Rol Vrachei V Ubiistve Tsarei:

The Politicization of Russian Orthodoxy Anastasia V Mitrofanova, 2005-07-26 This book analyzes the ideologies of politicized Orthodox Christianity in today Russia including fundamentalism pan Slavism neo Eurasianism Orthodox communism and nationalism Apart from textual analysis the volume provides a description of the specific subculture of political Orthodoxy i e its language symbols art mass media hangouts and dresscode This study represents the first scholarly examination of these topics Unlike other publications on the politicization of Orthodoxy it is focused not on the political ambitions of the Russian Orthodox Church ROC but on political movements ideologically based on their own interpretations of the Orthodox doctrine often contravening the canonical version The book demonstrates that the political Orthodox or Orthodox patriots are a specific branch of believers who frequently do not practice Orthodoxy properly inventing instead their own quasi Orthodox rituals The volume shows that the ROC is not responsible for such religious politicization and that the community of the political Orthodox is rather guided by religiously oriented lay intellectuals The book provides a brief analysis of this intellectual community Finally the volume demonstrates that even in the absence of significant electoral achievements some religio political Orthodox movements namely fundamentalists and nationalists have been able to gain public support at the grassroots level They have been able to infiltrate larger and more moderate political organizations thus contributing to a general Orthodoxization of Russian political discourse
