Bowie, 2004 A detailed treatment of ethics preparing students for the methods of study expected in higher education Covering the major western theories and their religious connections as well as a series of pertinent contemporary ethical issues This second edition has been substantially updated to provide comprehensive coverage of the Religious Ethics requirements of all major awarding bodies *Sidgwickian Ethics* David Phillips, 2011-07-01 Henry Sidgwick's *The Methods of Ethics* is one of the most important books in the history of moral philosophy But it has not hitherto received the kind of sustained scholarly attention its stature merits David Phillips aims in *Sidgwickian Ethics* to do something that has surprisingly not been done before to interpret and evaluate the central argument of the *Methods* in a way that brings out the important conceptual and historical connections between Sidgwick's views and contemporary moral philosophy Sidgwick distinguished three basic methods utilitarianism egoism and dogmatic intuitionism And he focused on two conflicts between utilitarianism and dogmatic intuitionism and between utilitarianism and egoism Sidgwick believed he could largely resolve the conflict between utilitarianism and dogmatic intuitionism but could not resolve the conflict between utilitarianism and egoism Phillips suggests that the best way to approach Sidgwick's ideas is to start with his views on these two conflicts and with the metaethical and epistemological ideas on which they depend Phillips interprets and largely defends Sidgwick's non naturalist metaethics and moderate intuitionist moral epistemology But he argues for a verdict on the two conflicts different from Sidgwick's own Phillips claims that Sidgwick is less successful than he thinks in resolving the conflict between utilitarianism and dogmatic intuitionism and that Sidgwick's treatment of the conflict between utilitarianism and egoism is more successful than he thinks in that it provides the model for a plausible view of practical reason Phillips's book will be of interest to two different groups of readers to students seeking a brief introduction to Sidgwick's most important ideas and a guidebook to the *Methods* and to scholars in ethics and the history of ideas concerned with Sidgwick's

Richards, 2017-08-11 Evolutionary ethics the application of evolutionary ideas to moral thinking and justification began in the nineteenth century with the work of Charles Darwin and Herbert Spencer but was subsequently criticized as an example of the naturalistic fallacy In recent decades however evolutionary ethics has found new support among both the Darwinian and the Spencerian traditions This accessible volume looks at the history of thought about evolutionary ethics as well as current debates in the subject examining first the claims of supporters and then the responses of their critics Topics covered include social Darwinism moral realism and debunking arguments Clearly written and structured the book guides readers through the arguments on both sides and emphasises the continuing relevance of evolutionary theory to our understanding of ethics today Basic Ethics Michael Boylan, 2020-12-29 Basic Ethics presents for a wide range of students and other interested readers the questions raised in thinking about ethical problems the answers offered by moral philosophy and the means to better integrate into both the reader's world and personal life It takes up what the author calls a worldview theory which shows readers how to begin with the values and understanding of the world that they already possess in order to transition from there to new levels of increasing ethical awareness Updates to the third edition include the more thorough integration of feminist ethics into the principal theoretical traditions a new chapter on the ethical responsibility to be well informed of current events expanded coverage of human rights and additional opportunities on how to use ethical reasoning in thinking about one's own life and about public policy Key Features Links personal values to a philosophical treatment of the major ethical theories Presents ethics in the context of social political issues that face our nation and the world Challenges the student to react to the presented material through critical exercises that may be used as weekly assignments and can form the basis of class discussion and evaluation Engages the student to think about underlying issues first in the basic questions
