**Lygia Pape** Iria Candela, Glória Ferreira, Sérgio B. Martins, John Rajchman, 2017-03-20 Lygia Pape 1927-2004 was one of the most acclaimed and influential Brazilian artists of the twentieth century As a prominent member of a generation of artists, architects and designers who embraced the optimistic and constructive spirit of postwar Brazil, she is particularly known for her participation in the experimental art movement Neoconcretism which sought to rework the legacy of European avant-garde abstraction to suit a new cultural context Beyond the specific aims of Neoconcretism, however, Pape engaged with a wide range of media: painting, drawing, poetry, graphic design and photography, film and performance, constantly experimenting in a quest to confront the canonical and discover unexplored territories in modern art Following a coup d'état in 1964 when the establishment of an authoritarian regime shattered dreams of shared prosperity in Brazil, Pape continued to pursue her art against difficult odds The streets of Rio de Janeiro became her ultimate source of inspiration as she created participatory works that questioned the space between artist and viewer and the social context of art itself

This beautifully illustrated publication accompanies the first major exhibition in the United States devoted to the work of Lygia Pape Featuring essays by art historians in both North and South America as well as two previously untranslated interviews with the artist and an illustrated chronology, *Lygia Pape* is a testament to the artist's lasting importance to the modern art and culture of Latin America and to her position as a major figure of the international avant-garde

**Di Cavalcanti, 1897-1976** Emiliano Di Cavalcanti, 2006 This monograph is the first in a series aimed at presenting through a new perspective the life and works of the pillars of Brazilian modernism, devoting this edition to the most quintessential of modern Brazilian painters, artist Di Cavalcanti, 1897-1976, on the occasion of the 30th anniversary of his death The book analyses the meaning and techniques of the dense poetic and frequent sensual atmosphere of his artwork and his unmistakable contribution to Brazilian art, presenting the artist's works grouped by themes and organized in chronological order, covering from the brilliant humor of his caricatures through his refined drawings, portraits, book illustrations, still life and landscape, canvas and paintings of religious folklore and Brazilian traditions The book accompanied a correlate exhibition

*KulturConfusão - On German-Brazilian Interculturalities* Anke Finger, Gabi Kathöfer, Christopher Larkosh, 2015-07-31 The analyses of German and Brazilian cultures found in this book offer a much needed rethinking of the intercultural paradigm for the humanities and literary and cultural studies This collection examines cultural interactions between Germany and Brazil from the Early Modern period to the present day, especially how authors, artists and other intellectuals address the development of society, intervene in the construction and transformation of cultural identities and observe the introduction of differing cultural elements in and beyond the limits of the nation The contributors represent various academic disciplines including German Studies, Luso-Afro-Brazilian Studies, Cultural Studies, Linguistics, Art History

and the social sciences Their essays cover a wide range of works and media and the issues they address are relevant not only for each of the scholarly disciplines involved but also in discussions of current cultural practices in connection to all forms of media The collection thus serves as a model for further intercultural research since it calls into question the very terms through which we understand the relationships between cultures as well as their products practices and perspectives
