Spatial Justice Andreas Philippopoulos-Mihalopoulos, 2014-10-30 There can be no justice that is not spatial Against a recent tendency to despatialise law matter bodies and even space itself this book insists on spatialising them arguing that there can be neither law nor justice that are not articulated through and in space *Spatial Justice* presents a new theory and a radical application of the material connection between space in the geographical as well as sociological and philosophical sense and the law in the broadest sense that includes written and oral law but also embodied social and political norms More specifically it argues that spatial justice is the struggle of various bodies human natural non organic technological to occupy a certain space at a certain time Seen in this way spatial justice is the most radical offspring of the spatial turn since as this book demonstrates spatial justice can be found in the core of most contemporary legal and political issues issues such as geopolitical conflicts environmental issues animality colonisation droning the cyberspace and so on In order to argue this the book employs the lawscape as the tautology between law and space and the concept of atmosphere in its geological political aesthetic legal and biological dimension Written by a leading theorist in the area *Spatial Justice* Body Lawscape Atmosphere forges a new interdisciplinary understanding of space and law while offering a fresh approach to current geopolitical spatiolegal and ecological issues

Handbook of Ecocriticism and Cultural Ecology Hubert Zapf,2016-05-10 Ecocriticism has emerged as

one of the most fascinating and rapidly growing fields of recent literary and cultural studies From its regional origins in late twentieth century Anglo American academia it has become a worldwide phenomenon which involves a decidedly transdisciplinary and transnational paradigm that promises to return a new sense of relevance to research and teaching in the humanities A distinctive feature of the present handbook in comparison with other survey volumes is the combination of ecocriticism with cultural ecology reflecting an emphasis on the cultural transformation of ecological processes and on the crucial role of literature art and other forms of cultural creativity for the evolution of societies towards sustainable futures In state of the art contributions by leading international scholars in the field this handbook maps some of the most important developments in contemporary ecocritical thought It introduces key theoretical concepts issues and directions of ecocriticism and cultural ecology and demonstrates their relevance for the analysis of texts and other cultural phenomena

Global Crusoe Dr Ann Marie Fallon, 2013-05-28 Global Crusoe travels across the twentieth century globe from a Native American reservation to a Botswanan village to explore the huge variety of contemporary incarnations of Daniel Defoe's intrepid character In her study of the novels poems short stories and films that adapt the Crusoe myth Ann Marie Fallon argues that the twentieth century Crusoe is not a lone struggling survivor but a cosmopolitan figure who serves as a warning against the dangers of individual isolation and colonial oppression Fallon uses feminist and postcolonial theory to reexamine Defoe's original novel and several contemporary texts showing how writers take up the traumatic narratives of Crusoe in response to the intensifying transnational and postcolonial experiences of the second half of the twentieth century Reading texts by authors such as Nadine Gordimer Bessie Head Derek Walcott Elizabeth Bishop and J M Coetzee within their social historical and political contexts Fallon shows how contemporary revisions of the novel reveal the tensions inherent in the transnational project as people and ideas move across borders with frequency if not necessarily with ease In the novel Robinson Crusoe Crusoe's discovery of Friday's footprint fills him with such anxiety that he feels the print like an animal and burrows into his shelter Likewise modern readers and writers continue to experience a deep anxiety when confronting the narrative issues at the center of Crusoe's story
