Handbook of Quality Assurance in Mental Health Alex R. Rodriguez,Sharon A. Shueman,2013-11-09 professional standards review organizations PSRO in defining quality of care for the Medicare program it is a shared responsibility of health professionals and government to provide a reasonable basis for confidence that action will be taken both to assess whether services meet professionally recognized standards and to correct any deficiencies that may be found p 14 Similar pronouncements have been made for the quality assurance activities of the Department of Defense s CHAMPUS program and of the 1980s successor to the PSROs the federally designated peer review organizations PROs established to ensure quality and utilization efficient care for Medicare Links between the federal and state gov ernments and between professional

associations and private review entities have been developed to make this shared responsibility manifest in the delivery and reimbursement of health services This responsibility is seen in light of both professional and legal accountability a view noted by Gibson and Singhas 1978 and Alger 1980 Accountability then becomes a concentric concept that elaborates on the pure view of quality and reflects the federal government's consumer protection activities during the 1970s The Joint Commission on Accreditation of Hospitals JCAH which has provided another primary historical leadership role in defining quality assurance has promoted the evolution of the concept of resource limitations as a part of the definition of quality assurance

Quality in Higher Education Ming Cheng, 2016-09-27 Many countries now employ national evaluation systems to demonstrate publicly that universities provide a quality education However the current processes of quality evaluation are often detached from the practices of teaching and learning In particular those who teach and those who learn still have to be won over to such audit processes This book argues that it is time for the higher education sector to concern itself with the human dimension so as to develop both academic professionalism and students commitment to their learning Based on five completed research projects which explore academics and students experiences and their views of

quality evaluation the book argues that developing the intrinsic values of teaching and learning held by academics and students is key to achieving high quality education In this book the author critically reviews the four most frequently used terms related to current quality evaluation fitness for purpose value for money student satisfaction and students as customers and argues for a motivationally intelligent quality approach emphasising the moral dimension and the intrinsic values of academics and students The author also outlines an improved quality evaluation system that encourages and increases academics and students commitment to teaching and learning
