Puzzle Of The Gospels:

The Puzzle of the Gospels Peter Vardy, Mary E. Mills, 2015-02-24 First Published in 2015 The gospels tell a story There are many types of story ranging from fiction through biographies to attempts at historical accounts Even so called true stories will be affected by the perception of the writer It is impossible to present any book without taking the viewpoint of the author into account which is one reason why this book will be devoting considerable time to understanding the purpose and intention of the individual gospel writers Matthew Mark Luke and John present different accounts of the life and death of Jesus of Nazareth as one might expect from four people who although they use some common material nevertheless present this material in distinctive ways This book will be concerned with helping you the reader to understand the gospel stories and how they came to be written to bring to light the implicit references that were being made of which modern readers may be unaware and also to consider the issue of the truth of the stories

The Puzzle of the Gospels Peter Vardy, Mary E.

Mills, 1997 Devoting considerable time to understanding the purpose and intention of the individual gospel writers the authors assist the reader in understanding the gospel stories and how they came to be written in order to bring to light the implicit references that were being made of which modern readers may be unaware They discuss not only what story is being presented to the reader but to what extent and in what way they should be regarded as true rather than fictional accounts
