Roger Fry Reader:

A Roger Fry Reader Roger Fry, 1996-07-15 This book brings together a comprehensive selection of Roger Fry's essays from modern French art to formalist aesthetic theory. The book examines the foundations of modern art criticism, the nature of art and the aesthetic experience.

Virginia Woolf's Common Reader Katerina Koutsantoni, 2016-02-11 In the first comprehensive study of Virginia Woolf's *Common Reader*, Katerina Koutsantoni draws on theorists from the fields of sociology, sociolinguistics, philosophy, and literary criticism to investigate the thematic pattern underpinning these books with respect to the persona of the common reader. Though these two volumes are the only ones that Woolf compiled herself, they have seldom been considered as a whole. As a result, what they reveal about Woolf's position with regard to the processes of writing, reading, and critical analysis has not been fully examined. Koutsantoni challenges the critical commonplace that equates Woolf's strategy of self-effacement and personal removal from her works as a necessary compromise that allowed her to achieve authorial recognition in a male-dominated context. Rather, Koutsantoni argues that an investigation of impersonality in Woolf's essays reveals the potential of the genre to function both as a vehicle for the subjective and dialogic expression of the author and reader and as a venue for exploring topics with which the ordinary reader can relate. As she explores and challenges the meaning of impersonality in Woolf's *Common Reader*, Koutsantoni shows how the related issues of subjectivity, authority, reader response, intersubjectivity, and dialogism offer useful perspectives from which to examine Woolf's work.

"Marketing Art in the British Isles, 1700 to the Present" Charlotte Gould, 2017-07-05 A cultural history of the first truly modern art market, *Marketing Art in the British Isles 1700 to the Present* furthers the burgeoning exploration of Britain's struggle to carve a niche for itself on the international art scene. Bringing together scholars from the UK, US, Europe, and Asia, this collection sheds new light on such crucial notions as the internationalization of the art market, the emergence of an increasingly complex exhibition culture, issues of national rivalry and emulation, artists' individual and collective strategies for their own promotion and survival, the persistent anti-commercialism of an elite group of art lovers and critics, and accusations of philistinism levelled at the middle classes, as well as an unquestionable native British genius at reconciling jarring discourses. Essays explore the unresolved tension between artistic aspirations and commercial interest, a tension that has come to shape Britain's national artistic tradition from the perspectives of artists, dealers, and super-collectors, and the upwardly mobile middle classes whose consumerism gave rise to the British art market as it is known today. Specific case studies include Whistler, Roger Fry, Damien Hirst, and Charles Saatchi. Essays consider art markets from London and Manchester to Paris and Flanders.

T. E. Hulme and the Ideological Politics of Early Modernism Henry Mead, 2015-08-27 Drawing on a range of archival materials, this book explores the writing career of the poet, philosopher, art critic, and political commentator T. E. Hulme, a key figure in British modernism.

The Bloomsbury Group and Modernity Dianne C. Betts, 2025-05-05 Historians have long noted the change in England's social and political life that occurred after the death of Queen Victoria in 1901 The Bloomsbury Group began to coalesce during the early years of Edwardian England responding to the shifts that were occurring Among these writers artists critics political scientists and economists a shared sensibility and common ethos drove the group to scrutinize middle class values and authority and to champion the priorities of the individual in the face of a stifling socioeconomic system This study examines the relationship between the Bloomsbury intellectuals and the moral compass of society Their philosophy influenced English history as each member in their own way sought to realize the civilization of their dreams constantly fluctuating between the illusion of their ideals and the disillusion of reality
