Quarrel Over Future Contingents Louvain 1465 1475:

The Quarrel over Future Contingents (Louvain 1465-1475) Leon Baudry,2012-12-06 The Latin texts collected by Leon Baudry present the late fifteenth century debate at the University of Louvain over the truth value of propositions about future contingent events a subject of perennial interest in philosophy The theologians held fast to divine predetermination and the Aristotelians in the Arts Faculty supported the doctrine of free choice based on indeterminism Although the issues in the debate are still argued in philosophy this rich collection of the theories and arguments has been neglected Peter de Rivo and Henry de Zomerem the principal antagonists are cited in the recent literature but only on the basis of slight mostly second hand information The full collection of texts has never before been translated into English or any other modern language leaving them inaccessible to the majority of students or any others who are not equipped to work their way through 450 pages of fifteenth century scholastic Latin Apart from their philosophical significance the texts shed light on late scholastic methods in teaching and disputation on university politics of the period in relation to the Vatican the Court of the Duke of Burgundy and the faculties of other great universities and on legal procedures both secular and ecclesiastical The human drama that develops as the debate proceeds should hold the interest of even the non specialist *The Quarrel Over Future Contingents* ,1989 A Companion to Philosophy in the Middle Ages Jorge J. E. Gracia,Timothy B. Noone,2008-04-15

Walter Chatton on Future Contingents Jon Bornholdt,2017-02-06 In *Walter Chatton on Future Contingents* Jon Bornholdt presents the first full length translation commentary and analysis of the various attempts by Chatton 14th century C E to solve the ancient problem of the status and significance of statements about the future At issue is the danger of so called logical determinism if it is true now that a human will perform a given action tomorrow is that human truly free to perform or refrain from performing that action Bornholdt shows that Chatton constructed an original though problematic formal analysis that enabled him to canvass various approaches to the problem at different stages of his career at all times showing an unusual sensitivity to the tension between formalist and metaphysical types of solution **Theology at Paris, 1316-1345** Chris Schabel,2021-12-24 Chris Schabel presents a detailed analysis of the radical solution given by the Franciscan Peter Auriol to the problem of reconciling divine foreknowledge with the contingency of the future and of contemporary reactions

to it Auriol's solution appeared to many of his contemporaries to deny God's knowledge of the future altogether and so it provoked intense and long lasting controversy Schabel is the first to examine in detail the philosophical and theological background to Auriol's discussion and to provide a full analysis of Auriol's own writings on the question and the immediate reactions to them This book sheds new light both on one of the central philosophical debates of the Middle Ages and on theology and philosophy at the University of Paris in the first half of the 14th century a period of Parisian intellectual life which has been largely neglected until now

Greeks and Latins in Renaissance Italy John Monfasani, 2023-07-28 The twelve essays in this new collection by John Monfasani examine how in particular cases Greek migr's Italian humanists and Latin scholastics reacted with each other in surprising and important ways After an opening assessment of Greek migration to Renaissance Italy the essays range from the Averroism of John Argyropoulos and the capacity of Nicholas of Cusa to translate Greek to Marsilio Ficino's position in the Plato Aristotle controversy and the absence of Ockhamists in Renaissance Italy Theodore Gaza receives special attention in his roles as translator teacher and philosopher as does Lorenzo Valla for his philosophy theology and historical ideas Finally the life and writings of a prot g of Cardinal Bessarion the Dominican friar Giovanni Gatti come in for their first extensive study

The Modal Logic of John Fabri of Valenciennes (c. 1500) Christophe Geudens, Lorenz Demey, 2022-05-03 The first book length study to address issues in modal logic at the eve of the Renaissance this monograph provides important new insights into the way the debates on modal logic during the post medieval period tied in with the so called Wegestreit the divide between the via antiqua and via moderna that dominated the discourse on logic during the 15th and early 16th centuries The focus of the book is on the logic and philosophy of language of John Fabri of Valenciennes fl c 1500 one of the last exponents of the terminist approach to logic that was bitterly criticized by the humanist movement By means of a careful reconstruction of Fabri's text the book argues that Fabri's modal logic ultimately goes back to the work of John Buridan and represents the same approach to the topic as the modal logics that were developed by adherents of the via moderna in Paris This has significant implications for the historiography of post medieval philosophy Fabri was active in Louvain which until the late 16th century was the most important intellectual center in the Low Countries According to a long standing tradition in the scholarship Louvain was one of the few bulwarks of via antiqua logic on the map of post medieval Europe The book argues that this thesis is at least in part a scholarly fiction and thus in need of revision By shedding light on an author whose thought has thus far remained entirely unstudied it also constitutes a valuable step towards a history of philosophy without any gaps The book is aimed at graduate students and researchers in the history of logic and philosophy but will also be of interest to intellectual historians historians of ideas and to any contemporary modal logician who is interested in the historical roots of their discipline

It Could Have Been Otherwise Hester Goodenough Gelber, 2004-01-01 This description of Dominicans at Oxford from 1300 1350 and the theology of Hugh of Lawton Arnold of Strelley William Crathorn and Robert Holcot reclaims the Dominicans as highly original contributors to

theology and philosophy at a time of great innovation *Divine Causality and Human Free Choice* Robert Joseph Matava,2016-01-19 In *Divine Causality and Human Free Choice* R J Matava explains the idea of physical premotion defended by Domingo B ez whose position in the Controversy de Auxiliis has been typically ignored in contemporary discussions of providence and freewill Through a close engagement with untranslated primary texts Matava shows B ez s relevance to recent debates about middle knowledge Finding the mutual critiques of B ez and Molina convincing Matava argues that common presuppositions led both parties into an insoluble dilemma However Matava also challenges the informal consensus that Lonergan definitively resolved the controversy Developing a position independently advanced by several recent scholars Matava explains how the doctrine of creation entails a position that is more satisfactory both philosophically and as a reading of Aquinas *The Limits of Influence* Steven Vanden Broecke,2003-01-01 This is a case study of astrology s changing status as an academic discipline in the sixteenth century It provides fascinating new insights in the practice of Renaissance astrology its social position and its profound impact on the changes in early modern European science **Modalities in Medieval Philosophy** Simo Knuuttila,2019-07-02 Originally published in 1993 *Modalities in Medieval Philosophy* looks at the idea of modality as multiplicity of reference with respect to alternative domains The book examines how this emerged in early medieval discussions and addresses how it was originally influenced by the theological conception of God acting by choice After a discussion of ancient modal paradigms the author traces the interplay of old and new modal views in medieval logic and semantics philosophy and theology A detailed account is given of late medieval discussions of the new modal logic epistemic logic and the logic norms These theories show striking similarities to some basic tenets of contemporary approaches to modal matters This work will be of considerable interest to historians of philosophy and ideas and philosophers of logic and metaphysics *Free Creatures of an Eternal God* Harm J. M. J. Goris,1996 Peeters 1996

transmission in an extensive historical introduction **Palgrave Advances in Intellectual History** R. Whatmore, B. Young, 2006-05-26 The past three decades have seen a remarkable growth of interest in intellectual history and this book provides the first comprehensive survey of recent research in this field Each chapter considers developments in intellectual history and shows the ways intellectual historians have contributed to more established disciplinary enquiries **A Philosopher at the Crossroads** Amos Edelheit, 2022-03-16 This study explains how one of the most remarkable thinkers of the Italian Renaissance Giovanni Pico della Mirandola 1463 1494 broke new ground by engaging with the scholastic tradition while maintaining his humanist sensibilities A central claim of the monograph is that Pico was a philosopher at the crossroads whose sophisticated reading of numerous scholastic thinkers enabled him to advance a different conception of philosophy The scholastic background to Pico s work has been neglected by historians of the period This omission has served to create not only an unreliable picture of Pico s thought but also a more general ignorance of the dynamism of scholastic thought in late fifteenth century Italy The author argues that these deficiencies of modern scholarship stand in need of correction **Historical Dictionary of Medieval Philosophy and Theology** Stephen F. Brown, Juan Carlos Flores, 2018-08-10 This second edition concentrates on various philosophers and theologians from the medieval Arabian Jewish and Christian worlds It principally centers on authors such as Abumashar Saadia Gaon and Alcuin from the eighth century and follows the intellectual developments of the three traditions up to the fifteenth century Ibn Khaldun Hasdai Crescas and Marsilio Ficino The spiritual journeys presuppose earlier human sources such as the philosophy of Plato Aristotle Plotinus and Porphyry and various Stoic authors the revealed teachings of the Jewish Law the Koran and the Christian Bible The Fathers of the Church such as St Augustine and Gregory the Great provided examples of theology in their attempts to reconcile revealed truth and man s philosophical knowledge and deserve attention as pre medieval contributors to medieval intellectual life Avicenna and Averroes Maimonides and Gersonides St Thomas Aquinas and St Bonaventure stand out in the three traditions as special medieval contributors who deserve more attention This second edition of Historical Dictionary of Medieval Philosophy and Theology contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important persons events and concepts that shaped medieval philosophy and theology This book is an excellent resource for students researchers and anyone wanting to know more about medieval philosophy and theology *The Fullness of Time* Matthew S. Champion, 2017-11-13 The Low Countries were at the heart of innovation in Europe in the fifteenth century Throughout this period the flourishing cultures of the Low Countries were also wrestling with time itself The Fullness of Time explores that struggle and the changing conceptions of temporality that it represented and embodied showing how they continue to influence historical narratives about the emergence of modernity today The Fullness of Time asks how the passage of time in the Low Countries was ordered by the rhythms of human action from the musical life of a cathedral to the measurement of

time by clocks and calendars the work habits of a guildsman to the devotional practices of the laity and religious orders Through a series of transdisciplinary case studies it explores the multiple ways that objects texts and music might themselves be said to engage with imply and unsettle time shaping and forming the lives of the inhabitants of the fifteenth century Low Countries Champion reframes the ways historians have traditionally told the history of time allowing us for the first time to understand the rich and varied interplay of temporalities in the period **The Hybrid Reformation** Christopher Ocker, 2022-09-22 Studies the thought and actions of the Reformation s central figures reformers counter reformers and their supporters in the light of ordinary people
