Quick Access California:

California Charles Nordhoff, 1872 **Alta California** Nick Neely, 2020-06-09 National Bestseller This fascinating account of one man's 650 mile trek from San Diego to San Francisco captures the many layers of California's fiendishly complex history. Makes you fall or refall in love with California wildfires and insane housing prices and all. What a journey you think. What a state. San Francisco Chronicle. In 1769 an expedition led by Gaspar de Portola sketched a route that would become in part the famous El Camino Real. It laid the foundation for the Golden State we know today, a place that remains as mythical and captivating as any in the world. Despite having grown up in California, Nick Neely realized how little he knew about its history. So he set off to learn it bodily with just a backpack and a tent, trekking through stretches of California both lonely and urban. For twelve weeks following the journal of expedition missionary Father Juan Crespi, Neely kept pace with the ghosts of the Portola expedition, nearly 250 years later. Weaving natural and human history, *Alta California* relives Neely's adventure while telling a story of Native cultures and the Spanish missions that soon devastated them and exploring the evolution of California and its landscape. The result is a collage of historical and contemporary California of lyricism and pedestrian serendipity and of the biggest issues facing California today: water, agriculture, oil, and gas, immigration, and development, all of it one step at a time. *For California*, 1907 **Fodor's California 2011** Fodor's, 2010-11-02 Detailed and timely information on accommodations, restaurants, and local attractions highlights these updated travel guides which feature all new covers, a dramatic visual design, symbols to indicate budget options, must-see ratings, multi-day itineraries, Smart Travel Tips, helpful bulleted maps, tips on transportation, guidelines for shopping, excursions, and other valuable features. Original. *The California Ranger*, 1933 **California Cuisine and Just Food** Sally K. Fairfax, 2012 An account of the shift in focus to access and fairness among San Francisco Bay Area alternative food activists and advocates. Can a celebrity chef find common ground with an urban community organizer? Can a maker of organic cheese and a farm worker share an agenda for improving America's food? In the San Francisco Bay area, unexpected alliances signal the widening concerns of diverse alternative food proponents. What began as niche preoccupations with parks, the environment, food aesthetics, and taste has become a broader and more integrated effort to achieve food democracy, agricultural sustainability, access for all, to good food, fairness for workers and producers, and public health. This book maps that evolution in northern California. The authors show that progress toward food democracy in the Bay area has been significant. Innovators have built on familiar yet quite radical understandings of regional cuisine to generate new, broadly shared expectations about food quality, and activists have targeted the problems that the conventional food system creates. But they caution: despite the Bay Area's favorable climate, progressive politics, and food culture, many challenges remain. *Motor West and California Motor*, 1920 **Southern California Business**, 1928 **California. Court of Appeal (2nd Appellate District). Records and Briefs** California (State)., **Fodor's Southern California 2008** Fodor's, Fodor's Travel Publications, Inc. Staff, 2008-02-05

Lightfoot,Otis Parrish,2009 Relevant timely and approachable California Indians and Their Environment is an instant classic that should be invaluable for anyone interested in California s diverse natural and cultural landscapes and the future sustainability of the state Torben Rick author of Human Impacts on Ancient Marine Ecosystems A Global Perspective California Indians and Their Environment stands respectfully on the shoulders of scholarly giants and demonstrates the cumulative power of cultural historical and scientific research It is a remarkably inclusive and relevant text that is both highly informative of past indigenous life ways and identities and strikingly insightful into current environmental crises that confront us all Seth Mallios author of The Deadly Politics of Giving Exchange and Violence at Ajacan Roanoke and Jamestown In this highly readable and insightful book Lightfoot and Parrish show how the natural diversity of California not only influenced the contours of Indian lifeways but was indeed augmented by burning and other practices that were used to sustain indigenous economies The ingenuity and skill with which California Indians managed and used natural resources underscores the need to infuse modern land use policy with the knowledge of people whose ecological experiences in North America eclipse those of Euroamericans by a factor of forty Kenneth E Sassaman author of People of the Shoals Stallings

Culture of the Savannah River Valley This book is a deeply informative and fascinating examination of California Indians rich and complex relationship with the ecological landscape Lightfoot and Parrish have thoroughly updated the classic book The Natural World of the California Indians with critical analysis of anthropological theory and methods and incorporation of indigenous knowledge and practices It is a lucid accessible book that tells an intriguing story for our modern times Melissa K Nelson San Francisco State University and President of The Cultural Conservancy At once scholarly and accessible this book is destined to be a classic Framed around pressing environmental issues of concern to a broad range of Californians today Lightfoot and Parrish provide an historical ecology of California s amazingly diverse environments its biological resources and the Native peoples who both adapted to and actively managed them Jon M Erlandson author of Early Hunter Gatherers of the California Coast California Indians and Their Environment fills a significant gap in our understanding of the first peoples of California Lightfoot and Parrish take on the daunting task of synthesizing and expanding on our knowledge of indigenous land management practices sustainable economies and the use of natural resources for food medicine and technological needs This innovative and thought provoking book is highly recommended to anyone who wants to learn more about the diverse traditions of California Indians Lynn Gamble author of The Chumash World at European Contact This innovative book moves understanding of the Native Peoples of California from the past to the future The authors insight into Native Californians as fire managers is an eye opener to interpreting the ecological and cultural uniqueness of the region Lightfoot and Parrish have provided the best introduction to Native California while at the same time advancing the best scholarship with an original synthesis A rare feat William Simmons Brown University *California: Land of homes, by F.J. Taylor* John Russell McCarthy, 1929
