Role Of Islam In The Legal System Of Pakistan:

The Role of Islam in the Legal System of Pakistan Martin Lau, 2006 Starting in 1947 this volume examines the way Pakistani judges have dealt with the controversial issue of Islam in the past 50 years The book's focus on reported case law offers a new perspective on the Islamisation of Pakistan's legal system in which Islam emerges as more than just a challenge to Western conceptions of human rights

The Role of Islam in the Legal System of Pakistan Martin Lau, 2005-12-01 The role of the judiciary in the Islamisation of Pakistan's legal system has not received much attention by legal scholars This book aims to fill this gap Starting in 1947 it examines the way Pakistani judges have dealt with the controversial issue of Islam in the past 50 years The book's focus on reported case law offers a new perspective on the Islamisation of Pakistan's legal system in which Islam emerges as more than just a challenge to Western conceptions of human rights The first part examines the emergence of Islamic arguments in the period up to 1977 when General Zia ul Haq embarked on an ambitious project to turn Pakistan into a truly Islamic state In these early years of Pakistan judges increasingly turned to Islam as a source of law to preserve judicial independence and to protect the country's faltering democracy The second part examines in detail the features and effects of Zia's Islamisation programme especially the workings of the newly created Federal Shariat Court The third part reviews the legal developments in the post Zia period when the judicial gates of Islamization which were first wide opened have gradually been closed by a series of landmark decisions What emerges from this analysis is an image of Islam as a source of law which is rich complex and varied Depending on the judge and the court Islam was applied to varying effects ranging from liberal to extremely conservative attitudes However they share a common feature namely that the role of Islam in the legal system of Pakistan is to a large degree determined by its higher judiciary

The Application of Islamic Criminal Law in Pakistan Tahir Wasti, 2009 No legal system in the world has aroused as much public interest as Sharia However the discourse around Sharia law is largely focussed on its development and the theories principles and rules that inform it Less attention has been given to studying the consequences of its operation particularly in the area of Islamic criminal law Even fewer studies explore the actual practice of Islamic criminal law in contemporary societies This book aims to fill these gaps in our understanding of Sharia law in practice It deals specifically with the consequences of enforcing Islamic criminal law in Pakistan providing an in depth and critical analysis of the application of the Islamic law of Qisas and Diyat retribution and blood money in the Muslim world today The empirical evidence adduced more broadly demonstrates the complications of applying traditional Sharia in a modern state

Political Conflict in Pakistan Mohammad Waseem, 2022-04-01 This book is a major reinterpretation of politics in Pakistan Its focus is conflict among groups communities classes ideologies and institutions which has shaped the country's political dynamics Mohammad Waseem critically examines the theory surrounding the millennium long conflict between Hindus and Muslims as separate nations who practiced mingled faiths and the Hindu Muslim and Sikh renaissances that created a twentieth century clash of communities and led to partition Political

Conflict in Pakistan addresses multiple clashes between the high culture as a mission to transform society and the low culture of the land and the people between those committed to the establishment's institutional constitutional framework and those seeking to dismantle the colonial state between the corrupt and those seeking to hold them to account between the political class and the middle class and between civil and military power The author exposes how the ruling elite centralised power through the militarisation and judicialization of politics rendering the federalist arrangement an empty shell and thus grossly alienating the provinces He sets all this within the contexts of education and media as breeders of conflict the difficulties of establishing an anti terrorist regime and the state's pragmatic attempts at conflict resolution by seeking to keep the outsiders inside This is a wide ranging account of a country of contestations

space for critique *Law, State and Inequality in Pakistan* Muhammad Azeem, 2017-07-02 Through a detailed historical and empirical account of post independence years this book offers a new assessment of the role of the judiciary in Pakistani politics. Instead of seeing the judiciary as helpless or struggling against an authoritarian state it argues that the judiciary has been a crucial link in the creation of state and political inequality in Pakistan. This rubs against the central role given to the judiciary in developing countries to fix the corrupt politicians and stubborn bureaucracies in the World Bank's Good Governance paradigm and rule of law initiatives. It also challenges the contemporary legal and judicial discourse that extols the virtues of Public Interest Litigation. While the book's core analysis is a critique of the contemporary liberal legal project it also adds to the critical tradition of social theory by linking political economy to a social theory of law. The theoretical aspect of the study is applicable to any developing society whose judiciary is going through foreign sponsored rule of law judicial reforms **India, Pakistan, and Democracy** Philip Oldenburg, 2010-09-13 This book focuses on the specificities and the nuances of the state systems of India and Pakistan. It examines in detail the balance of authority and power between popular or elected politicians and the state apparatus through substantial historical analysis. A comparative analysis as well as a historical overview of the two countries this book constitutes essential reading for students of South Asian History and Politics. It is a useful and balanced introduction to the politics of India and Pakistan *The Law Applied* Perri Bearman, Bernard G. Weiss, Wolfhart Heinrichs, 2008-01-30 A sea change has taken place in Islamic legal studies. This book both reflects and contributes to that change. Traditionally scholars in this field have tended to focus on law as a body of rules and doctrines as fiqh. This volume is more interested in how the law has been applied to concrete situations. It looks at judicial decision making, legal responses, fatwas, customary practices, the actions of public inspectors, cultural contexts and theological discourses as well as modern legal reform and constitutional development. Reflecting the interests of a new academic generation *The Law Applied* offers an ambitious and textured account of how Islamic law works in practice in the social life of the contemporary world Islamic Divorce in the Twenty-First Century Erin E. Stiles, Ayang Utriza Yakin, 2022-09-16 *Islamic Divorce in the 21st Century* shows the wide range of Muslim experiences in marital disputes and in seeking Islamic divorces. For Muslims having the ability to divorce in accordance with Islamic law is of paramount importance. However Muslim experiences of divorce practice differ tremendously. The chapters in this volume discuss Islamic divorce from West Africa to Southeast Asia and each story explores aspects of the everyday realities of disputing and divorcing Muslim couples face in the twenty first century. The book's cross cultural and comparative look at Islamic divorce indicates that Muslim divorces are impacted by global religious discourses on Islamic authority, authenticity and gender, by global patterns of and approaches to secularity and by global economic inequalities and attendant patterns of urbanization and migration. Studying divorce as a mode of Islamic law in practice shows us that the Islamic legal tradition is flexible, malleable and context dependent Legal Pluralism in Muslim Contexts Norbert Oberauer, Yvonne Prief, Ulrike Qubaja, 2019-05-20 Approaches to

legal pluralism vary widely across the spectrum of different disciplines They comprise normative and descriptive perspectives focus both on legal pluralist realities as well as public debates and address legal pluralism in a range of different societies with varying political institutional and historical conditions Emphasising an empirical research to contemporary legal pluralist settings in Muslim contexts the present collected volume contributes to a deepened understanding of legal pluralist issues and realities through comparative examination This approach reveals some common features such as the relevance of Islamic law in power struggles and in the construction of state or national identities strategies of coping with coexisting sets of legal norms by the respective agents or public debates about the risks induced by the recognition of religious institutions in migrant societies At the same time the studies contained in this volume reveal that legal pluralist settings often reflect very specific historical and social constellations which demands caution towards any generalisation The volume is based on papers presented at a conference in Münster Germany in 2016 and comprises contributions by Judith Koschorke Karen Meerschaut Yvonne Prief Ulrike Qubaja Werner de Saeger Ido Shahar Katrin Seidel Konstantinos Tsitselikis Vishal Vora and Ihsan Yilmaz

The Muslim World Book Review ,2006 **The Awakening of Muslim Democracy** Jocelyne Cesari,2014-04-14 Why and how did Islam become such a political force in so many Muslim majority countries In this book Jocelyne Cesari investigates the relationship between modernization politics and Islam in Muslim majority countries such as Egypt Iraq Pakistan Tunisia and Turkey countries that were founded by secular rulers and have since undergone secularized politics Cesari argues that nation building processes in these states have not created liberal democracies in the Western mold but have instead spurred the politicization of Islam by turning it into a modern national ideology Looking closely at examples of Islamic dominance in political modernization this study provides a unique overview of the historical and political developments from the end of World War II to the Arab Spring that have made Islam the dominant force in the construction of the modern states and discusses Islam's impact on emerging democracies in the contemporary Middle East
