Promising The Moon:

How To Be Trustworthy Katherine Hawley, 2019-09-26 We become untrustworthy when we break our promises miss our deadlines or offer up unreliable information If we aim to be a trustworthy person we need to act in line with our existing commitments and we must also take care not to bite off more than we can chew when new opportunities come along But often it is not clear what we will be able to manage what obstacles may prevent us from keeping our promises or what changes may make our information unreliable In the face of such uncertainties trustworthiness typically directs us towards caution and hesitancy and away from generosity spontaneity or shouldering burdens for others In How To Be Trustworthy Katherine Hawley explores what trustworthiness means in our lives and the dilemmas which arise if we value trustworthiness in an uncertain world She argues there is no way of guaranteeing a clean conscience We can become untrustworthy by taking on too many commitments no matter how well meaning we are yet we can become bad friends colleagues parents or citizens if we take on too few commitments Hawley shows that we can all benefit by being more sensitive to obstacles to trustworthiness and recognising that those who live in challenging personal circumstances face greater obstacles than other members of society whether visibly or invisibly disadvantaged through material poverty poor health social exclusion or power imbalances

Rethinking Heritage for Sustainable Development Sophia Labadi, 2022-06-06 The Sustainable Development Goals SDGs adopted by the UN in 2015 have influenced the actions of international and intergovernmental organisations and governments around the world and have dictated priorities for international aid spending Culture including heritage is often presented as fundamental to addressing the SDGs since 2010 the United Nations has adopted no fewer than five major policy recommendations that assert its importance as a driver and enabler of development Yet heritage is marginalized from the Sustainable Development Goals Rethinking Heritage for Sustainable Development constitutes a substantial and original assessment of whether and how heritage has contributed to three key dimensions of sustainable development namely poverty reduction gender equality and environmental sustainability within the context of its marginalisation from the Sustainable Development Goals and from previous international development agendas Sophia Labadi adopts a novel inclusive large scale and systematic approach providing the first comprehensive history of the international approaches on culture including heritage for development from 1970 to the present day This book is also the first to assess the negative and positive impacts of all the international projects implemented in sub Saharan Africa by a consortium of UN organisations that aimed to provide evidence for the contribution of heritage for development in time for the negotiation of the SDGs The book s conclusions provide recommendations for rethinking heritage for development while reflecting on the major shortcomings of the selected projects
