of human beings Is God moved by our suffering If he sympathizes and co suffers with us can he deliver us out of our miseries Thousands and perhaps millions of people have asked these questions and are searching desperately for their answers Two major views have been advanced in the history of Christian theology to describe God's response to the suffering of the world divine impassibility and divine passibility More recently a third mediating position between impassibilism and passibilism has arisen which affirms both the impassibility and the passibility of God This position can be identified as modified classical theism an approach that grasps the perfect and relational nature of God Following this mediating position this book sets out its own constructive

understanding of a mediating position with the help of a new way of understanding the way in which the eternal actions and corresponding passions of the divine persons condition one another the dynamic reciprocity model      **The Future of Open Theism** Richard Rice, 2020-04-28 Evangelical theology has grappled with open theism and its alternative doctrine of God for decades Richard Rice recounts the history of open theism from its antecedents and early developments to its more recent expressions considering how it might continue to develop in relation to several primary doctrines of the Christian faith

*Boundless Love* Andrew Ray Williams, 2021-07-22 Clark H Pinnock 1937 2010 was arguably one of the most noted productive and provocative Christian theologians in North American evangelical Christianity in the late twentieth century Considering how challenging he is to classify and yet how significant his work has been Pinnock should be widely studied today However for many their first introduction to Pinnock's writing is facilitated through various critical sources For too long Pinnock's theology has been stuck within the confines of tired stereotypes and overly simplistic summaries Andrew Ray Williams then gives Pinnock a fresh and fair hearing outlining some of his major themes while also providing an accessible point of entry into his theology In doing so this book is usable and profitable for both longtime fans as well as critics of Pinnock while also offering first time readers of Pinnock an open minded position from which to read him      *Freedom Unlimited* Jeffrey S. Hocking, 2010-10-18 How are we to understand the freedom for which Christ has set us free Gal 5 1 Could it be that we have barely glimpsed what this might mean Most theological accounts of freedom frame the discussion in terms of heteronomy or autonomy In the Protestant tradition Calvinists are known for championing the former and Arminians are credited with advocating the latter More recently open theists in significantly modifying the Arminian paradigm argue that neither tradition provides a satisfying account of human freedom and propose a more libertarian form of autonomy This book joins the debate at this point not in order to take sides but to suggest a theology that can get beyond not between the heteronomy and autonomy that seem to exhaust the present theological options Clark Pinnock serves as the chief protagonist because of his role as a leading figure in the Openness of God movement Because his own development can be described as a pilgrimage from Calvinism to Arminianism to open theism the present work is able to offer its sympathetic critique in the form of an invitation that we continue to journey in the spirit of openness beyond both heteronomy and autonomy towards a view of divine and human freedom that is covenantal participatory and unlimited      *Finding All Things in God* Hans Gustafson, 2017-05-25 In *Finding All Things in God* Hans Gustafson proposes pansacramentalism as holding the potential to find the divine in all things and all things in the divine Such a proposition carries significant interreligious implications particularly in the practice of theology Presupposing theological practice as divorced from spirituality lived religious experience Gustafson presents pansacramentalism as a bridge between the two In so doing Gustafson offers a history of spirituality sketching the foundations of a classical approach to sacramentality through Aquinas as well as a contemporary approach to the same through Rahner and Chauvet Through three fascinating case studies this book presents particular

instances of sacramentality in lived religious experience Gustafson offers an exciting method of doing theology one which is entirely compatible with the interdisciplinary field of interreligious studies Consuming Glory Gannon Murphy, 2006-09-22 In the late 1990s Open Theism took the theological world by storm Advocated by several prominent theologians among them Clark H Pinnock the view argues that human beings cannot have a genuine relationship with God if God possesses what classical theology has affirmed to be exhaustive foreknowledge of future events Such foreknowledge open theists claim would make human freedom and salvation itself meaningless and divine power akin to little more than meaningless cosmic puppeteering While several works have taken the important step of addressing open theisms scriptural deficiencies in its denial of Gods foreknowledge none have dealt with the vital issue of divine human relationality and how it can be understood in a classical orthodox framework that maintains such foreknowledge Consuming Glory remedies that lack by first providing a fresh critique of open theism using Clark Pinnock s version of it as representative but then offering a reconstruction of divine human relationality centered on the Biblical principle of Christus in nobis Christ in us Christus in nobis is coupled with an outworking of meticulous divine providence that serves Gods own self glorifying orientation It reverses the relational ordering advocated in open theism by grounding human love of God theologically rather than anthropologically Love of God and divine human relationality is established precisely because it is Gods own self love that is providentially given to us and thus reciprocated as believers are brought into adoptive communion with the Triune Godhead Drawing on diverse resources throughout the corpus of historical theology Murphy concludes that divine human relationality can be summarized as God delighting in himself in us Theological Cartographies Benjamin Valentin, 2015-03-14 Benjamin Valentin presents a substantive yet accessible introduction to the three central doctrines of Christian theology God humanity and Christ In an engaging style Valentin offers an overview of each of these doctrines delving into its tradition within the Christian community throughout history from the writing of Scripture forward He further explores what contemporary life tells us about this doctrine and how that compares to traditional understandings and then determines how we can reconstruct this doctrine in light of our new assessment of it Each chapter concludes with suggested readings for further study Throughout Valentin highlights the diversity of Christian thought bringing together past tradition and contemporary questions to arrive at a new understanding of what these important doctrines can mean for us today **I Am Put Here for the Defense of the Gospel** Terry L. Miethe, 2016-04-19 Dr Norman L Geisler has been called the father of evangelical Christian philosophy He has written more than one hundred books and taught at universities and top seminaries for some fifty six years He was the first president of the Evangelical Philosophical Society and the founder and first president of the International Society of Christian Apologetics He has spoken or debated in more than two dozen countries and held pastoral pulpit ministries in four states Many view him as a cross between Thomas Aquinas and Billy Graham No one has done more to communicate the modern challenges of the Faith to the average Christian to the church and to the academy This volume offers creative and

constructive essays from twenty three contributors all notable in their own right who preserve and propagate Dr Geisler s ideas and express appreciation for his influence Those who know him best say he is true faithful and blessed by God

*The Lord is the Spirit* Andrew K Gabriel,2012-05-31 The Lord is the Spirit 2 Cor 3 17 and yet one might be excused for thinking otherwise when reading studies on God s attributes omnipotence omniscience omnipresence immutability impassibility and the like Although Christians throughout theages have defended the deity of the Holy Spirit theologians have not adequately taken the doctrine of the Holy Spirit into account when formulating a theology of the divine attributes The resulting understandings of God fall short of being fully Trinitarian Gabriel builds on contemporary Trinitarian theology by advocating for the integration of insights from pneumatology into the doctrine of God s attributes Three case studies are presented impassibility immutability and omnipotence Gabriel writes from an evangelical and Pentecostal vantage point as he engages in ecumenical dialogue with a wide spectrum of historical and contemporary theological voices

*The Death of Classical Theism and the Subsequent Rise of Atheism* Shane Himes,2025-03-18 Modernity has seen the rise of atheism and a rejection of classical theism In this book Shane Himes argues that the two realities are largely dependent on one another Many modern Christian apologists are not fond of classical doctrines such as divine simplicity and impassibility and thus they happily reject these ideas The ramifications of doing so however have not been fully appreciated especially as they relate to Christian arguments for God s existence Himes gives an overview of the arguments for God s existence by examining the work of both scholars who reject classical theism and those who embrace it An analysis of these arguments demonstrates that modern models of God make his existence a mere possibility as opposed to a logical necessity As such the arguments given by these scholars leave them susceptible to atheist critiques given that they do not answer the question of

why anything exists Without classical theism God becomes one possible answer as to why our particular universe exists the way that it does but apparently this has not been convincing to many as atheism has seen an unprecedented rise in the last two centuries Paradoxically if Christianity is to become dominant once again in academia and Western societies more generally a recovery of classical depictions of God as the ground of all being is paramount *No Matter What* Catherine Keller, 2024-12-03 A collection of essays that outline the recent work on ecology political theology religion and philosophy by one of the leading theologians of our age As we face relentless ecological destruction spiraling around a planet of unconstrained capitalism and democratic failure what matters most How do we get our bearings and direct our priorities in such a terrestrial scenario Species race sex politics and economics will increasingly come tangled in the catastrophic trajectory of climate change With a sense of urgency and of possibility Catherine Keller's *No Matter What* reflects multiple trajectories of planetary crisis They converge from a point of view formed of the political ecologies of a transdisciplinary theological pluralism In its work an ancient symbolism of apocalypse deconstructs end of the world narratives Christian and secular even as any notion of an all controlling and good God collapses under the force of internal contradiction In the place of a once for all incarnation the materiality of unbounded interconnection of fragile yet animating relations of mattering earth bodies comes into focus The essays of *No Matter What* share the preoccupation with matter characteristic of the so called new materialism They also root in an older ecotheological tradition one that has long struggled against the undead legacy of an earth betraying theology that with the aid of its white Christian right wing invests the denigration of matter its spirit of no matter in limitless commodification The fragile alternative Keller outlines here embraces no matter what the mattering of the life of the Earth and of all its spirited bodies These essays struggling against Christian and secular betrayals of the spirited matter of Earth work to materialize the still possible planetary healing How Does God Act in the World? David Wilkinson, 2025-05-29 Does God act in the world and if God does then how These questions are central questions for Christian theology and Christian mission and ministry Is God simply a creator who then goes on holiday and leaves the universe to develop or is God the one who is embodied in Jesus the God of signs and wonders death and resurrection And what does this mean for signs and wonders today in the life of individuals and local churches From The Simpsons to a wedding in Cana from grace to quantum theory and from the problem of evil to eschatology David Wilkinson argues that the biblical picture of a God who acts in the world makes sense in the light of modern science but how God acts cannot be reduced to simple models The Doctrine of God Veli-Matti Kärkkäinen, 2017-05-16 In recent years the doctrine of God has once again become a central focus of theological discussion and debate In this ecumenical international and contextual introduction internationally respected scholar Veli Matti Kärkkäinen offers a global survey of understandings of God in Scripture Christian history and contemporary theology This new edition incorporates developments in theological research over the past decade and has been substantially updated throughout A Classical Response to Relational Theism Brian J.

Orr,2022-02-17 The classical doctrine of God expresses that the God of the Bible is triune a se simple immutable impassible eternal and the sovereign Lord over his creation which he created from himself Modern streams of theology within the evangelical circle continue to promote a doctrine of God that sharply contrasts the classical view the traditional view of God in Christian theism Therefore a critical response to such a theology is needed This study is a comprehensive analysis and sustained critique of Thomas Jay Oord s open relational doctrine of God Oord s model substitutes process metaphysics for classical metaphysics while attempting to retain foundational Christian doctrines that were established within a classical metaphysical framework

**Freedom in Resistance and Creative Transformation** Michael St. A. Miller,2013-04-11 In Freedom in Resistance and Creative Transformation Michael Miller addresses the concept of freedom that is central to the grammar of Christian faith and important in a wide range of religious and nonreligious settings across the globe He confronts the fact that despite the claimed importance of freedom there continues to be interpersonal socio political and religious power hierarchies that keep some people dominant and others subjugated The book suggests that often these hierarchies are informed by Christian teachings that deny freedom to human beings on the basis of their humanity per se Having classified humanity as fallen we are instructed that freedom is experienced by disparaging our humanity as we actually experience it seeing ourselves as our own worst enemies and accepting bondage to God the bondage reflected in the character of relations with those seen as God s special representatives in the world Miller presents a case against this understanding of the human situation and in the process he critically engages the Old and New Testaments along with ideas of significant representatives of Christian orthodoxy As an alternative he promotes freedom that is finite realistically libertarian and relational as most compatible with the character of human beings that are partially self creating and self determining Contributing to this position is the view that an infinitely temporal God by character and desire participates in human life in a way that ensures the requisite space for authentic decision making from which emerges genuinely novel possibilities for human life This dynamic has implications for the continued development of the human species and the quality of life in the cosmos as a whole

*The God Biographers* Larry Witham,2010-07-01 The God Biographers presents a sweeping narrative of the Western image of God since antiquity following the theme of how the old biography of God has been challenged by a new biography in the twenty first century The new biography has made its case in free will theism process thought evolutionary doctrines relational theology and open theism a story of people ideas and events that is brought up to the present in this engaging narrative Readers will meet the God biographers in the old and new camps On the one side are Job Augustine Boethius Anselm Aquinas and Calvin On the other side is a group that includes the early Unitarian and Wesleyan thinkers the process thinkers Alfred North Whitehead Pierre Teilhard de Chardin and Charles Hartshorne and finally a new breed of evangelical philosophers This story looks closely at the cultural and scientific context of each age and how these shaped the images of God In the twenty first century that image is being shaped by new human experiences and the findings of science Today the

debate between the old biographers and the new is playing out in the forums of modern theology courtrooms and social movements Larry Witham tells that panoramic story in an engaging narrative for specialists and general readers alike

**Developing Spiritual Success** Arthur Jaggard, 2011-12-02 How does one write about Spiritual Success and preserve any sense of humility Spiritual Success and How I Achieved It has been the tongue in cheek working title of this book It serves to remind me that I know so very little The irreverence serves to caution against the arrogance of pretending to know anything at all None of this book is actually new As Robert Webber used to remind us the ancient is the future 1 Those to whom I am indebted include a long line of teachers reaching back to the early church fathers I have had several excellent mentors and many tremendous teachers and professors They all have helped connect me to the rich heritage that we have in Jesus Christ
