Our National Parks:

Our National Parks John Muir, 2006-12-01 A key founder of the modern conservation movement John Muir was a champion of the preservation of the unspoiled wilderness and of the careful guardianship of the environment This 1901 work a collection of essays first published in the Atlantic Monthly is Muir's valentine to the national parks of the American West He introduces us to the glacier meadows and wild geysers of Yellowstone the magnificent mirror for the woods and mountains and sky that is Yellowstone Lake the coniferous forests of the Sierra Nevada including the beautiful giant sequoia the grizzly bears of the mountain ranges and much more Scottish American naturalist explorer and writer JOHN MUIR 1838 1914 helped found the Sierra Club in 1892 and served as its first president He wrote numerous articles for such publications as Atlantic Monthly Harper's and the New York Tribune among his many books are The Mountains of California 1894 The Yosemite 1912 and Travels in Alaska 1915 _____ ALSO FROM COSIMO Muir's Steep Trails Letters to a Friend and Studies in the Sierra *Our National Parks* Ruth Rudner, 2005 A premier landscape photographer combines his photos with moving essays to capture America's iconic national parks including Delicate Arch Old Faithful Half Dome the giant redwoods and El Capitan as well as the lesser known wilderness areas of these and other parks Exploring Our National Parks and Sites Russell D. Butcher, 1997-05-01 The essential guide to the land and history of the US national historical parks and sites It is the sequel to Exploring National Parks and Monuments *Our National Park System* Dwight F. Rettie, 1996-01-15 This is the first comprehensive look at America's national park system an insider's tour covering the system and the National Park Service the agency responsible for its care Dwight F. Rettie former chief of the NPS policy development office is uniquely qualified to address the state the problems and the possibilities of the system which is comprised of millions of acres of land in more than 350 areas around the nation including historic sites battlefields and recreation areas Rettie agrees as many critics have claimed that the system is in disarray he proposes in detail stronger management operations clearer and more stringent measures of personnel performance and training of park rangers to help them become professionals knowledgeable about the scientific management and protection of resources For a concerned public as well as for policy makers and students of government this comprehensive analysis and outline may provide hope and a future for the invaluable legacy that is our national park system *Our National Parks*, 1914 *Our National Parks* ... Mary A. Rolfe, 1927 **Our National Parks and the Search for Sustainability** Bob R. O'Brien, 2011-01-20 A study of the US National Park Service's efforts to allow for as many visitors as possible in the parks that are kept in as natural a state as possible Yosemite Valley in July of 1967 would have had to be seen to be believed There was never an empty campsite in the valley you had to create a space for yourself in a sea of cars tents and humanity The camp next to ours had fifty people in it with rugs hung between the trees incense burning and a stereo set going full volume Scenes such as this will probably never be repeated in Yosemite or any other national park yet the urgent problem remains of balancing the public's desire to

visit the parks with the parks need to be protected from too many people and cars and too much development In this book longtime park visitor and professional geographer Bob O Brien explores the National Park Service s attempt to achieve sustainability a balance that allows as many people as possible to visit a park that is kept in as natural a state as possible O Brien details methods the NPS has used to walk the line between those who would preserve vast tracts of land for no use and those who would tap the Yellowstone geysers to generate electricity His case studies of six western crown jewel parks show how rangers and other NPS employees are coping with issues that impact these cherished public landscapes including visitation development and recreational use Glimpses of Our National Parks ,1927 *Preserving Wilderness in Our National Parks* ,1971 Inside Our National Parks And Monuments Wes Wolfe,2022-12-02 Our national parks and monuments reflect the heart and soul of the United States We cannot allow selfish government policies and actions to desecrate these national treasures We need your support to protect and preserve the very best of our country We must leave the national parks and monuments unimpaired for our children their children their children s children and their children ad infinitum **Glimpses of Our National Parks** United States. National Park Service,Isabelle Florence Story,1941

Reshaping Our National Parks and Their Guardians Kathy Mengak,2012 This biography of the seventh director of the National Park Service brings to life one of the most colorful powerful and politically astute people to hold this position George B Hartzog Jr served during an exciting and volatile era in American history Appointed in 1964 by Secretary of the Interior Stewart Udall he benefited from a rare combination of circumstances that favored his vision which was congenial with both President Lyndon Johnson s Great Society and Udall s robust environmentalism Hartzog led the largest expansion of the National Park System in history and developed social programs that gave the Service new complexion During his nine year tenure the system grew by seventy two units totaling 2 7 million acres including not just national parks but historical and archaeological monuments and sites recreation areas seashores riverways memorials and cultural units celebrating minority experiences in America In addition Hartzog sought to make national parks relevant and responsive to the nation s changing needs **Our National Park Policy** John Isne,2013-10-18 A legislative and administrative history on the social cultural and intellectual significance of the national park idea Originally published in 1961 **National Parks** ,2008 The flagship publication of the National Parks Conservation Association National Parks Magazine circ 340 000 fosters an appreciation of the natural and historic treasures found in the national parks educates readers about the need to preserve those resources and illustrates how member contributions drive our organization s park protection efforts National Parks Magazine uses images and language to convey our country s history and natural landscapes from Acadia to Zion from Denali to the Everglades and the 387 other park units in between **The National Parks** United States. Congress. House. Committee on Government Reform. Subcommittee on Criminal Justice, Drug Policy, and Human Resources,2005 **The National Parks** Dayton Duncan,Ken Burns,2009-09-08 The companion volume to the twelve hour PBS series from the

acclaimed filmmaker behind *The Civil War* *Baseball* and *The War America's* national parks spring from an idea as radical as the Declaration of Independence that the nation's most magnificent and sacred places should be preserved not for royalty or the rich but for everyone. In this evocative and lavishly illustrated narrative Ken Burns and Dayton Duncan delve into the history of the park idea from the first sighting by white men in 1851 of the valley that would become Yosemite and the creation of the world's first national park at Yellowstone in 1872 through the most recent additions to a system that now encompasses nearly four hundred sites and 84 million acres. The authors recount the adventures, mythmaking, and intense political battles behind the evolution of the park system and the enduring ideals that fostered its growth. They capture the importance and splendors of the individual parks from Haleakala in Hawaii to Acadia in Maine from Denali in Alaska to the Everglades in Florida from Glacier in Montana to Big Bend in Texas. And they introduce us to a diverse cast of compelling characters, both unsung heroes and famous figures such as John Muir, Theodore Roosevelt, and Ansel Adams, who have been transformed by these special places and committed themselves to saving them from destruction so that the rest of us could be transformed as well. *The National Parks* is a glorious celebration of an essential expression of American democracy.
