Jurisprudencia del Tribunal Supremo Cuba. Tribunal Supremo, J. Ernesto Lopez, 1914 Constructing Languages
Francesc Feliu, Josep Maria Nadal, 2016-08-25 As language historians we believe that the subject of our study is neither natural languages nor idiolects which speakers have always been able to develop individually loosely what Chomsky calls L i but rather the social constructions of reference shared by all speakers basically what Chomsky terms as L e In this context the language historian essentially studies how a public L e is built such that it can be understood as the language of all i e hiding L i variations and also how L e succeed in replacing the primary reality of idiolects even if only in the imagination Writing represents a crucial turning point in language construction because it made it possible to materialize the abstraction that until then related speakers could only guess and besides it comes into competition with individual languages In modern centuries the provision of grammars dictionaries and other such learning tools and systematizing instruments strengthens the idea that because of their normative character languages can be learned through study Mythical stories encourage the achievement of prescriptive rules and lead speakers to link emotions to their language Therefore the topics of reflection that we want to discuss in this volume are Norms Myths and Emotions related to language construction *Monograph Series*, 1928 **Constituiçoes Synodaes do Bispado de Lamego, feitas pello ... [With a preface by him.]**, 1683 The Reception of Machiavelli in Early Modern Spain Keith David Howard, 2014 Arguing against historians of Spanish political thought that have neglected recent developments in our understanding of Machiavelli s contribution to the European tradition the thesis of this book is that Machiavellian discourse had a profound impact on Spanish prose treatises of the sixteenth and seventeenth centuries After reviewing in chapter 1 Machiavelli s ideological restructuring of the language of European political thought in chapter 2 Dr Howard shows how before his works were prohibited in Spain in 1583 Spaniards such as Fadrique Furi Ceriol and Balthazar Ayala used Machiavelli s new vocabulary and theoretical framework to develop an imperial discourse that would be compatible with a militant understanding of Catholic Christianity In chapters 3 4 and 5 he demonstrates in detail how Giovanni Botero Pedro de Ribadeneyra and their imitators in the anti Machiavellian reason of state tradition in Spain attack a straw figure of Machiavelli that they have invented for their own rhetorical and ideological purposes while they simultaneously incorporate key Machiavellian concepts into their own advice Keith David Howard is an Assistant Professor of Spanish at Florida State University **Diccionari UB**, 2008 El diccionari UB angl s catal s el resultat d una activitat conjunta de diferents agents que de manera complementària han sumat coneixements continguts i tecnologia per fer una obra de referència rigorosa posada al dia til a un ampli sector de la ciutadania i que contribueixi a eixamplar els horitzons culturals i lingüístics no solament de la comunitat universitària sin de la societat catalana Pel seu contingut constitueix una obra idèntica tant per als usuaris comuns de la llengua com per a especialistes d un

ampli ventall de sectors professionals aix com per al professorat i estudiants universitaris i de cursos avançats de secundària. La mobilitat estudiantil a nivell internacional el converteix en un company de viatge imprescindible per als estudiants catalans que viatgen a l'estranger i en una eina bàsica per al coneixement de la llengua i la cultura catalanes per als qui volen completar els seus estudis al nostre país.
