Fourth International Handbook of Globalisation, Education and Policy Research Joseph Zajda, 2024-12-04 This handbook provides a global synthesis of on-going research in education and policy change during the last decade. It examines discourses of globalisation from the perspectives of the global North and global South. Major theories of globalisation and education policy reforms employed in the handbook are classified into two broad categories: structuralist and post-structuralist. The handbook, while examining the impact of global trends in different societies, cultures, and educational settings, attempts to synthesise different meta-theories of globalisation and their impact on societies and educational systems. It discusses the continued interaction of global, national, and local forces and influences, especially the importance of standards and quality-driven education reforms, the need to overcome inequality of access to quality schools, and aims at providing quality education for all students. In addition, the impact of neo-liberal ideology on education is examined in terms of its impact on ongoing standards-driven education reforms globally. The handbook analyses neo-liberalism in education and its focus on increasing global competitiveness, accountability, efficiency, quality standards-driven policy reforms, and educational stratification. The impact of globalisation on education policy and reforms is a strategically significant issue for us all. The unifying conceptual framework used in the handbook to critique the strategic significance of globalisation is grounded in discourse CDA and critical theory. The work offers the latest findings concerning major issues in education and policy directions such as global social and economic inequality, neo-liberal standard-driven education and policy reforms, performing schools in the performing culture, education for human rights and social justice, new perspectives on education for sustainability, dominant and effective models of values education in schools, and the ubiquitous impact of ICTs on education systems.

English as a Language of Teaching and Learning for Community Secondary Schools in Tanzania Elia Shabani Mligo, Mikael Mwashilindi, 2017-08-07 This book examines the challenges posed by English, a foreign language, as a language of teaching and learning for community secondary schools in Tanzania in terms of academic performance. The book probes the necessity for having two languages of instruction in the Tanzanian educational system. While Kiswahili, the native

language is predominantly understood by the majority of people the discussion in this book indicates that most students in community secondary schools in Tanzania are incompetent in understanding writing listening reading and speaking English a language they use in learning and doing their examinations especially in the early stages of their secondary studies The incompetence in the above mentioned skills is mostly caused by their inability to cope with the abrupt transition in the languages of instruction from their pre primary and primary school study Kiswahili to secondary school study English Moreover most teachers are unable to use the English language as a means to impart knowledge or facilitate learning to their students leading them to code switching and code mixing This book poses a challenge to countries whose students pass through a transition from one language of instruction to another in their educational systems helping them to make appropriate decisions in regard to the appropriate language of teaching and learning *Research Anthology on Preparing School Administrators to Lead Quality Education Programs* Management Association, Information Resources,2020-07-24 The delivery of quality education to students relies heavily on the actions of an institution s administrative staff Effective leadership strategies allow for the continued progress of modern educational initiatives It is crucial to investigate how effective administrators lead their organizations in challenging and difficult times and promote the accomplishments of their organization *Research Anthology on Preparing School Administrators to Lead Quality Education Programs* is a vital reference source that offers theoretical and pedagogical research concerning the management of educational systems on both the national and international scale It also explores academic administration as well as administrative effectiveness in achieving organizational goals Highlighting a range of topics such as strategic planning human resources and school culture this multi volume book is ideally designed for educators administrators principals superintendents board members researchers academicians policymakers and students **Revolutionary Struggles and Girls' Education** Thera Mjaaland,2021-07-27 *Revolutionary Struggles and Girls Education At the Frontiers of Gender Norms in North Ethiopia* argues that at the base of girls poorer performance than boys at secondary school level when puberty has set in is the symbolic violence entailed in sanctioned femaleness Informed by the modesty of Virgin Mary in Orthodox Christian veneration it instructs girls to internalize a holding back which impinges on her self efficacy and ability to be an active learner Neoliberally informed educational policies and plans which have co opted liberal feminism also in Ethiopia do not address hard lived gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity Despite women s courageous contribution at a literal frontier during the Tigrayan liberation struggle 1975 91 where they fought on equal terms with men and despite the tendency that girls outnumber boys at secondary level in the present context sanctioned femaleness constitutes a frontier for girls educational success and transition to higher education In fact when teaching learning continues to be based on memorization rather than critical thinking the very transformative potential of education is undermined also in a gendered sense **The Routledge Handbook of Religions**
