Role Of Business In Fostering Peaceful Societies:

The Role of Business in Fostering Peaceful Societies Timothy L. Fort, Cindy A. Schipani, 2004-11-11 Originally published in 2004 this book offers a fresh approach to understanding responsible business practice Global protests against multinational companies often give the misleading impression that the interests of multinationals and of peaceful societies are at odds By contrast Fort and Schipani contend not only does business benefit from a peaceful environment but it can in fact effectively foster peace through adopting responsible and open working methods Firms that promote economic development that allow external evaluation of their affairs and that build a sense of community both within the company and in their local areas make a great contribution to building a more harmonious culture Relevant for academics and practitioners the book shows how companies can encourage collaborative working across borders discourage corruption and create citizenship and problem solving practices which tend to reduce violence and increase social harmony Business, Conflict Resolution and Peacebuilding Derek Sweetman, 2009-05-15 Business Conflict Resolution and Peacebuilding examines the actions currently being taken by businesses in areas of violent conflict around the world and explores how they can make a significant contribution to the resolution of violent conflicts through business based peacebuilding This book combines two approaches to provide a comprehensive look at the current state and future of business based peacebuilding It marries a detailed study of documented peacebuilding activities with a map of the possibilities for future business related conflict work and pragmatic suggestions for business leaders conflict resolution practitioners and peacebuilding organizations The use of the label business based peacebuilding is new and signifies actions business can take beyond simple legal compliance or making changes to avoid creating a conflict Although business based peacebuilding is new examples are included from around the world to illustrate that working together businesses have a strong contribution to make to the creation of peaceful societies The book advocates pragmatic peacebuilding which is not overly concerned with cause driven models of conflict Instead pragmatic peacebuilding encourages an examination of what is needed in the conflict and what can be provided This approach is free of some of the ideological baggage of traditional peacebuilding and allows for a much wider range of participants in the peacebuilding project This book will be of much interest to students of peace studies conflict resolution international security and business studies as well as to practitioners and business leaders Derek Sweetman is Dispute Resolution Director for Better Business Bureau in Washington DC and Instructor at New Century College George Mason University USA **The Business of Human Rights** Aurora Voiculescu, Helen Yanacopulos, 2011-01-13 In a time when multinational corporations have become truly globalised demands for global standards on their behaviour are increasingly difficult to dismiss Work conditions in sweatshops widespread destruction of the environment and pharmaceutical trials in third world countries are only the tip of the iceberg This timely collection of essays addresses the interface between the calls for corporate social responsibility CSR and the demands for an extension of international human

rights standards Scholars from a vast variety of backgrounds provide expert yet accessible accounts of questions of law politics economics and international relations and how they relate to one another while also encouraging non legal perspectives on how businesses operate within and around human rights The result is an essential incursion for a wide range of scholars practitioners and students in law development business studies and international studies in this emerging area of human rights

International Business Under Adversity Gabriele G. S. Suder, 2008-01-01 Business and corporate actions globally and locally have often encouraged and aggravated human conflict Equally evident is the fact that business if only out of enlightened self interest can and should be an integral part of preventing mitigating and ending violent conflict This highly complex relationship needs to be seriously studied and discussed with an open mind Dr Suder's publication makes an important contribution to this discussion and I recommend the information and analysis contained in this book to a wide audience Daniel Stauffacher Former Ambassador of Switzerland and Chairman ICT4Peace Foundation While Golda Meir was Prime Minister of Israel she shared her hopes for
