**Orthodox Mercantilism** Alex Feldman, 2024-04-02 This book demonstrates how the political economy of mercantilism was not simply a Western invention by various cities and kingdoms during the Renaissance but was the natural by product of perpetually limited growth rates and rulers' relentless pursuits of bullion It contributes to discussions of the economic history surrounding the so called Great Divergence between East and West which would consequently lend context and credence to differences of economic thought in the world today Additionally it seeks to explain present economic thought as tacitly derived from implicit antique paradigms This book advances fields of research from numismatics and sigillography to historical materialism and historical political economy Divided into three parts Orthodox Mercantilism first examines the political theology the sovereignty of the emperor from the early 11th century Second it analyzes its peripheral legislation from the customary laws of newly Christianized dynasties up to the Kormaja Kniga's adoption the Nomokanon by 13th century Orthodox dynasties across Eastern Europe Third it explores how these dynasties and their own satellite dynasties hoarded finite bullion to pay for defense resulting in the 11-14th century coinless period across Eastern Europe and Western Eurasia Appealing to students and scholars alike this book will be of interest to those studying and researching economic and mercantile history particularly in the context of Byzantine and Eastern European societies **Super Triptychs** Everett C Borders Jr. PhD., PhD, 2019-06-17 Super Triptychs This writer's material is the most controversial screenplays of this time that I have ever written included within this screenplay all complete movie scripts dialogs exert Included within this movie screenplay all complete movie scripts dialogs forthwith This story is about very dark true life story about a little homeless girl living on the streets of a big city The tale has many twists The third novel the Ghosts of Vegas is another material that could very easily be converted into another movie The Ghosts of Vegas exert The storyboard is a snapshot about the fate of so many street people in Vegas all over the world living in shantytowns as it depicts the whys of a growing concern as so many homeless people who live on the streets The Third Planet J. V. Perrone, 2014-05-31 As the author of this novel I prefer not to provide biographic data except to disclose that I currently reside in Florida having moved there in 2004 after working in the financial district of New York City While still a rail commuter from New Jersey my daily morning route included taking

the PATH train from Hoboken into the basement of the World Trade Center where especially when the weather was spring like I usually would exit the complex through its central plaza and from there walk the three blocks to my office My timing was such that I was usually in the plaza by 8 45 AM in order to be on time for work Having returned a few days earlier from a tiring vacation I decided that fateful Tuesday morning of September 11 2001 to get a few extra winks of sleep and to take the late train to work As a result I was about thirty minutes later than usual and not where I normally would have been at 8 46 AM when the first plane struck the north tower of the World Trade Center If the events of that day did not change my perspective on life then the following weeks and months of working in the humbling atmosphere of such a terrible disaster did Many questions were asked and not answered Was it by human design alone Was it because of divine punishment In any event in order to mentally escape the reality of an environment in which physical escape was not then possible I found that when I had a private moment to think on the subway the commuter train on a work break etc I did so with pen in hand And what emerged at the time were poems that helped me deal with questions of the soul and resolve the remorse I felt which was later replaced with a sense of hope Although I always had what I thought to be a talent for writing through which I could express thoughts and feelings in a way I never could do verbally I had never written anything of consequence before that disastrous day in 2001 And yet looking back it seemed that whatever pen I subsequently used in writing those poems which eventually turned out to be many must have had a magical connection because the words came only after first picking up the pen Many times the words came quickly without my having to think as if I was simply transcribing what was being dictated It was the same with this novel I never planned to write a novel and most certainly do not consider myself an author But one day a thought came into my head causing me to pick up a pen and on a simple notepad I began to write the first chapter of this book The characters immediately came into being and essentially it is their novel their story At times when the story stagnated causing me to sit at the computer while my fingers remained still it was as if the characters had nothing to say so much so that if a family member who knew of the writing of this novel would ask me at the time how it was coming along my answer would be that the characters weren't talking to me So maybe this isn't a novel at all Maybe it all did happen a long while ago and that through some kind of a time anomaly the people described herein may have telepathically communicated their story to me so that this world that we live in today could have knowledge of what once had been I really don't know what do you think J V Perrone

Trojan Horse Beside the Nile Jim Eyberg, 2011 A young student of archeology accidentally stumbles on evidence that suggests water was used to assist in constructing the Great Pyramid of Egypt A mummy he befriends later presents him with irrefutable proof on the method of construction the conditions for workers at the time of construction and the real reason why Pharaoh Khufu undertook such a project in the first place In addition this narrative contains the appendix of the mummy which explains in detail just how the Ancient Egyptians constructed pyramids using only materials available to them at the time The mummy's testimonial is absolutely jaw dropping Lost Angeles Toombs Each
