Русский язык и его роль в современном мире

Роль русского языка в современных условиях становится все более значимой в связи с постоянными изменениями, происходящими в стране и мире. История развития нашей планеты объективно указывает, что такая великая, уникальная и самобытная страна, как Россия, была, есть и всегда будет оставаться могущественной державой, несмотря на неоднократные внешние вызовы. Русский язык издревле являлся и остается языком межнационального общения, посредством которого преодолевается языковой барьер между представителями разных этносов внутри одного многонационального государства, а взаимопроникновение национальных культур только способствует его укреплению и обогащению.

В условиях глобализации уже несколько десятков лет в качестве универсального языка общения в мире выступает английский: литература и документация, научные форумы, политические и экономические переговоры различных форматов и, конечно, культовое достижение современности, – Интернет с его изначальной англоязычной лексикой.

История человечества демонстрирует возможность достаточно динамичного изменения лидерства того или иного языка как средства международного общения: в древнем мире – греческий, затем латынь в Европе и арабский в Азии, которые не сдавали свои лидирующие позиции до конца Позднего Средневековья, в XIX в. – французский, в XX в. – английский. Однако времена меняются. Еще 20–25 лет назад невозможно было представить, что на русском языке будут составляться путеводители, развешиваться вывески в магазинах и банках. Так происходит в большинстве стран Евросоюза, а также в туристических зонах целого ряда азиатских стран. Наряду с английским, немецким, японским языками делаются объявления по-русски в аэропортах многих стран мира. Весьма важным и показательным изменением в позиции мировых языков, несомненно, следует считать создание в мировой паутине русскоязычных сайтов. Сегодня это реальность.
