

Становление дополнительного образования в дореволюционный период

- ▶ Зарождение дополнительного (внешкольного) образования во второй половине XIX в. - это образование, прежде всего взрослых, а затем и детей, которое было обусловлено определенными социально-экономическими, политическими и культурными условиями России в этот период: переход страны к капиталистическому, машинному способу производства (для которого требовался более образованный рабочий); осознание прогрессивной частью общества необходимости просвещения широких народных масс; подъем гуманистической мысли и демократизация общественной жизни страны, где одной из форм ее проявления было становление и развитие местного самоуправления.
- ▶ Сам термин «дополнительное образование» появился в 1992 году в связи с принятием Закона РФ «Об образовании».
