Mother Love Myth And Reality Motherhood In Modern History:

Mother Love Elisabeth Badinter, 1981 **Making Sense of Women's Lives** Michelle Plott, Lauri Umansky, 2000 Making Sense of Women's Lives presents a wide range of writings about women's lives in the United States Michele Plott and Lauri Umansky have drawn on their experiences as both students and professors to assemble the collection Seeking to provide as full a sampling from a diverse and intellectually vibrant field as one volume permits the editors have also chosen writing that makes an enjoyable read A few of the selections here represent the undisputed classics of the field More of them constitute simply the works drawn from academic and nonacademic sources alike that could make a difference in understanding what it means to be female in America Making Sense of Women's Lives is intended as the primary text in Women's Studies courses With that usage in mind Plott and Umansky have provided brief introductions to each article to help students understand the author's perspectives Thought and discussion questions follow each selection The book contains as well numerous Flash Exercises suggestions for class exercises and activities The editors have used these activities in their courses over the past decade in conjunction with readings in this volume and have found that the full complement of materials coalesces into an intellectually powerful introduction to Women's Studies A Collegiate Press book **Myths of Motherhood** Sherry Thurer, 1995-05-01 This groundbreaking and irreverent history of motherhood is worth a hundred advice books for any mother who's ever been made to feel guilty or frazzled by society's impossible expectations Analyzing data from the psychoanalyst's couch to the hidden history of wet nursing psychologist Shari L Thurer wends her way from the Stone Age to the age of Hillary Rodham Clinton painting a vivid often frightening picture of life for mothers and children in a time when their roles were constructed by men Along the way she debunks myth after myth exposing the not so golden ages of Classical Greece and the Italian Renaissance and revealing the pervasive ideal of Dr Spock's selfless stay at home mother as the historical aberration it actually was A work of impassioned scholarship and astonishing range The Myths of Motherhood does nothing less than recast our conception of good mothering Otto Weininger Chandak Sengoopta, 2000-07 Sengoopta shows that Weininger's misogynist and anti Semitic views did not stem solely from his private prejudices but were part of a comprehensive and quite typically Viennese analysis of masculinity and femininity and a critique of modernity in general and of feminist activism in particular **BOOK JACKET** *The Routledge History of Emotions in the Modern World* Katie Barclay, Peter N. Stearns, 2022-08-09 The Routledge History of Emotions in the Modern World brings together a diverse array of scholars to offer an overview of the current and emerging scholarship of emotions in the modern world Across thirty six chapters this work enters the field of emotion from a range of angles Named emotions love anger fear highlight how particular categories have been deployed to make sense of feeling and their evolution over time Geographical perspectives provide access to the historiographies of regions that are less well covered by English language sources opening up global perspectives and new literatures Key thematic sections are designed to intersect with critical historiographies demonstrating

the value of an emotions perspective to a range of areas Topical sections direct attention to the role of emotions in relations of power to intimate lives and histories of place as products of exchanges across groups and as deployed by new technologies and medias The concepts of globalisation and modernity run through the volume acting as foils for comparison and analytical tools The Routledge History of Emotions in the Modern World is the perfect resource for all students and scholars interested in the history of emotions across the world from 1700

The Transatlantic Kindergarten Ann Taylor Allen, 2017 The kindergarten which offered an innovative approach to early childhood education was invented in the German speaking world and arrived in the United States along with German political exiles in the 1850s In both the United States and Germany activist women worked to develop and promote this new form of education Over the course of three generations they created one of the most successful transnational women's movements of the nineteenth century In this book Ann Taylor Allen presents the first transnational history of the kindergarten as it developed in both Germany and America between 1840 and 1919

Different Faces of Attachment Hiltrud Otto, Heidi Keller, 2014-07-17 This groundbreaking reconceptualization of attachment theory brings together leading scholars from psychology anthropology and related fields to reformulate the theory to fit the cultural realities of our world It will be of particular interest to scholars and graduate students interested in developmental psychology developmental anthropology evolutionary biology and cross cultural psychology

Infertility in Medieval and Early Modern Europe Regina Toepfer, 2022-11-22 This book examines discourses around infertility and views of childlessness in medieval and early modern Europe Whereas in our own time reproductive behaviour is regulated by demographic policy in the interest of upholding the intergenerational contract premodern rulers strove to secure the succession to their thrones and preserve family heritage Regardless of status infertility could have drastic consequences above all for women and lead to social discrimination expulsion and divorce Rather than outlining a history of discrimination against or the suffering of infertile couples this book explores the mechanisms used to justify the unequal treatment of persons without children Exploring views on childlessness across theology medicine law demonology and ethics it undertakes a comprehensive examination of fertility as an identity category from the perspective of new approaches in gender and intersectionality research Shedding light on how premodern views have shaped understandings our own time this book is highly relevant interest to students and scholars interested in discourses around infertility across history

Plural Masculinities Sofia Aboim, 2016-04-22 *Plural Masculinities* offers a contemporary portrait of the plural dynamics and forms of masculinity emphasizing the multiple even contradictory pathways through which men are remaking their identities Proceeding from the premise that it is impossible to fully understand masculinity without considering its connection with family change and women's change it places men and masculinities within the realm of family life examining men's practices and discourses in their relationships with women and their changing femininities Combining an empirical study based in Portugal with cross national analyses of attitudes towards ideal gender arrangements in Europe and the USA this book

examines the various ways in which men come to define their identities and will appeal to those working in the fields of masculinities gender studies and the sociology of the family Feminism and Contemporary Women Writers Radha Chakravarty,2014-05-30 This book attempts to deal with the problem of literary subjectivity in theory and practice The works of six contemporary women writers Doris Lessing Anita Desai Mahasweta Devi Buchi Emecheta Margaret Atwood and Toni Morrison are discussed as potential ways of testing and expanding the theoretical debate A brief history of subjectivity and subject formation is reviewed in the light of the works of thinkers such as Hobbes Hume Kant Hegel Marx Nietzsche Raymond Williams and Stephen Greenblatt and the work of leading feminists is also seen contributing to the debate substantially

Inventing Maternity Susan C. Greenfield,Carol Barash,2021-10-21 Not until the eighteenth century was the image of the tender full time mother invented This image retains its power today Inventing Maternity demonstrates that despite its association with an increasingly standardized set of values motherhood remained contested terrain Drawing on feminist cultural and postcolonial theory Inventing Maternity surveys a wide range of sources medical texts political tracts religious doctrine poems novels slave narratives conduct books and cookbooks The first half of the volume covering the mid seventeenth to the late eighteenth centuries considers central debates about fetal development pregnancy breastfeeding and childbearing The second half covering the late eighteenth to the mid nineteenth centuries charts a historical shift to the regulation of reproduction as maternity is increasingly associated with infanticide population control poverty and colonial national and racial instability In her introduction Greenfield provides a historical overview of early modern interpretations of maternity She concludes with a consideration of their impact on current debates about reproductive rights and technologies child custody and the cycles of poverty **Gender in Twentieth-Century Eastern Europe and the USSR** Catherine

Baker,2016-09-29 A concise and accessible introduction to the gender histories of eastern Europe and the Soviet Union in the 20th century These essays juxtapose established topics in gender history such as motherhood masculinities work and activism with newer areas such as the history of imprisonment and the transnational history of sexuality By collecting these essays in a single volume Catherine Baker encourages historians to look at gender history across borders and time periods emphasising that evidence and debates from Eastern Europe can inform broader approaches to contemporary gender history

Women, Gender and Disease in Eighteenth-Century England and France Ann Kathleen Doig,Felicia B. Sturzer,2014-06-02 Based on encyclopedias medical journals historical and literary sources this collection of interdisciplinary essays focuses on the intersection of women gender and disease in England and France Diverse critical perspectives highlight contributions women made to the scientific and medical communities of the eighteenth century In spite of obstacles encountered in spaces dominated by men women became midwives and wrote self help manuals on women s health hygiene and domestic economy Excluded from universities they nevertheless contributed significantly to such fields as anatomy botany medicine and public health Enlightenment perspectives on the nature of the female body childbirth diseases specific to women gender sex

masculinity and femininity adolescence and sexual differentiation inform close readings of English and French literary texts Treatises by Montpellier vitalists influenced intellectuals and physicians such as Nicolas Chambon Pierre Cabanis Jacques Louis Moreau de la Sarthe Jules Joseph Virey and Th ophile de Bordeu They impacted the exchange of letters and production of literary works by Julie de Lespinasse Fran oise de Graffigny Nicolas Chamfort Mary Astell Frances Burney Lawrence Sterne Eliza Haywood and Daniel Defoe In our post modern era these essays raise important questions regarding women as subjects objects and readers of the philosophical medical and historical discourses that framed the project of enlightenment

Diplomats and Dreamers Mari Agop Firkatian,2008 This book chronicles a family of diplomats who experienced the world in transition Subjects of capricious fate they forged a destiny as a family that overcame some of the most cataclysmic events of the twentieth century **The Films of D. W. Griffith** Scott Simmon,1993-07-30 An introduction to the work of the first

widely acknowledged master filmmaker Modernizing Tradition Adam C. Stanley,2008-12-15 In the turbulent decades after World War I both France and Germany sought to return to an idealized prewar past Many people believed they could recapture a sense of order and stability by reinstituting traditional gender roles which the war had thrown off balance While French and German women necessarily filled men s roles in factories and other jobs during the war those who continued to lead active working lives after World War I risked being called modern women Far from a compliment this derogatory label encompassed everything society found threatening about women s new place in public life smoking working women who preferred independence and sexual freedom to a traditional role in the home Society felt threatened by the image of the modern woman yet also realized that conceptions of femininity needed to accommodate the cultural changes brought about by the Great War In *Modernizing Tradition* Adam C Stanley explores how interwar French and German popular culture used commercial images to redefine femininity in a way that granted women some access to modern life without encouraging the assertion of female independence Examining advertisements articles and cartoons as well as department store publicity materials from the popular press of each nation Stanley reveals how the media attempted to convince women that with the help of newly available consumer goods such as washing machines refrigerators and vacuum cleaners being a mother or a housewife could be empowering even liberating A life devoted to the home these images promised need not be an unmitigated return to old fashioned tradition but could offer a rewarding lifestyle based on the wonders and benefits of modern technology Stanley shows that the media carefully limited women s association with modernity to those activities that reinforced women s traditional roles or highlighted their continued dependence on masculine guidance expertise and authority In this cross national study Stanley brings into sharp relief issues of gender and consumerism and reveals that despite the larger political differences between France and Germany gender ideals in the two countries remained virtually identical between the world wars That these concepts of gender stayed static over the course of two decades years when nearly every other aspect of society and culture seemed to be in constant flux attests to their extraordinary power as a force

in French and German society Childhood in the Middle Ages and the Renaissance Albrecht Classen, 2011-12-22 Earlier theses on the history of childhood can now be laid to rest and a fundamental paradigm shift initiated as there is an overwhelming body of evidence to show that in medieval and early modern times too there were close emotional relations between parents and children The contributors to this volume demonstrate conclusively on the one hand how intensively parents concerned themselves with their children in the pre modern era and on the other which social political and religious conditions shaped these relationships These studies in emotional history demonstrate how easy it is for a subjective choice of sources coupled with faulty interpretations caused mainly by modern prejudices toward the Middle Ages in particular to lead to the view that in the past children were regarded as small adults The contributors demonstrate convincingly that intense feelings admittedly often different in nature shaped the relationship between adults and children The Maternal Image of God in Victorian Literature Rebecca Styler, 2023-07-10 This book is the study of a religious metaphor the idea of God as a mother in British and US literature 1850 1915 It uncovers a tradition of writers for whom divine motherhood embodied ideals felt to be missing from the orthodox masculine deity Elizabeth Gaskell Josephine Butler George Macdonald Frances Hodgson Burnett and Charlotte Perkins Gilman independently reworked their inherited faith to create a new symbol that better met their religious needs based on ideal Victorian notions of motherhood and Mother Nature Divine motherhood signified compassion universal salvation and a realised gospel of social reform led primarily by women to establish sympathetic community Connected to Victorian feminism it gave authority to women's voices and to feminine cultural values in the public sphere It represented divine immanence within the world often providing the grounds for an ecological ethic including human animal fellowship With reference also to writers including Charlotte Brontë Anna Jameson Charles Kingsley Elizabeth Charles Theodore Parker Harriet Beecher Stowe Mary Baker Eddy and authors of literary utopias this book shows the extent of maternal theology in Victorian thought and explores its cultural roots The book reveals a new way in which Victorian writers creatively negotiated between religious tradition and modernity *Divorce in Europe* Dimitri Mortelmans, 2020-01-30 This open access book collects the major discussions in divorce research in Europe It starts with an understanding of divorce trends Why was divorce increasing so rapidly throughout the US and Europe and do we see signs of a turn Do cohabitation breakups influence divorce trends or is there a renewed stability on the partner market In terms of divorce risks the book contains new insights on Eastern European countries These post socialist countries have evolved dramatically since the fall of the Wall and at present they show the highest divorce figures in Europe Also the influence of gender and more specifically women's education as a risk in divorce is examined cross nationally The book also provides explanations for the negative gradient in female education effects on divorce It devotes three separate parts to new insights in the post divorce effects of the life course event by among others looking at consequences for adults and children but also taking the larger family network into account As such the book is of interest to demographers sociologists psychologists

family therapists NGOs and politicians This wide ranging volume details important trends in divorce in Europe that hold implications for understanding family dissolution causes and consequences throughout the world Highly recommended for researchers and students everywhere

A Judgment for Solomon Michael Grossberg, 1996-02-23 *A Judgment for Solomon* tells the story of the d Hauteville case a controversial child custody battle fought in 1840 It uses the story of one couple s bitter fight over their son to explore some timebound and timeless features of American legal culture In a narrative analysis it recounts how marital woes led Ellen and Gonzalve d Hauteville into what Alexis de Tocqueville called the shadow of the law Their multiple legal experiences culminated in an eagerly followed Philadelphia trial that sparked a national debate over the legal rights and duties of mothers and fathers and husbands and wives The story of the d Hauteville case explains why popular trials become precedents of legal experience mediums for debates about highly contested social issues It also demonstrates the ability of individual women and men to contribute to legal change by turning to the law to fight for what they want
