Mother A Thankless Job:

Horrible Mothers Thie Vieira, 2009-08 This seemingly simple but truly complex question True or false My mother was a good woman This item has appeared in one form or another on countless psychological inventories over the years The culturally prescribed answer is of course True Even the people most abused by their mothers tend to rise to defend Mom The rationale varies She was basically good She was never cut out to have children She simply had no idea how to be there for me Perhaps if she hadn't had me Maybe it was I who turned her into a bad mother As early as 1954 in his work with abused children psychoanalyst Ronald Fairbairn observed that a child acknowledging to herself or anyone else that she had a bad mother or that her mother was a bad woman was tantamount to admitting that the child was by association a bad person and so it becomes an act of self preservation to hold that one's mother is good never mind all evidence to the contrary In Horrible Mothers psychotherapist Alice Thie Vieira takes us into the world of individuals who have endured devastating damage at the hands of society's most sacrosanct icon the Mother Vieira does so with four chief aims 1 to label abuse so as to be able to acknowledge it 2 to recognize that the sanctification of motherhood is a burden that society has foisted upon them 3 to help mothers understand how their mothering may have hurt their children 4 to help victims of horrible mothering grasp the unfairness of what was done to them to comprehend how it affected their lives and acknowledge what they have endured so as to break free from unhealthy attachments to their inadequate mothers and thus move forward and better realize their potentiality

Changing Roles...Taking care of Mom N.D. Gulley, 2020-03-01 After eight years of taking care of my aging mother who had suffered a stroke the onset of Alzheimer's and the likelihood of schizophrenia I dare you not to lose your mind amid the drama queen antics and the constant need for immediate gratification What makes this book different from others like it is the inescapable fact my mother had a gift She was a psychic medium with a proven track record that helped a lot of people On the other hand her endless psychic channeling and nonstop conversations with the supernatural world made it very challenging for doctors and nurses to do their jobs Living with Mom was a roller coaster ride filled with physical mental and emotional challenges It was a journey filled with aimlessness frustration and numerous events that were beyond belief I will share with you situations that will require you to think fast on your feet Things you can't learn from books Little solutions that will help you save money and a few big things to watch out for so you don't lose everything But that's not the only thing this book is about I will reintroduce you to something that you have already experienced many times in your life and took it for granted A secret of the universe that God had given to each of us This is something that is instinctive to all animals religions teach it and scientists are close to finding its true origin
