Rogue Primate An Exploration Of Human Domestication:

Rogue Primate John A. Livingston, 1994 Winner of the 1994 Governor General's Award If you buy only one book this decade let it be Rogue Primate The Toronto Star 1994 *Rogue Primate* John A. Livingston, 2001 In the 1970s environmentalist John Livingston began to find serious flaws in the conventional conservation argument He began to challenge the belief that the survival of undomesticated plants and animals in a world dominated by humans could be enabled through resource conservation managed by humans He argues that our dependence on ideas in effect our own domestication has cut us off from the natural world and led us to believe that our domination over nature is itself natural **The**

Evolution of Human Cleverness Richard Hallam, 2022-05-01 The Evolution of Human Cleverness presents a unique introduction to the way human cognitive abilities have evolved The book comprises a series of mini essays on distinct topics in which technical terms are simplified considering how humans made the long journey from our ape like ancestors to become capable of higher level reasoning and problem solving All the topics are cross linked allowing the reader to dip in and out but certain key concepts run through the underlying reasoning Chiefly these are adaptation and selection the distinction between ultimate and proximate causes of behaviour gene culture co evolution and domain general versus domain specific cognitive processes The book should help the reader draw lessons for the human species as a whole especially in view of the environmental threats to its own existence Entries have been carefully crafted to cut through scientific jargon providing bite sized and digestible chunks of knowledge making the topic accessible for students and lay readers alike The author draws on research from diverse fields including Psychology Anthropology Archaeology Biology and Neuroscience to provide an unbiased account of the field making it an ideal text for students of all levels Religion and Dangerous

Environmental Change Dieter Gerten, 2010 Given the increasing threats of environmental changes to human societies it is imperative to complement technological and economical problem solutions with alternative perspectives from the humanities and the arts This pioneering book attempts to advance climate and environmental sciences by including religion as a microcosm of cultural response to environmental change The authors are renowned in disciplines as diverse as hydrology religious studies theology cultural studies philosophy and visual arts They exemplify how religion can contribute to sustainable mitigation of climate change and to creative adaption to its impacts thus preparing for a deep cultivation of research on religion in environmental change *Rooted in the Land* William Vitek, Wes Jackson, 1996-01-01 This book is dedicated to the notion that human lives are enriched by participation in a social community that is integrated into the natural landscape of a particular place The writers explore the loss of community the philosophical foundations of communities Amish communities and the current renewal of community life **In Other Words** Anna Porter, 2018-09-25 In Other Words is a lively charming gossipy memoir of life in the publishing trenches and how one restlessly curious young woman sparked a creative awakening in a new country she chose to call home We need our own dreams Anna Porter When

Anna Porter arrived in Canada in early 1968 with one battered suitcase little money and a head full of dreams she had no idea that this country would become her home for the rest of her life or that she would play a major role in defining what it means to be Canadian And where better to become a Canadian than at the dynamic publishing house McClelland of prima donnas such as Roloff Beny and Harold Town whose excesses threatened to sink the company of exhausted editors dealing with intemperate writers of crazy schemes to interest Canadians in buying books She recalls the thrilling days at the helm of the company she founded in the 1980s when Canada's writers were suddenly front page news As president of Key Porter Books she dodged lawsuits argued with bank managers and fought to sell Canadian authors around the world This intriguing memoir brings to life that time in our history when finally the voices Canadians craved to hear were our own In Other Words is a love letter to Canada's authors and creative agitators who against almost impossible odds have sustained and advanced the nation's writing culture Moving effortlessly from the boardrooms of Canada's elite and the halls of power in Ottawa to the threadbare offices of idealistic young publishers and ultimately to her own painful yet ever present past in Hungary Porter offers an unforgettable insider's account of what is gained and lost in a lifetime of championing our stories
