The Big Influence of Small Things Brett Blair, Tim Carpenter, 2003. Anyone who has done children's sermons will sooner or later hear from someone that they learn more from the children's sermon than they do from the real sermon. And indeed the truths of scripture are so simple that even a child can understand them. So it's no accident that children's sermons have become a central part of the worship service in many churches. Brett Blair and Tim Carpenter offer a year's worth of object lessons that engage children and impart profound lessons for all ages. Two sermons are provided for each Sunday in Cycle A of the Revised Common Lectionary: one based on the Second Lesson and one based on the Gospel. The messages are structured in two parts: the lesson uses an object to draw out active responses from children; then the application connects that object to the assigned scripture reading. Each message includes a clear statement of its exegetical aim. Bright, innovative, perceptive, creative, grace-filled. Brett Blair and Tim Carpenter are all of those and much much more, and that is reflected beautifully in their new book *The Big Influence Of Small Things*. James W. Moore, Pastor St. Luke's United Methodist Church, Houston, Texas. Brett Blair is the pastor of Scenic Hills United Methodist Church in Memphis, Tennessee. He holds the M.Div. degree from Yale University Divinity School and is a cum laude graduate of Oral Roberts University with B.A. and M.A. degrees in New Testament Literature. Tim Carpenter is the pastor of First United Methodist Church in Bolivar, Tennessee. He is a magna cum laude graduate from Memphis Theological Seminary with a M.Div. degree and holds the B.A. degree in Political Science from the University of Florida.

The Forbidden List David Grace, 2009-09-17. More than sixty years ago, revolutionary technology was seized from a Nazi slave labor laboratory in central Europe and consigned by the Government to the Forbidden List to be kept secret forever. But forever is a long time. Recently, Deputy Assistant Secretary of Defense Daniel Rivers stumbled across the material and plotted to make a fortune from its release. Rivers' scheme was discovered, and everyone relaxed when he was quietly silenced with a commitment to the Wheaton Fields Psychiatric Clinic. Relaxed that is, until it was discovered that a copy of the startling data was missing. Now competing forces are plotting to recover the revolutionary discovery. In the middle of this free-for-all is Dr. Steven Westbrook, the new Medical Director at the Wheaton Fields Hospital. On Westbrook's second day as Medical Director, he's confronted with Daniel Rivers' murder, which is soon followed by a puzzling series of events as the battle to find and exploit the missing technology becomes increasingly more lethal and draws Westbrook ever deeper into its web.
