

How To Choose Your University

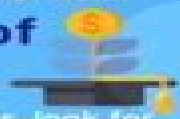

Identify your interests

The university and undergraduate program you choose will determine your career path, so it should be something that you are actually interested in. Think about your hobbies, interests, and favorite FSc subjects. Also think about which subjects you tend to score well on for the BISE board exams. Imagine yourself working in that particular field.

Select programs of interest

After determining your interests, look for relevant university programs for undergraduate students. For example, if you are interested in money management, then you can choose university programs such as Bachelors in Business Administration, Bachelors in Accounting & Finance, Chartered Accounting, etc....

Match your subjects to program requirements

Read up on the general subject requirements for each program that you are interested in. For example, for Mechanical Engineering the program may require you to study physics, chemistry, and mathematics in your FSc. Furthermore, your BISE board exams scores should meet the minimum requirements for the program. Your FSc subjects should match the subject requirements to make you eligible to apply for that program.

Meet all other requirements

Some universities have other requirements aside from the FSc subjects. For example, a certain BISE board exams score, standardized test scores, English proficiency test, personal statement, etc... may be required in order to be eligible to apply for certain universities and undergraduate programs. Make sure you meet these requirements.
