Racial Cleansing in Arkansas, 1883-1924 Guy Lancaster, 2014-07-30 Even before the end of Reconstruction in Arkansas the state already possessed a long standing reputation for violence including lynchings duels and feuds However the years following Reconstruction witnessed the creation of new forms of mob violence All across the state gangs of whites sought to drive African Americans from their homes their jobs and their positions of authority creating communities shamelessly advertised as 100% white This happened not only in the highland regions the Ozarks and the Ouachitas where the expulsion of African Americans created so called sundown towns but it also occurred in the low lying Delta lands of eastern Arkansas where cotton was king and where masked mobs of landless whitecappers and nightriders regularly dealt terror and murder to black sharecroppers Racial

Cleansing in Arkansas 1883 1924 Politics Land Labor and Criminality by Guy Lancaster is the first book to examine the phenomenon of racial cleansing within the context of one particular state illustrating how violence relates to geography and economic development Lancaster analyzes the wholesale expulsion of African Americans and the emergence of sundown towns together with a survey of more limited deportations including those with blatant political goals as well as vigilante violence The book has broader implications not only for the study of Southern and American history but also for a deeper understanding of ethnic and racial conflict local politics and labor history *Small-Town Dreams* John E. Miller, 2014-03-28

We live these days in a virtual nation of cities and celebrities dreaming a small town America rendered ever stranger by purveyors of nostalgia and dark visionaries from Sherwood Anderson to David Lynch And yet it is the small town that world of local character and neighborhood lore that dreamed the America we know today and the small town boy like those whose stories this book tells who made it real In these life stories beginning in 1890 with frontier historian Frederick Jackson Turner and moving up to the present with global shopkeeper Sam Walton a history of middle America unfolds as entrepreneurs and teachers like Henry Ford George Washington Carver and Walt Disney artists and entertainers like Thomas Hart Benton Grant Wood Carl Sandburg and Johnny Carson political figures like William McKinley William Jennings Bryan and Ronald Reagan and athletes like Bob Feller and John Wooden by turns engender and illustrate the extraordinary cultural shifts that have transformed the Midwest and through the Midwest the nation and the world Many of these men are familiar icons even Ford and Reagan certainly Ernie Pyle Sinclair Lewis James Dean and Lawrence Welk and others like artists Oscar Micheaux and John Steuart Curry economist Alvin Hansen and composer Meredith Willson less so But in their stories as John E Miller tells them all appear in a new light unique in their backgrounds and accomplishments united only in the way their lives reveal the persisting shaping power of place and particularly the Midwest on the cultural imagination and national consciousness In a thoroughly engaging style Miller introduces us to the small town Midwestern boys who became these all American characters privileging us with insights that pierce the public images of politicians and businessmen thinkers and entertainers alike From the smell of the farm the sounds and silences of hamlets and county seats the schoolyard athletics and classroom instruction and theatrical performance we follow these men to their moments of inspiration innovation and fame observing the workings of the small town past in their very different relationships with the larger world Their stories reveal in an intimate way how profoundly childhood experiences shape personal identity and how deeply place figures in the mapping of thought belief ambition and life's course **A History of the Ozarks, Volume 3** Brooks Blevins, 2021-12-14

Between the world wars America embraced an image of the Ozarks as a remote land of hills and hollers The popular imagination stereotyped Ozarkers as ridge runners hillbillies and pioneers a cast of colorful throwbacks hostile to change But the real Ozarks reflected a more complex reality Brooks Blevins tells the cultural history of the Ozarks as a regional variation of an American story As he shows the experiences of the Ozarkers have not diverged from the currents of mainstream life as

sharply or consistently as the mythmakers would have it. If much of the region seemed to trail behind by a generation, the time lag was rooted more in poverty and geographic barriers than a conscious rejection of the modern world and its progressive spirit. In fact, the minority who clung to the old ways seemed exotic largely because their anachronistic ways clashed against the backdrop of the evolving region around them. Blevins explores how these people's disproportionate influence affected the creation of the idea of the Ozarks and reveals the truer idea that exists at the intersection of myth and reality. The conclusion to the acclaimed trilogy *The History of the Ozarks Volume 3: The Ozarkers* offers an authoritative appraisal of the modern Ozarks and its people.

Titanic Thompson Kevin Cook, 2010-11-22 Capturing the spirit of a freewheeling era, this rollicking biography brings to life the gambler hero who inspired *Guys and Dolls*. Born in a log cabin in the Ozarks, Alvin Titanic Thompson (1892-1974) traveled with his golf clubs, a .45 revolver, and a suitcase full of cash. He won and lost millions playing cards, dice, golf, pool, and dangerous games of his own invention. He killed five men and married five women, each one a teenager on her wedding day. He ruled New York's underground craps games in the 1920s and was Damon Runyon's model for slick talking. Sky Masterson dominated the links in the pre-PGA Tour years. Thompson may have been the greatest golfer of his time, teeing up with Ben Hogan, Sam Snead, Lee Trevino, and Ray Floyd. He also traded card tricks with Houdini, conned Al Capone, lost a million to Minnesota Fats, and then teamed up with Fats and won it all back. A terrific read for anyone who has ever laid a bet, *Titanic Thompson* recaptures the colorful times of a singular figure, America's original road gambler.

Boom Town Marjorie Rosen, 2009-10 Investigating the personal stories behind the headquarters of the Wal-Mart empire, this examination focuses on the growth of Bentonville, Arkansas, a microcosm of America's social, political, and cultural shift. Numerous personalities are interviewed, including a multimillionaire Palestinian refugee who arrived penniless and is now dedicated to building a synagogue; a Mexican mother of three who was fired after injuring herself on the job; a black executive hired to diversify Wal-Mart whose arrival coincided with a KKK rally; and a Hindu father concerned about interracial dating. In documenting these citizens' stories, this account reveals the challenges and issues facing those who compose this and other boom towns, where demographics, the economy, and immigration and migration patterns are continually in flux. In shedding light on these important and timely anecdotes of America's changing rural and suburban landscape, this exploration provides an entertaining and intimate chronicle of the different ethnicities, races, and religions, as well as their ongoing struggles to adapt. Emerging as subtle sociology combined with drama and humanity, this overview illustrates the imperceptible and occasionally unpredictable movements that affect the nonmetropolitan environment of the United States.
