Quand les Gaulois étaient romains Françoise Beck,1991 *The Cambridge Ancient History* Alan K. Bowman,Peter Garnsey,Dominic Rathbone,1982 *Roman Architecture in Provence* James C. Anderson,2013 This book provides a survey of the architecture and urbanism of Provence during the Roman era Provence or Gallia Narbonensis as the Romans called it was one of the earliest Roman colonies in Western Europe In this book James C Anderson jr examines the layout and planning of towns in the region both those founded by the Romans and those redeveloped from native settlements He provides an in depth study of the chronology dating and remains of every type of Roman building for which there is evidence in Provence The stamp of Roman civilization is apparent today in such cities as Orange Nîmes and Arles where spectacular remains of bridges theaters fora and temples attest to the sophisticated civilization that existed in this area during the imperial period and late antiquity This book focuses on the remains of buildings that can still be seen exploring decorative elements and their influence from Rome and local traditions as well as their functions within the urban environment
