

A man is seen from behind, sitting on a dark bench in a room with a large, multi-paned window. He is looking out at a tropical beach with palm trees and a body of water. The scene is bathed in warm, golden light, suggesting late afternoon or early morning. A small dog is sitting on the floor near the man's feet. The overall mood is contemplative and serene.

Other Peoples Fathers:

Other People's Children Gillian Thomas, Gina Hocking, 2003 Examines how children's quality of life is changing and how we could improve it for all children over the next generation page 9 *Other People's Kids* Peter C. Scales, 2012-12-06 According to the study conducted by Gallup Organization only a minority of Americans experience consistent normative motivation for engaging with other people's children Social norms theory suggests that adults are more likely to get deeply involved if that involvement is viewed as highly important and if they perceive a social expectation to do so This volume examines the nature of social norms in general and in relationship to children and adolescents The book examines the complex dynamics of understanding the appropriate roles of parents and other adults in young people's healthy development The volume also presents the study's findings in detail including numerous areas of consensus among American adults differences among American adults and the gap between perceived importance and actual engagement A wide ranging literature synthesis suggests implications for both personal and collective actions with potential to change norms that inhibit engagement and to strengthen values that encourage engagement Recreating Men Bob Pease, 2000-02-02 One of the most central issues for women's prospects for equality is whether man can and will change Changing the social relations of gender will involve changing men's subjectives as well as their daily practices This book asks whether this is possible Bob Pease examines how men who are supportive of feminism are responding to the feminist challenge through an exploration of their experiences and dilemmas in trying to live out their feminist commitment and resist hegemonic forms of masculinity The book is driven by practical as well as theoretical concerns and aims to develop strategies that will promote the process of change towards equality in gender relations Drawing on a critical postmodern theoretical framework Pease argues that it is possible for men to reposition themselves in patriarchal discourses and to reformulate their interests in challenging gender domination *Recreating Men* is an invaluable reading for academics and students of gender studies and of interest to students of sociology psychology and political sociology Family Album Penelope Lively, 2009-10-29 In this haunting new novel the act of forgetting is as strange and interesting as the power of remembering The New York Times Book Review An enjoyable read filled with memorable characters and secrets from Booker Prize winner Penelope Lively Allersmead is a big shabby Victorian suburban house The perfect place to grow up for elegant Sandra difficult Gina destructive Paul considerate Katie clever Roger and flighty Clare But was it Now adults the children return to Allersmead one by one To their home making mother and aloof writer father and a house that for years has played silent witness to a family's secrets And one devastating secret of which no one speaks *Two-Dimensional People* Tan Tongxue, 2022-12-30 Based on almost eight years of fieldwork in a town and a village in South China this book analyzes contradictions among various dimensions of the peasant economy social relationships popular religion and local politics in rural China Compared to many anthropological sociological and political studies of rural China which regard Chinese peasants as one dimensionally materialistic politically conservative

egocentric lacking public mindedness as in anthropologist Yan Yunxiang's notion of the uncivil individual with collapsed beliefs and thinking only of the present or the today-ness of today according to anthropologist Liu Xin this book shows that people in contemporary rural China are actually two-dimensional trying to combine the calculation of self-interest with affective networks of reciprocity but often falling into awkwardness or cynicism in a paradoxical symbiosis between nihilism and transcendence While Marcuse used the words of Benjamin to analyze one-dimensional man writing 'Only for the sake of the hopeless ones have we been given hope' this book writes of two-dimensional people 'Only when the vast majority of ordinary people can find hope in everyday life can we finally be given hope' This book will be of interest to scholars and students of Sociology Anthropology and East Asian Studies It will also be a great read to those who are interested in contemporary China in general
