Building Operation and Management Applications in Different Building Types Regulations and Contracts     Improving the Quality of Life David M. Romney, Roy I. Brown, Prem S. Fry, 2012-12-06 The book is unique in two distinct ways First it focuses on improving quality of life in contrast to other books that have tended to focus more on its conceptualization and assessment Second it deals with improving quality of life in a variety of disabled populations not just one and includes chapters on people with chronic mental or physical conditions and those without disabilities at all i e so called normal people The book outlines some of the challenges and controversies in the quality of life domain and attempts to synthesize the key issue and to draw generalizable conclusions The book is mainly for university students and faculty and practitioners from various disciplines working in the field It will also interest those members of the general public who wish to improve their own quality of life or that of their relatives or friends     *Forest-Water Interactions* Delphis F. Levia, Darryl E. Carlyle-Moses, Shin'ichi Iida, Beate Michalzik, Kazuki Nanko, Alexander Tischer, 2020-02-05 The United Nations has declared 2018-2028 as the International Decade for Action on Water for Sustainable Development This is a timely designation In an increasingly thirsty world the subject of forest water interactions is of critical importance to the achievement of sustainability goals The central underlying tenet of this book is that the hydrologic community can conduct better science and make a more meaningful impact to the world's water crisis if scientists are 1 better equipped to utilize new methods and harness big data from either or both high frequency sensors and long term research watersheds and 2 aware of new developments in our process based understanding of the hydrological cycle in both natural and urban settings Accordingly this forward looking book delves into forest water interactions from multiple methodological statistical and process based perspectives with some chapters featuring data sets and open source R code concluding with a chapter on future forest hydrology under global change Thus this book describes the opportunities of convergence in high frequency sensing big data and open source software to catalyze more comprehensive understanding of forest water interactions The book will be of interest to researchers graduate students and advanced undergraduates in an array of disciplines including hydrology forestry ecology botany and environmental engineering     **Radical Political Economy** Charles A. Barone, 2004 This straightforward introduction to radical political economy strikes a balance between breadth and depth and was written for the beginning student and others interested in a relatively short text on radical economics     *Gas Age*, 1922 Includes summaries of proceedings and addresses of annual meetings of various gas associations L C set includes an index to these proceedings 1884-1902 issued as a supplement to Progressive age Feb 15 1910
