Samoa Mo Samoa:

The Making of Modern Samoa Malama Meleisea, 1987 Since independence in January 1962 several constitutional court cases have exposed the dilemma which the Western Samoa Government is facing balancing fa a Samoa Samoan customs and traditions with Western legal systems of authority This book traces the clash between Samoan and Western notions of government and law from the 1830s to the 1980s emphasizing the hitherto neglected interpretation of events from a Samoan perspective As a critical reinterpretation of the literature on Western Samoa drawing on oral sources and material from the archives of the Land and Titles Court of Western Samoa the book provides important new insights into pre colonial regimes racial issues and the contemporary political problems of the independent state of Western Samoa Back cover

Samoa Mo Samoa James Wightman Davidson, 1967 Historical background of the colonisation and accession to independence of Western Samoa and study of the development of government and political structures of the country refers in particular to the period from 1830 to 1962 and covers the role of UK the role of Germany the role of USA the role of New Zealand political leadership public administration government policy sociological aspects cultural factors tradition etc References *Tamaitai Samoa* Peggy Fairbairn-Dunlop, 1998 This is the story of Samoan women written in their own words

Sometimes sad often exhilarating and always interesting this is a fascinating insight into an ancient culture viewed from the perspective of women In an often male dominated society the book tells us much that we may have already suspected that even in overtly male societies women are powerful **The Western Samoan Kinship Bridge** Evelyn Kallen, 1982-01-01

Samoa Mo Samoa Michael Field, 2014 A large and peaceful pro independence march along Beach Road in Apia Samoa Amidst panic and confusion New Zealand police open fire with rifles and a machine gun killing nine people and wounding fifty In this BWB Text Michael Field describes what happened on Black Saturday 28 December 1929 a day that is largely forgotten in New Zealand history but is vividly recalled in Samoa Publisher information Western Samoa Amelia

Khatri, AI, 2025-03-20 Western Samoa explores the captivating story of this Pacific island nation examining its transformation from a pre colonial society through German and New Zealand administrations to its hard won independence The book illuminates Samoa s nation building journey focusing on the influences of colonialism decolonization and the forging of a sovereign nation Did you know that the Mau movement a powerful Samoan independence movement played a crucial role in challenging colonial rule Or that the drafting of a constitution and the establishment of a parliamentary democracy marked a pivotal moment in Samoa s path to self determination This historical narrative showcases the agency of the Samoan people in shaping their own destiny challenging simplistic views of colonial oppression Utilizing primary sources like colonial archives and oral histories the book adopts a multi faceted approach blending historical analysis with insights from anthropology and political science From examining German economic policies to analyzing New Zealand s governance approach the book progresses chronologically providing a nuanced and comprehensive view of Samoan history It also connects Samoa s

historical journey to broader themes in world history Texts and Contexts Doug Munro, Brij V. Lal, 2005-11-30 Texts and Contexts is concerned with the development of Pacific Islands history as a specialization in its own right Specifically this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field Thirty five texts all of which represent defining points in the development of Pacific Islands historiography are examined Much more than retrospective appraisals of the foundational texts the individual chapters consider a text or complimentary texts within the context of the time of writing and gauge what ongoing influence they exerted In some cases they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism Contributors Chris Ballard on Gavin Souter Ivan Brady on Greg Denning I C Campbell on Norma McArthur Bronwen Douglas and Doug Munro on H E Maude and Dorothy Shineberg Michael Goldsmith on Marshall Sahlins David Hanlon on Francis X Hezel K R Howe on Andrew Sharp and David Lewis Brij V Lal on K L Gillion and Peter Corris Hugh Laracy on Niel Gunson and Ta unga Lamont Lindstrom on Peter Worsley and Peter Lawrence Doug Munro on Douglas L Oliver R P Gilson J W Davidson and K R Howe Vincent O Malley on Keith Sinclair and Alan Ward Jon Osorio on Ralph Kuykendall and Gavan Daws Tom Ryan on Bernard Smith Jane Samson on W P Morrell and Deryck Scarr Francis West on Francis West and Gavan Daws Glyndwr Williams on O H K Spate **Cricket, Kirikiti and Imperialism in Samoa, 1879-1939** Benjamin Sacks, 2019-10-10 This book considers how Samoans embraced and reshaped the English game of cricket recasting it as a distinctively Samoan pastime kirikiti Starting with cricket s introduction to the islands in 1879 it uses both cricket and kirikiti to trace six decades of contest between and within the categories of colonisers and colonised How and why did Samoans adapt and appropriate the imperial game How did officials missionaries colonists soldiers and those with mixed foreign and Samoan heritage understand and respond to the real and symbolic challenges kirikiti presented And how did Samoans use both games to navigate foreign colonialism s By investigating these questions Benjamin Sacks suggests alternative frameworks for conceptualising sporting transfer and adoption and advances understandings of how power politics and identity were manifested through sport in Samoa and across the globe **Samoa** H. G. A. Hughes, 1997 This bibliography of works on Samoa seeks to dispel the myth of sunbaked carefree islands by directing the reader to resources which discuss its difficult past and current challenges Provides informative annotations on a wide range of books and articles dealing with all aspects of American Samoa and Western Samoa including geography climate flora and fauna history society language politics culture and the arts Maps and a chronology are included Annotation copyrighted by Book News Inc Portland OR **Bordered Bodies, Bothered Voices** Jione Havea, 2022-04-29 Theologies are constructed in and from lived contexts and contexts are shaped by borders While borders are barriers they are also steppingstones for crossing over and invitations for moving further This book offers theological and cultural reflections from the intersections of borders real and imagined bodies physical cultural religious

ideological political and voices that endorse as well as talk back With and in the interests of natives and migrants the authors of this book embrace bordered bodies and stir bothered voices The essays are divided into four overlapping clusters that express the shared drives between the authors Noble borders some borders are not experienced as constricting because they are seen as noble Negotiating bodies bodies constantly negotiate and relocate borders Troubling voices bothered voices cannot be muted or silenced Riotous bodies embracing the wisdom in and of rejected and wounded bodies is a riot that this book invites The authors engage their subjects out of their experiences as migrants and natives This book is thus a step toward and an invitation for more work on migrant and native theologies *No Family Is an Island* Ilana

Gershon, 2012-05-08 Government bureaucracies across the globe have become increasingly attuned in recent years to cultural diversity within their populations Using culture as a category to process people and dispense services however can create its own problems and unintended consequences In *No Family Is an Island* a comparative ethnography of Samoan migrants living in the United States and New Zealand Ilana Gershon investigates how and when the categories cultural and acultural become relevant for Samoans as they encounter cultural differences in churches ritual exchanges welfare offices and community based organizations In both New Zealand and the United States Samoan migrants are minor minorities in an ethnic constellation dominated by other minority groups As a result they often find themselves in contexts where the challenge is not to establish the terms of the debate but to rewrite them To navigate complicated and often unyielding bureaucracies they must become skilled in what Gershon calls reflexive engagement with the multiple social orders they inhabit Those who are successful are able to parlay their own cultural expertise their Samoanness into an ability to subtly alter the institutions with which they interact in their everyday lives Just as the cultural is sometimes constrained by the forces exerted by acultural institutions so too can migrant culture reshape the bureaucracies of their new countries Theoretically sophisticated yet highly readable *No Family Is an Island* contributes significantly to our understanding of the modern immigrant experience of making homes abroad **Rethinking the Colonial State** Søren Rud, Søren

Morgan A. Tuimaleali'ifano, 2006 The Guardians Susan Pedersen, 2015-04-29 Winner of the Cundill Prize in Historical Literature Shortlisted for the Lionel Gelber Prize At the end of the First World War the Paris Peace Conference saw a battle over the future of empire The victorious allied powers wanted to annex the Ottoman territories and German colonies they had occupied Woodrow Wilson and a groundswell of anti imperialist activism stood in their way France Belgium Japan and the British dominions reluctantly agreed to an Anglo American proposal to hold and administer those allied conquests under mandate from the new League of Nations In the end fourteen mandated territories were set up across the Middle East Africa and the Pacific Against all odds these disparate and far flung territories became the site and the vehicle of global transformation In this masterful history of the mandates system Susan Pedersen illuminates the role the League of Nations played in creating the modern world Tracing the system from its creation in 1920 until its demise in 1939 Pedersen examines its workings from the realm of international diplomacy the viewpoints of the League's experts and officials and the arena of local struggles within the territories themselves Featuring a cast of larger than life figures including Lord Lugard King Faisal Chaim Weizmann and Ralph Bunche the narrative sweeps across the globe from windswept scrublands along the Orange River to famine blighted hilltops in Rwanda to Damascus under French bombardment but always returns to Switzerland and the sometimes vicious battles over ideas of civilization independence economic relations and sovereignty in the Geneva headquarters As Pedersen shows although the architects and officials of the mandates system always sought to uphold imperial authority colonial nationalists German revisionists African American intellectuals and others were able to use the platform Geneva offered to challenge their claims Amid this cacophony imperial statesmen began exploring new means client states economic concessions of securing Western hegemony In the end the mandate system helped to create the world in which we now live A riveting work of global history The Guardians enables us to look back at the League with new eyes and in doing so appreciate how complex multivalent and consequential this first great experiment in internationalism really was

Reform Geoffrey Palmer, 2013-11 Politician and law professor Geoffrey Palmer recounts the events and forces that shaped him in this memoir as well as his many adventures in reforming a wide range of institutions laws and policies Reform has been a recurring theme throughout Geoffrey Palmer's life not only during his career in politics and as a Prime Minister but also as a law professor and law practitioner He speaks of his early life and family background and the eventful lives of his pioneering ancestors He examines the intellectual influences on his thinking particularly the nature of his education both in New Zealand and the United States and chronicles his life according to the issues accident compensation the Constitution the Bill of Rights the Law Commission liquor law Maori issues parliamentary reform the Resource Management Act law and order prisons and local government reform Meticulously detailed and engagingly written Reform is essential reading for anyone interested in New Zealand legal and political history **Worldly Provincialism** H. Glenn Penny, Matti Bunzl, 2010-03-10 Worldly Provincialism introduces readers to the intellectual history that drove the emergence of German

anthropology Drawing on the most recent work on the history of the discipline the contributors rethink the historical and cultural connections between German anthropology colonialism and race By showing that German intellectual traditions differed markedly from those of Western Europe they challenge the prevalent assumption that Europeans abroad shared a common cultural code and behaved similarly toward non Europeans The eloquent and well informed essays in this volume demonstrate that early German anthropology was fueled by more than a simple colonialist drive Rather a wide range of intellectual history shaped the Germans rich and multifarious interest in the cultures religions physiognomy physiology and history of non Europeans and gave rise to their desire to connect with the wider world Furthermore this volume calls for a more nuanced understanding of Germany s standing in postcolonial studies In contrast to the prevailing view of German imperialism as a direct precursor to Nazi atrocities this volume proposes a key insight that goes to the heart of German historiography There is no clear trajectory to be drawn from the complex ideologies of imperial anthropology to the race science embraced by the Nazis Instead of relying on a nineteenth century explanation for twentieth century crimes this volume ultimately illuminates German ethnology and anthropology as local phenomena best approached in terms of their own worldly provincialism H Glenn Penny is Assistant Professor of History at the University of Missouri Kansas City Matti Bunzl Assistant Professor of Anthropology and History at the University of Illinois at Urbana Champaign
