The Man who Made Littlewoods Barbara Clegg,1993      The Football Pools and the British Working Class Keith Laybourn,2022-07-22 This book is the first national study of the football pools in Britain which examines the politics and culture of the gambling on the football pools It charts the rise of the football pools focusing upon its rapid growth from the 1920s and its prolonged decline in British culture from the 1990s partly as a result of the National Lottery The book explores how this new gambling activity became a significant leisure opportunity for the working class a way to feel that the individual skill of the punter could lead to the winning of some life changing jackpot cheque being presented by a sporting personality of celebrity Dominated by Littlewoods and other large commercial companies the weekly filling in of the coupons was considered to be a safe form of investment guaranteed by the integrity of the pool companies rather than some seedy gambling operation The Football Pools and the British Working Class looks at different elements of the football pools from what attracted people to this form of gambling to how the industry developed and adjusted to the suspension of the football fixtures in 1936 and the bad winter of 1962 3 Above all it examines the deep hostility that surrounded the filling in of the football pools arising from the National Anti Gambling League religious groups the football authorities and MPs This book will appeal to all those interested in the history of British football and 20th century British working class culture

This text examines the history of consumer credit and debt in working class communities Concentrates on forms of credit that were traditionally very dependent on personal relationships and social networks it covers how community based arrangements declined as more impersonal forms of borrowing emerged during the 20th century      **Mail Order Retailing in Britain** Richard Coopey,Sean O'Connell,Dilwyn Porter,2005-01-27 Since its inception in the late 19th century Britain s mail order industry both exploited and generated social networks in building its businesses The common foundation of the sector was the agency system Sales were made through catalogues held by agents ordinary people in families

neighbourhoods pubs clubs and workplaces Through this agency system mail order firms in Britain were able to tap social networks both to build a customer base but also to obtain vital information on creditworthiness In this the first comprehensive history of the British mail order industry the authors combine business and social history to fully explain the features and workings of this industry They show how British general mail order industry firms such as Kay and Co Empire Stores Littlewoods and Grattan grew from a range of businesses as diverse as watch sales or football pools A range of business innovations and strategies were developed throughout the twentieth century including technological development and labour process rationalisation Indeed the sector was in the vanguard of many aspects of change from supply chain logistics to computerization The social and gender profile of the home shopper also changed markedly as the industry developed These changes are charted from the male dominated origins of the industry to the growing influence of women both within the firm and more importantly as the centre of the mail order market The book also draws parallels and contrasts with the much more widely studied mail order industry of the United States The final section of the book examines the rise of internet shopping and the new challenges and opportunities it provided for the mail order industry Here the story is one of continuity and fracture as the established mail order companies struggle to adjust to a business environment which they had partly created but which also rested on a new range of core competencies and technological and demographic change

**Money Can't Buy Us Love** Gavin Buckland, 2019-08-08 In 1960 the wealthy owner of the Merseyside based Littlewoods corporation John Moores took control of Everton Football Club setting in motion a chain of events that still affect the game in this country today Everton had enjoyed success before Moores s takeover but things would never be the same again from the moment he walked through Goodison s doors Although big clubs had spent money before none had done so with such naked short term ambition and a ruthlessness to succeed that sent shockwaves through the previously stagnant world of English football The new owner s ruthless streak was personified by his first major move sacking the popular Johnny Carey in the back of a London taxi in April 1961 Everton would finish that 1960 61 season in fifth place their highest position since World War Two but the Irishman s affable nature cost him his job In his place Moores wanted a man in his own image to lead the club forward and he soon found him Harry Catterick Catterick was little over 40 years old and had been an Everton player himself only ten years before But as a boss he exuded an aura that demanded respect and obedience from his players It was a characteristic that won him few fans but plenty of trophies and across the decade Everton reasserted themselves as one of English football s powerhouses winning two league titles and an FA Cup Catterick s ability to nurture young products of the club s youth set up such as Colin Harvey and Joe Royle was trumped only

by his mastery of the transfer market allowing him to sign the great Howard Kendall from Preston North End and World Cup winner Alan Ball from under his rivals noses Harvey Kendall and Ball would soon form the club's greatest midfield trio and their brilliance would underpin the 1969/70 title win a victory for free flowing football in an era of cynicism That trophy would be Everton's last major honour for 14 years In *Money Can't Buy Us Love* Everton's official statistician Gavin Buckland tells the tale of how Moores and manager Harry Catterick took the so called Mersey Millionaires to the summit of English football in the context of the major cultural changes of the time The book provides a forensic character study of both Catterick and Moores and also delves into the archives to provide a definitive account of the incidents that rocked the club in a fruitful but turbulent decade including allegations of doping in the 1962/63 campaign the 1964 match fixing scandal which signalled the end of Tony Kay's career and the shock sale of Alan Ball *Money Can't Buy Us Love* offers fascinating insight into how strong personalities can take a team to the very top but can also cause in its ultimate downfall

British Baseball and the West Ham Club Josh Chetwynd,Brian Belton,2006-12-29 Few people associate baseball with Great Britain but for a brief period in the 1930s America's pastime nearly gained a foothold with the British populace Though never as popular as the beloved football clubs or even greyhound races baseball teams like the West Ham Hammers developed intense local followings and played some excellent baseball in 1936 the Hammers defeated the U S Olympic team The outbreak of World War II ended the rising popularity of baseball among Britons but speculation remains that under different circumstances British baseball could have flourished This book traces the history of baseball as a popular British sport concentrating on one particularly successful and notable team the West Ham Hammers It places the West Ham club within the historical context of 1930s Great Britain and covers team management major players e.g. Roland Gladu the Canadian Babe Ruth and the fans many of whom still cling fondly to faded memories of the club and West Ham Stadium Eight appendices include team rosters British baseball rules and year by year records from 1890 to 2005

Edward Cullen,2011 *Red Men* John Williams,2011-04-01 In Red Men a unique and exhaustively researched history of Liverpool Football Club John Williams explores the origins and divisive politics of football in the city of Liverpool and profiles the key men behind the emergence of the club and its early successes The first great Liverpool manager Tom Watson piloted the club to its first league championships in 1901 and 1906 before taking the club to the FA Cup final in 1914 Watson and the key members of those early Liverpool teams are analysed in depth as is the role of the club and its fans in the city as Merseyside balanced self improvement and cosmopolitanism with almost unimaginable problems of poverty Liverpool secured consecutive league titles in 1922 and 1923 with the incomparable goalkeeper Elisha Scott as its totemic star and the darling of the Kop In the 20s Liverpool was also the first British club to internationalise its playing staff The club s next league title came in 1947 but in the bleak 50s the Liverpool board ruled with an iron fist and controlled the purse strings until Bill Shankly arrived and won that elusive first FA Cup in 1965 The recent tragedies that have shaped the club s contemporary identity are also covered here as are the new Continental influences at Liverpool and of course the glory of Istanbul in 2005 Red Men is the definitive history of a remarkable football club from its formation in 1892 to the present day told in the wider context of the social and cultural development of the city of Liverpool and its people **Gentrification**

**and the Enterprise Culture : Britain 1780-1980** Prof F. M. L. Thompson,2001-04-05 The long running debate on Britain s

apparent economic decline in the last 120 years not exactly noticeable in the living standards of ordinary people which have risen enormously in that time has generated a large economic and statistical literature and a great deal of heat in rival social and cultural explanations The decline has been confidently attributed to the permeation of the business elite by the anti industrial and anti commercial attitudes communicated by public schools and the old universities through their propagation of aristocratic and gentry values and the readiness of the business elite to be thus permeated has been ascribed to the persistent tendency of new men of wealth to transform themselves into landed gentlemen There have been equally confident claims to have overturned this traditional view that wealthy merchants and industrialists sought to acquire landed estates and country houses and to have established that gentlemanly values were in fact economically advantageous to Britain because she never was a primarily industrial economy In this book Professor Thompson subjects these interpretations to the test of the actual evidence and firmly re-establishes the conventional wisdom on the characteristic desire of new money to acquire land and a place in the country an aspiration which continues to be manifest today At the same time he shows that aristocratic and gentry cultures have not by any means been consistently anti industrial or anti business and that many of the businessmen turned landowners have in fact not turned their backs on industry but have founded business dynasties Gentrification has indeed occurred on a large scale over the last two hundred years but has had no discernible effects one way or the other on Britain economic performance [Business Archives](#) ,2000 [You May Never See Us Again](#) Jane Martinson,2023-10-19 Part Ozymandias part Succession Financial Times A tour de force Guardian A Financial Times Book of the Year 2023 The inside story of the rise and fall of the Barclay brothers secretive business titans and one time owners of the Ritz and the Daily Telegraph Born poor the Barclay brothers were enigmatic twins who built one of the biggest fortunes in Britain together from scratch and spent six decades at the epicentre of business media and politics Their empire said to be worth 7bn at its height included Littlewoods the Ritz Hotel the Daily Telegraph and the Channel Island of Brecqhou They were major advocates for Brexit and well connected with influential politicians including Margaret Thatcher Boris Johnson and Nigel Farage And yet despite their fortune and influence their fiercely guarded desire for privacy has meant that their story has remained largely unknown until a very public family dispute pitched Barclay against Barclay in the High Court In [You May Never See Us Again](#) journalist Jane Martinson unravels the fascinating story of these once inseparable billionaire brothers Through their lives she offers compelling insights into post war Britain from the conditions that enabled their way of doing business to thrive through to the tightly enmeshed webs of influence between capitalism politics and the media that shape Britain today
