Rockefeller Syndrome:

The Rockefeller Syndrome Ferdinand Lundberg, 2017-12-17 In this monumental study Lundberg traces the illegal origins of the family fortune and follows its growth and effects down through today He is at his best when he zeroes in on the grandsons John the third Laurance Winthrop Nelson and David They are America's shadowy guides with their fingers into hundreds of pies And here is the carefully researched tale of who they are how they operate and what they're done with what they're won Won by inheritance that is Nor does Lundberg neglect the Cousins the great grandchildren of John D Senior who will one day inherit it all THE ROCKEFELLER SYNDROME is no mere chit chat biography It is a wide ranging study of wielded power and money in action It is the chronicle of the on going milking and deception of the American wage earner and taxpayer It explains clearly how those much hailed philanthropies are but one more heavy burden on the inflation laden tax weary backs of lower and middle class America *The Myth of the Robber Barons* Burton W. Folsom, 1991-01-01 In his book *The Myth of the Robber Barons* Folsom distinguishes between political entrepreneurs who ran inefficient businesses supported by government favors and market entrepreneurs who succeeded by providing better and lower cost products or services usually while facing vigorous competition *Between God and Gold* Robert A. Wauzzinski, 1993 The heart of *Between God and Gold* can be located in the survey of three representative nineteenth century Evangelical figures evangelist Charles Finney scholar Francis Wayland and philanthropist clergyman Russell Conwell The lives and thought of these notables are unfolded concretely thereby showing how the Evangelical Industrial synthesis occurred Wauzzinski concludes the book by suggesting theological and economic alternatives hoping to show in these examples that a third way between capitalism and socialism can be found These possibilities are drawn from theoretical and practical sources and thus provide opportunities for greater social revitalization An interdisciplinary methodology is employed throughout this work The author works from the assumption that various fields of study while analytically separated do manifest a fundamental coherence

Landes, 2007-09-25 From the author of the New York Times bestseller *The Wealth and Poverty of Nations* a fascinating look at the crossroads of kin and coin David S Landes has earned a reputation as a brilliant writer and iconoclast among economic historians In his latest acclaimed work he takes a revealing look at the quality that distinguishes a third of today's Fortune 500 companies family ownership From the banking fortunes of Rothschild and Morgan to the automobile empires of Ford and Toyota Landes explores thirteen different dynasties revealing what lay behind their successes and how extravagance bad behavior and poor enterprise brought some of them to their knees A colorful history that is full of surprising conclusions *Dynasties* is an engrossing mix of ambition eccentricity and wealth *Misanthropology* Reneau H. Reneau, 2003 An anthology of the author's experimental prose and humorous poetry **The New Common Wealth** Claudiu Adrian Secara, 1997 The notion of a worldwide perestroika driven by the global elite has gained credibility lately This book examines the most intriguing paradoxes in the Soviet Union's collapse and speculates on the global
