O'Doherty, 2015-11-15 Dear All In our opinion bringing Vladimir Putin to Justice would be the right thing to do and make him resign from office so that Peace and Harmony can be restored in the International Community We are also advocating that Russian lawmakers military officers and civil servants should receive an Amnesty who participate in restoring Peace between Russia and Ukraine A continuation of Russia's war in Ukraine will increasingly harm Russia's reputation in the world and isolate the Russian people economically socially and culturally which is unnecessary and can be avoided if Russia restores peaceful relations with the International Community which would include the withdrawal of Russian troops from Ukrainian territory Once Peace between Russia and Ukraine has been manifested we intend to replace NATO with a new International Peacebuilding Alliance IPA where both Russia and the US will have a key and instrumental role We would like to emphasize that we are expecting both Russia and the United States to fall in line with this new International Peacebuilding Policy Once Peace and Prosperity has been restored in the world I will be quite happy to step down as world leader But until we reach that stage of Peace and Harmony in the International Community I suggest we all pull in the same direction We are also advocating the founding of a world organization that is above all other governments even above the UK Russia and the US so that Peace and Prosperity can be manifested in the world Until Peace on Earth has been manifested it will be the NGO BTB Global Peacebuilding which will handle matters such as bringing the UK Russia and the United States into a new International Peacebuilding Alliance IPA The aim would be to convince both the US and Russia to work together towards complete denuclearization and world peace which I am sure will happen in due course of time provided that we all work together and trust each other and believe that Peace on Earth is possible PS We also would be willing to inspect nuclear submarines in particular from the UK Russia and the United States to ensure that gender equality good etiquette and gentlemanly conduct is upheld on all hunter killer submarines that sail across the Seven Seas God Bless Love and Light

An Alchemical Quest for Universal Knowledge Georgiana D. Hedesan,2016-04-20 History of science credits the Flemish physician alchemist and philosopher Jan Baptist Van Helmont 1579 1644 for his contributions to the development of chemistry and medicine Yet as this book makes clear focussing on Van Helmont s impact on modern science does not do justice to the complexity of his thought or to his influence on successive generations of intellectuals like Robert Boyle or Gottfried Leibniz Revealing Van Helmont as an original thinker who sought to produce a post Scholastic synthesis of religion and natural philosophy Georgiana Hedesan reconstructs his ambitious quest for universal knowledge as it emerges from the text of the *Ortus medicinae* 1648 Published after Van Helmont s death by his son the work can best be understood as a compilation of finished and unfinished treatises the historical product of a life unsettled by religious persecution and personal misfortune The present book provides a coherent account of Van Helmont s philosophy by analysing its main tenets Divided into two parts the study opens with a background to Van Helmont s concept of an alchemical Christian philosophy demonstrating that his outlook was deeply grounded in the tradition of medical alchemy as reformed by Theophrastus von Hohenheim called Paracelsus 1493 1541 It then reconstitutes Van Helmont s biography while giving a historical dimension to his intellectual output The second part reconstructs Van Helmont s Christian philosophy investigating his views on God nature and man as well as his applied philosophy Hedesan also provides an account of the development of Van Helmont s thought throughout his life The conclusion sums up Van Helmont s intellectual achievement and highlights avenues of future research *Saint-Martin, the French Mystic and the Story of Modern Martinism* Arthur Edward Waite,1922 *Healing the Holy See - Improving Spiritual Intelligence, Evolution and Human Rights in the Roman Catholic Church and other Religions* Mark O'Doherty,2020-01-30 This book aims to further harmony and human rights in Catholicism and the world at large by exploring delicate issues within the Catholic Church such as clerical celibacy which ought to be discarded according to the author as well as gender inequality recent revolts in the Vatican showing that the church is still failing women While Pope Francis has opened up more discussion about women s roles and appointed women in key Vatican positions the topic of them becoming priests is still very much taboo Quantum Theory and the ethical and psychological ramifications of spiritual intelligence is also an approach which the world religions should adopt according to the author as the world is always in motion constantly changing developing and evolving However first and foremost this book advocates that we all have to work together on making the world a better place by being open minded and willing to overbridge differences so that peace prosperity and love can be manifested in the world
