

Poetic Mode

- The poetic mode is considered a 'subjective interpretation of the subject' – essentially meaning its biased.
- This mode dictates that a certain tone or mood is depicted throughout the documentary, which will influence the viewers understanding and intake of information. This mood is purposefully created through the leaving out of important information, such as character descriptions and specific events, which create a biased view point.

undoubtedly become a valuable source of comparison and inspiration These Taiwanese documentaries introduce a new Asian perspective to the wealth of Anglo American scholarship with the potential to serve as exemplar for countries undergoing similar political and social transformations Documenting Taiwan on Film is essential reading for all those interested in Taiwan Studies film studies and Asian cinema

Authorship and Publicity Before Print Daniel Hobbins,2012-02-28 Widely recognized by contemporaries as the most powerful theologian of his generation Jean Gerson 1363 1429 dominated the stage of western Europe during a time of plague fratricidal war and religious schism Yet modern scholarship has struggled to define Gerson's place in history even as it searches for a compelling narrative to tell the story of his era Daniel Hobbins argues for a new understanding of Gerson as a man of letters actively managing the publication of his works in a period of rapid expansion in written culture More broadly Hobbins casts Gerson as a mirror of the complex cultural and intellectual shifts of the fourteenth and fifteenth centuries In contrast to earlier theologians Gerson took a more humanist approach to reading and to authorship He distributed his works both Latin and French to a more diverse medieval public And he succeeded in reaching a truly international audience of readers within his lifetime Through such efforts Gerson effectively embodies the aspirations of a generation of writers and intellectuals Removed from the narrow confines of late scholastic theology and placed into a broad interdisciplinary context his writings open a window onto the fascinating landscape of fifteenth century Europe The picture of late medieval culture that emerges from this study is neither a specter of decaying scholasticism nor a triumphalist narrative of budding humanism and reform Instead Hobbins describes a period of creative and dynamic growth when new attitudes toward writing and debate demanded and eventually produced new technologies of the written word *The Purple Island and Anatomy in Early Seventeenth-century Literature, Philosophy, and Theology* Peter Mitchell,2007 Sets out to reconstruct and analyze the rationality of Phineas Fletcher's use of figurality in *The Purple Island* 1633 a poetic allegory of human anatomy This book demonstrates that the analogies and metaphors of literary works share coherence and consistency with anatomy textbooks
